Subject: Follow-up: Fulton County: Covid-19 Test Kits Sourcing & Marketing/Promotions Request - Minority Communities
Importance: High

Dick - Good day. How are you? Your family?

I wanted to follow up to the email that I sent you on Wednesday, regarding my agency's interest in providing Covid-19 kits; advertise and promote testing sites in Fulton County.

Insights is a Fulton County based award winning, minority owned MBE & WBE certified marketing & promotions agency.

Insights has partnered with and is working with a medical team of AA physicians, that have total access and distribution rights to Covid-19 tests that can provide results within 48 hours, and simply requires an oral or nasal swab.

The test kit, Allplex 2019nCoV Assay, produced in South Korea, has been granted Emergency Use Access (EUA) by the FDA as of April 21.

The kit has a documented 95% accuracy and identifies 3 genes of the Covid-19 strain. The majority of testing kits that exist in the U.S. presently, identifies 2 genes of the virus and has a 85-90% accuracy. Understanding that African- Americans (AA) represent nearly 1/3 of all current Covid-19 cases, their primary focus is distribution of these kits to those AA communities with the greatest need.

Here's a link to a video about our manufacturer of the kits:

<https://abcnews.go.com/International/video/south-korean-company-aims-fill-gap-testing-supply-70255119>

Please provide And requirements to submit our proposal to help addressing this health crisis, via testing & Awareness.

We hope as a minority-owned company, that there is an immediate opportunity to provide Fulton County with both
COVID-19 test kits and marketing.

Thank you. Have a Fantastic Friday! I look forward to your response and next steps.

Keshia Walker, President

Subject: Fulton County Covid 19 marketing market research and test kits

Importance: High

Dick- Good day. I hope this email finds you & your family safe and well.

Insights is an award-winning, WBE, MBE marketing & promotions company, based in Buckhead here in Fulton County.

We are interested in submitting our qualifications to bid on the following:

1. Advertise and promote covid19 testing sites in Fulton County.
2. Provide covid-19 testing kits for minority, Fulton County residents.

Thank you for your time and consideration. I look forward to your response and next steps.

Subject: COVID-19 Economic Impact on the ARC Region
Date: Wednesday, April 29, 2020 10:51:57 AM
Attachments: [COVID-19.pdf](#)
[ARC.pptx](#)
[ARC Short-Term Economic Outlook.pptx](#)

Dick/Sharon:

Yesterday afternoon, I sat in on a webinar hosted by ARC concerning their initial economic forecasts that the COVID-19 event will have on the 21 county ARC region. The presentations and materials provided was fairly high level and did not drill down to specific county impacts or how the TSPLOST collections will be impacted. However, I thought the overall trends and forecasts that they are seeing would be of interested to you.

I have attached a copy of the presentation materials.

The ARC.pptx file covers the COVID-19 impact on sales tax. Of particular interest were slides 14 and 15 where GSU talks about the anticipated loss of sales tax revenue.

The COVID-19.pdf file is a paper written by GSU that goes into more detail of their sales tax analysis.

The ARC Short-Term Economic Outlook.pptx file was prepared by ARC staff about the overall employment impacts of COVID-19. Slides 47 and 49 illustrate the length of time and financial impact they are forecasting right now.

Subject: COVID-19 TEST KITS
Date: Tuesday, April 28, 2020 4:04:52 PM

Afternoon Mr. Anderson

First thank you for receiving my email message. I pray that you, your family and colleagues remain healthy in these trying times. My company, Strother Nursing & Surgical Services L.L.C., is in a partnership agreement with KAG1 which is the Healthcare Procurement Branch of the partnership. Please visit the website below and go to the news section to see the great things we are doing. After seeing one of your cities Pastors on CNN [this Sunday](#), Pastor Jamal Bryant, my partners and I were moved by his plea to get more testing in Atlanta. We have agreed to lower some of the cost of the test kits, changing the price from \$20 a kit to \$18. More than making a profit we are concerned about helping as many people as possible get tested. The only breakthrough for this Pandemic is widespread testing. And hopefully we can help your city and state reach that point. I will be in surgery for the next couple of hours. So if you would like to schedule a call please let me know. Thanks again and stay at home and virus free.

Subject: COVID-19 Testing
Date: Tuesday, April 28, 2020 8:20:50 AM

All

Have been thinking about testing overnight. Having watched Trump's press conference yesterday where every mass retailer from WalMart to RiteAid got up and described testing plans, am struck by futility of trying to "control a rollout" versus focusing on results and where to add value.

We debated in telecom about who should "control the content" and finally decided to "let a thousand flowers bloom"....and add value in other ways such as broadband, wireless mobility, security, etc, Of course, now AT&T has purchased Time Warner :-)

In testing, perhaps we add value in various ways...optimal site selection, awareness marketing from a trusted source, best practices in running a SPOC and data analysis by BOH....but we don't try to control a mass market roll-out.

Let's do some more thinking and discuss.

Attachments: [AC update 4.30.20.pdf](#)
[ATT00001.txt](#)

Commissioner Hall

Wanted to share a daily update we review each day at 4pm (attached is yesterday's). It forms the basis of healthcare capacity planning and now the focus on testing expansion that we will review at the next BOC meeting.

By the way, I visited our mobile test site at McGhee tennis center yesterday and saw approximately 50 people in line for a test.

As we have moved through this crisis, am reminded of the conversation and concerns expressed early on by Calvin regarding our thin management structure in EMA.

Have moved to do three things and will bring forward a recommendation that I hope you will support:

- 1) Reduce reliance on EMSI consulting
- 2) Build management strength including a Deputy position
- 3) Increase diversity of team

Have been able to recruit Jack Butler (African American) back from COSF to run Fire at Airport and EMS coordination county wide. Jack was one of key Deputy Chiefs in Fulton County Fire.

Have also been able to recruit Joe Barasoain (Cuban American) to stay as Deputy for EMA as opposed to leaving to be a consultant. Joe is taking the primary lead to set up the SPOC testing sites.

Will propose that we align EMA with these positions and then adjust Matt's salary accordingly, but keep EMA in alignment with FCPD Chief and Deputy Chief salary grades.

Am also reducing EMSI by two thirds and negotiating with a minority consultant to focus exclusively on PPE procurement.

I think this gives me the team needed to execute during this crisis. Pls advise if you have any questions.

And thank Calvin for his early advise :-)

Subject: FW: COVID-19 Update for Fulton County Employees
Date: Tuesday, May 5, 2020 3:00:57 PM

All: I want to thank Dr. Holland for taking the time to review our employee message and giving input on the health guidelines. This is the final version of what we will send employees this afternoon.

**FULTON COUNTY COVID-19 UPDATE:
EMPLOYEE HEALTH GUIDANCE**

Dear Fulton County employees:

Thank you for your continued service to our citizens and fellow employees. Although public facilities are still closed, many of you are still reporting to the workplace, whether daily or occasionally.

To protect your health and the health of your fellow employees, all Fulton County employees must follow the following health guidelines regarding COVID-19.

If you meet the criteria below and are unable to report to the workplace or work remotely, contact your supervisor for the appropriate HR forms.

Employees at Higher Risk

Do not come to the workplace if you are over 65 and/or have an underlining medical condition that makes you more vulnerable to COVID-19.

According to the CDC, this includes:

- People with chronic lung disease or moderate to severe asthma
- People who have serious heart conditions
- People with severe obesity (body mass index [BMI] of 40 or higher)
- People with diabetes
- People with chronic kidney disease undergoing dialysis
- People with liver disease
- People who are immunocompromised

Many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications

Employees Who Have Been Tested for COVID-19

Do not come to the workplace if you have received a **positive** COVID-19 viral test result within the last 14 days **UNLESS** you have had:

- No fever for three days without use of fever reducer **and**
- Improvement in other symptoms **and**
- It has been at least seven days since the start of symptoms

If you have received a positive COVID-19 viral test but have had **no symptoms**, do not return to the workplace until 10 days after the test.

Alternatively, you must have had TWO negative COVID-19 viral tests at least 24 hours apart.

Do not come to work if you have been tested for COVID-19 and do not yet know your status.

Employees Who Have Been Exposed to COVID-19

Do not come to the workplace if know you have been exposed to COVID-19 and have not received a negative COVID-19 viral test result in the last 72 hours.

Do not come to the workplace if a member of your household has been diagnosed with COVID-19 and you are still in the isolation period.

Employees Who Are Sick

Do not come to the workplace if you currently have symptoms of COVID-19, even if you have had a negative test. Do not return until your symptoms have ended.

Symptoms of COVID-19 as defined by the CDC include: cough, shortness of breath or difficulty breathing, fever, chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste or smell. [Read more.](#)

If you are at work and feel sick during the work day, go home and notify your supervisor.

COVID-19 Testing & Information

Contact your healthcare provider if you are ill to see if you may be eligible for COVID-19 testing.

Subject: FW: GMS Award 2020-VD-BX-0372
Date: Thursday, May 7, 2020 9:08:29 AM

Happy to inform you all that we have been awarded additional \$286,854 in COVID 19 DOJ Supplemental grant. This was the first grant we decided to apply for, before the CARES funding, using the first batch of PPE ordered to support the application. We are in the process of accepting the award to get the funds to us as required below.

Hakeem K. Oshikoya, CPA, CGFM
Finance Director
Fulton County Board of Commissioners | Finance Department
141 Pryor Street, SW | Suite 7000 | Atlanta | Georgia 30303

Subject: GMS Award 2020-VD-BX-0372

Congratulations. You have been awarded a grant by the Office of Justice Programs at the Department of Justice (DOJ). DOJ issued your award in accordance with your legal name and Data Universal Numbering System (DUNS) number as registered in Federal Government's System for Award Management (SAM). In reviewing the award package in step 2 below, please confirm that your legal name and DUNS number are accurate. If this information is incorrect, please contact the Office of the Chief Financial Officer (OCFO) Customer Service at 1-800-458-0786.

Accepting your award is a two-step process.

Step 1: Designate a Financial Point of Contact (FPOC) for your award. To designate a FPOC, please follow these steps:

- 1 Log into GMS
- 2 Click the "Awards" link on the navigation bar on the left hand side
- 3 Click the "View Award Instructions" link to the right of the award you want to accept
- 4 A new page displays with this message near the top: "The FPOC designation must be submitted before the Award Package can be accessed." The page contains text boxes highlighted in light yellow to capture the FPOC registration information.
 - a If information for the FPOC of this award already exists in GMS, the first table entry will contain a box with the text "Available Financial Points of Contact." There is a box with a dropdown arrow to allow the selection of the FPOC. Select the name and click the "Load POC" box. GMS will

populate the data entry fields with information from the user Profile. Click the button near the bottom of the page labeled "Submit."

b. If the name of the FPOC is not one of the choices using the dropdown arrow, type the appropriate information in each of the fields. Fields with an asterisk (*) are required. Click the button near the bottom of the page labeled "Submit." The FPOC will receive an email requesting them to complete the FPOC registration.

5. Click "Yes" on the confirmation page.

6. You are allowed to assign more than one FPOC to each award. You are able to change the FPOC under the "Manage Users" link on the GMS home page.

NOTE: If you come to the Financial Point of Contact designation screen and the information in the fields are already grayed out and no "Submit" button is available, then the Financial Point of Contact has already been chosen. You will have to accept your award and await confirmation before you can change this designation. If, at that time, you need instructions on how to proceed, you can review the "Creating a Financial Point of Contact instructions" or contact the GMS Helpdesk for assistance.

Step 2. Complete the acceptance process by following these steps:

Click on the "Award Document" link and download the award documents. If you choose to accept the award and ALL the special conditions, you may use either the physical signature process or the electronic signature process as outlined below:

1. Print (or, if signing electronically, download) the Award Document and Special Conditions. Confirm the accuracy of your legal name and DUNS. If accurate, proceed to step 2. If not accurate, please contact the OCFO Customer Service at 1-800-458-0786.

2. Have the Award Document signed by the Authorized Grantee Official (Note: In Box 18 of the Award Document, the name and the title of the authorized grantee official are preprinted. The person named as the official in Box 18 should sign the Award Document in Box 19 and enter the signature date in Box 19A).

Recipients may use an electronic signature for award acceptance (instead of downloading and signing/initialing the award document with an ink pen). Any of the electronic signature processes available in Adobe Acrobat Reader, or similar software, are generally acceptable (e.g., a signature and/or initials image applied to the PDF award package, or a digital credential). See https://urldefense.proofpoint.com/v2/url?u=https-3A__www.ojp.gov/funding_apply_electronic-2Dsignature-2Dguidance&d=DwICAg&c=HPJvcKF4Kk5Wqru1T_u_fOsw8NVQVa3gp0ReMdlciXw&r=PiaHc41RH7aML4nWdUWxr7-GbvGCzFaLp5e6Z-Z2X1g&m=Mo-Y-d-qybrn0IS6zdhKeMjMdVGqW9g6aTiIPf10mZ8&s=llup1hcBwGzfGeY-IYN94UIxxkBGZUoLQ74JKBGGyl&e= for more information.

3. Have the Authorized Grantee Official initial the bottom right corner of each page listing any Special Conditions of the Award Document. (If signing electronically, ensure that electronic initials (or a full electronic signature) are applied to each page.)

4. Return BOTH the Award Document and the Special Conditions pages to the Office of Justice Programs, Control Desk by email to acceptance@usdoj.gov.

Recipients shall not modify the text of the Award Document or Special Conditions. If you choose not to accept the award, OR if you do not agree with the terms/conditions of the award and would like to discuss options, then please contact your OJP program manager.

If the Authorized Grantee Official named on the Award Document is no longer authorized to accept this award on behalf of your organization, do not alter the pre-printed name in box 18. Please go to the Grant Adjustment Notice (GAN) link and request an adjustment to the name of the authorized official. This GAN must be approved before you can accept the award. Once the GAN to change the name of the authorizing official has been approved, you should:

1. Print (or download, for electronic signature) the approved GAN;
2. Print (or download, for electronic signature) the original award document;
3. Have the new approving official sign the acceptance next to the former official's name and initial the special conditions page(s);
4. Email the signed acceptance, special conditions, and the approved GAN to the Control Desk as noted above in #4;

If you have programmatic questions, contact Flora D. Lawson at (202) 305-9216. For financial questions, contact OCFO Customer Service at 1-800-458-0786.

For questions about retrieving or printing these documents, designating a Financial Point of Contact, or creating a Grant Adjustment, please contact the GMS Help Desk:

Attached is the memo, with legal's edits, to the BOC on the rational for the HR policy. (The contents was in my info memo last board meeting but the policy didn't make it to the agenda). I also believe that we should include the question sheet to address questions that have been circulating about hazardous pay and childcare benefit.

Subject: Re: RE: Fitzco//Fulton County COVID-19 Campaign

Hi Jessica,

Thanks again for your teams time on Friday. Few follow ups on next steps based on our conversation:

1. **Budget & timing:** we're working through a recommendation and will be ready to share tomorrow (5/6). Is there a time that can work for your team to review? Please let us know and we'll schedule.
2. **Phased Approach:** we're consolidating our recommendation so that we leverage influencers (community leaders, faith-based organizations, Fulton county celebrities, etc.) to help build credibility and encourage the community to test. Our next step here is to share our media and creative recommendations.
3. **Gail Brooks:** you were going to let us know how best to engage with Gail. We're happy to reach out as well, but please let us know.

Lastly, just wanted to introduce Emily Enderson copied here. Emily is the Account Director that will be leading this project on our end. Emily is fully up to speed on the ask, the challenges, and how we are moving forward (as well as how quickly we need to move). She'll be in contact with budget and timing recommendations, as well as a time to review our media and creative proposal ASAP.

Also copied here is our Head of Account Management, Stephanie Hanley, who you met in our first meeting. You may see Stephanie involved as well so just wanted to loop her in.

Please let us know on times that can work for tomorrow and we'll schedule ASAP.

Thanks,

Jeff

Hi Jessica,

Jeff Quick with Fitzco. Thanks again for your teams time yesterday. Wanted to reach out to see if you had an hour this afternoon to jump back on a call with our team. We have a few thoughts on the challenges and how we might approach strategically that we'd love to run by you. Our team can be free between 1 – 3:30pm if there is a time in there that can work for you. If not, we can look for a time tomorrow as well.

Please let me know.

Thanks,

Jeff

Currently the resolution allows us to reimburse hazardous employees up to \$100 per day until the care.com are in place. If summer camps don't open on time, we may have to extend the benefit to non-hazardous employees.

Subject: 20-0326 agenda item note

Dick

Sharon and I was checking to confirm that the note was sent to the BOC. I'm reattaching it to this email.

20-0326 AGENDA ITEM NOTE

Given the importance of Emergency Management, and our desire to better manage the County's ability to respond to current COVID-19 activity (and any future events), we request an increase in the pay grades of the **Emergency Management Director**, **Emergency Management Deputy Director** and **Emergency Management Division Chief** classifications within Emergency Management. Approval of this request will allow us attract and retain talent.

This action will also help the County decrease its dependency on outside vendors like EMSI. It will allow us the build our management capacity in Emergency Management, for this crisis (present and long term.)

If approved, we will have an immediate benefit in the potential to retain Joe Barasoain as the Deputy -- and recruit a top notch Division Chief to manage EMS, ARFF and assist with SPOC operations.

Subject: ACCG COVID-19 Update: Vehicle Registration Renewals Extended to June 15; Bulletin from Secretary of State's Office Regarding Polling Places

DOR Extends Vehicle Registration Renewals to June 15

The Georgia Department of Revenue (DOR) has announced the renewal date for all vehicle registrations that expire between March 15, 2020 and June 13, 2020 has been extended through June 15, 2020. County tag offices should be prepared for increased walk-ins after June 15 and develop a plan for social distancing to protect staff and residents. In addition, as counties begin to reopen, many jurisdictions are considering ways to limit foot traffic into their facilities. Last week, the County Advisory Committee asked ACCG to contact the Department of Revenue (DOR), Motor Vehicle Division to see if the \$1 mail-in fee could be eliminated in the DRIVES system. DOR has indicated that this change can be made at the request of your tax commissioner. The online convenience fee is a payment to DOR's web portal vendor and cannot be eliminated at this time.

Guidance from the Secretary of State's Office Regarding Polling Places in Government Buildings

State Elections Director Chris Harvey today released guidance regarding polling places in government buildings. Georgia law gives county election superintendents authority to ensure that appropriate government buildings are made available for polling places, so long as such use does not substantially interfere with the use of such property for the purposes for which it is primarily intended. To: Holland, David
Cc: Matthew Kallmyer; Haynes, Sheena; Destiny Ruffin
Subject: Re: Call center info

Dr. Holland,

I have added an "analytics" button to the SPOC appt board. This will take users to a view where they can see a breakdown of the data in many different forms;

1. Total appointments
2. Breakdown by SPOC location
3. Breakdown by Appointment Status
4. Breakdown by Race (which I'll improve on tomorrow and change up the colors a little bit)
5. Breakdown by zip code
 1. I coded every single zip code in Fulton County into this display
 2. Which means it's quite a bit so the data is in 4 rows of 20, the best way I could fit them all on one single page.

Destiny has also created all of the requested accounts for the users that were submitted to us, they all should have received an email with the URL to login as well as their assigned username and password. I can maybe put together a basic PowerPoint tutorial after dinner.

Now we just need to train the call center staff and we can switch over.

From: Donnie Reece [mailto:donnie.reece@afrcma.com]
Sent: Monday, April 27, 2020 11:37 AM
To: Matthew Kallmyer; Holland, David
Subject: Re: Call center info

I have added all of the fields requested to the SPOC Appointments Tracker & taken away the PUI number and column per request. Currently I'm combing through the read only list views & search and filter functions to ensure everything is unaffected, once done I'll begin working on some visualization tools - graphs/charts, totals, etc.

I'll reply back when those are in place as well.

To: Matthew Kallmyer <matthew.kallmyer@afcema.com>
Subject: RE: Call center info

Here's what we need for the fields in WebEOC – basically what you said

- Name
- DOB
- Address
- City
- State
- Zip
- Phone number
- Race (dropdown: Asian, American Indian/Native American, Black, Native Hawaiian/Pacific Islander, White, Other)
- Symptoms (dropdown: yes or no)
- First responder/healthcare worker/live or work in congregate setting (dropdown: yes or no)
- Contact to known case (dropdown: yes/no)

We don't need to capture the actual symptoms – just "yes or no" will do. And we don't need medical conditions – we can get those on the backend.

Also, we don't need PUI numbers at all. If these fields can be added to the WebEOC scheduler, that's all we need. The call center will just skip the SENDSS interface – put them in a time slot – and we get them tested. No nurse referral, no callback for an appointment, no screening – just an appointment.

Sent: Monday, April 27, 2020 12:17 AM
To: Holland, David
Subject: Re: Call center info

When we registered the public safety folks for testing, all the BOH team asked for was Name / DOB / Cell Number / Home Address / Chief Complaints / Any underlying medical conditions. From there, a PUI number was assigned and they were told to report for testing. It should be that easy for any citizen that calls the hotline.

On Apr 26, 2020, at 10:02 AM, Holland, David <David.Holland@fultoncountygga.gov> wrote

True – and I'm not suggesting we sideline Joe or his team. Things have been running extremely well – and I don't want to endanger that.

However we've been running the SPOC for about a month so I wonder if we could take another look at how it's run and see if we could simplify a little.

More broadly though after talking to Gwinnett I realize that everyone with a successful testing site basically broke away from the state's guidance (albeit more quietly than we did) and let go of SENDSS set up their own scheduling system and are basically testing everyone that calls in asking for it.

I feel really stupid for allowing us to get trapped in this corner we're in. Testing large numbers of people is *literally* 50% of what I do for a living and this is embarrassing. I will not allow the National Guard to do a better job at it than we do. Monday begins a total revamp of our system starting with the call center and I just wanted to be asked that we include all our operations when looking at what can be simplified.

Sent: Saturday, April 25, 2020 9:06 PM
To: Holland, David
Subject: Re: Call center info

Joe is very reasonable and always willing to listen. However, I will caution you this is your team's first major disaster declaration. Joe has done a few of these and his experiences shouldn't be shoved to the side for the sake of making things more like a blue sky day operation.

I am the first to admit that we can always learn from others, but I think her logic is flawed when the most successful operations in our area still utilize the registration and appointment method.

With that being said, I am more than willing to place more of the responsibility of the operations of the SPOC on your team should that be the will of the Board of Health and Dr. Paxton.

On Apr 25, 2020, at 6:15 PM, Holland, David <David.Holland@fullcountygga.gov> wrote

I know Joe is in charge of the SPOCs but I think we need to listen to what Corinna has to say. We added a lot of extra staff at Joe's insistence but I'm not clear that we really need as many as we have out there. We can run an HIV testing event with three people and though admittedly this is more complicated it's not an order of magnitude more so.

I would like to think about shifting the SPOCs to run more like a testing event and less like an emergency response. I know we need some of that for federal reimbursement but we can still simplify.

Hi Dr. Holland.

Can we please talk? I did visits with Cobb and DeKalb SPOCs this week to get thoughts on what is working/not working. I haven't known who to talk to about what Cobb is doing, but they process significantly more specimens than we do in much less time with far fewer staff members. Their system almost completely eliminates the need for schedulers and our WebEOC scheduling board. It also improves accuracy of data, while decreasing the number of Registration staff needed, reducing time spent entering data in SENDSS, allows for PUIs to be tested without an "appointment", and provides for a way to document consent for the BOH to contact.

From my experience working closely with the schedulers and Registration, I see where a rapid rollout of added schedulers may lead to an increase in errors that will need to be addressed at Registration (thereby increasing the time it takes to move PUIs through the queue), issues around pacing appointments, errors with specimen count data (Tenny and I worked through one of these Friday), and increased challenges around communicating changes in plans/operations. Of course, we will do whatever it is leadership wants and we will work to resolve these issues. I just wanted to share an alternative approach that may also be driving more people to Cobb's SPOC versus ours.

Best regards,
Corinna

Subject RE Call center info

So to sum up We can just go straight to WebEOC for scheduling though it would be nice if we could add fields for the demographic info and something brief about symptoms and risk factors – it really comes down to what Epi needs on the back end. If Donnie can add that stuff in (not the whole list in SENDSS) then we are solid.

Thanks Donnie I probably should have been a little more specific. I appreciate the information though.

My question was in reference to the Web EOC scheduling component. FCBOH call center reps are now generating PUI numbers. Our goal is to also have them assist schedule appointments for those whom they generate PUI numbers for.

Would it be possible for you and I and maybe a team leader or two to have a quick training on the schedule tracker? We can discuss the logistics of this sometime next week if you are available and if the process doesn't change.

Thanks again
Sheena

Subject: Re: Call center info

Certainly, we can set a time to do a conference together and I can give you an impromptu training focused on what we've done for COVID-19 and the SPOCs overall to this point. Just let me know when is a good time for you. I've attached some photos of some of the work we've been doing / can do for this response; Included is a read-only version of the appointment board we designed for the SPOC.

We also have some WebEOC basic training materials. We created a virtual WebEOC training guide during the super bowl which [you can view by clicking here](#) - Some of the boards and options are tailored for that Super Bowl event, but a lot of the basics on how the system operates is applicable to daily use for users that have never used the system before.

Additionally, we have a very short, basic tutorial guide on setting up the app plus how to navigate the new app on youtube which you can find here - Video Setup - <https://youtu.be/-FkA9eiHf2I>

Let me know if there's anything we can do to improve or assist with any boards or systems and/or if you'd like to get together online for a screen share.

On Apr 25, 2020, at 12:08 PM, Holland, David <David.Holland@fultoncountygga.gov> wrote

I just spoke to Gwinnett about their call center and learn some very important things

1. They don't use the SENDSS interface for scheduling at all. They don't bother assigning PUI numbers to their clients. Instead, they built out their own scheduling system using Google Sheets that captures the necessary information and is available to the team at the SPOCs.
2. They don't have nurses in their call centers. They consider entirely a scheduling system.
3. They expanded the criteria for testing to include all symptomatic individuals long before DPH did – but they didn't advertise it, so the Governor didn't find out about it to shut it down.

Also, the National Guard has threatened to take over their SPOCs, too, so it isn't just us. We have common cause.

Subject: Follow-up: Fulton County: Covid-19 Test Kits Sourcing & Marketing/Promotions Request - Minority Communities
Importance: High

Dick - Good day. How are you? Your family?

I wanted to follow up to the email that I sent you on Wednesday, regarding my agency's interest in providing Covid-19 kits; advertise and promote testing sites in Fulton County.

Insights is a Fulton County based award winning, minority owned MBE & WBE certified marketing & promotions agency.

Insights has partnered with and is working with a medical team of AA physicians, that have total access and distribution rights to Covid-19 tests that can provide results within 48 hours, and simply requires an oral or nasal swab.

The test kit, Allplex 2019nCoV Assay, produced in South Korea, has been granted

Emergency Use Access (EUA) by the FDA as of April 21.

The kit has a documented 95% accuracy and identifies 3 genes of the Covid-19 strain. The majority of testing kits that exist in the U.S. presently, identifies 2 genes of the virus and has a 85-90% accuracy. Understanding that African- Americans (AA) represent nearly 1/3 of all current Covid-19 cases, their primary focus is distribution of these kits to those AA communities with the greatest need.

Here's a link to a video about our manufacturer of the kits:

<https://abcnews.go.com/International/video/south-korean-company-aims-fill-gap-testing-supply-70255119>

Please provide And requirements to submit our proposal to help addressing this health crisis, via testing & Awareness.

We hope as a minority-owned company, that there is an immediate opportunity to provide Fulton County with both COVID-19 test kits and marketing.

Thank you. Have a Fantastic Friday! I look forward to your response and next steps.

CC: Janisaw Company Dr. Wallace <scyatta@janisaw.com>

Commissioner Pitts,

It was a pleasure to speak to you this morning. I've cc'd Dr. Scyatta Wallace, one of my partners working with me in this space who has been in public health for over 20 years.

As I mentioned, Patternista has assembled a team to put together a multi-sector partnership that addresses the gap in whole health equity that Covid-19 has both illuminated, and exacerbated.

The two primary pieces of this project include:

- 1) Mobile + Social Media + Radio, Influencer-Led PSA Campaign
- 2) Digital Portal that provides timely, relevant information -- connecting our most at-risk, and underinsured patients to key tele-health providers

Though our PSA Campaign is nationally-focused, we know that additional, more targeted efforts are necessary at the local level. And being a current Fulton Co. resident and an Atlanta-native, I'd be honored to contribute to your efforts.

We look forward to exploring ways to partner with Fulton County. At your convenience, I can take you through a short presentation that outlines our approach.

I look forward to hearing from you.

Best,
Gail

Dick,

I hope all is well and that normalcy returns soon. I have forwarded you an email from a colleague of mine, Sally Kilpatrick.

I always try to screen anything I forward your way but I was not aware of any “contact tracing” that the county may be considering.

If you would like to explore the technology please let me know the best contact at Fulton County to get her associated with.

Thanks again and please let me know if I can do anything to assist Fulton County.

Subject: Contact Tracing

Hey John,

It was good catching up today. I wanted to follow up on our conversation to see if Fulton County plans to have a local approach to contact tracing when Georgia begins to reopen. We work with a group called Westat out of Maryland and they have thousands of employees throughout the country that perform large health surveys and research studies for intuitions like NIH. As states and local governments look to navigate the path forward with COVID, they are interested in working with them to perform contact tracing. If there is any interest from Fulton County to meet with Westat in the future and learn more about their capabilities please let me know. If I should reach out directly to Fulton County Board of Health I can do that as well.

Hope you and your family stay healthy and safe!

Best,
Sally

Subject: Covid-19 Essential Worker Concern

From a Concerned "Essential Workers",

It is no secret that the Corona Virus known as COVID-19 has interrupted and disrespected this entire society and seems to be running rampant within this entire country. Like millions of workers across America, my co-workers and I are a community that has risked our lives and compromised the health of family as well as ourselves in the midst of performing a job deemed "essential" for society. The extreme sacrifices we continue to make as frontline workers require an immediate response to those whose loved ones are booked-in and hopefully released as the jail continues to house those that have been infected and those that may be carriers of the virus as well.

We trust on a daily basis that this facility will provide life-saving personal protective

equipment (PPE) to shield us from this invisible enemy as well as provide stringent safety measures also. On March 20, 2020, we were provided with one N95 mask for the duration of this epidemic but can go through other measures to receive an additional one. This is unacceptable! But yet and still we arrive to work for our regularly scheduled shift.

Included in the mainstream media news on April 13, 2020 was the Fulton County Jail being sanitized and cleaned in order to aid in the eradication of the virus within the jail. We were ecstatic to hear the news except the Active Records Department was not included. We encounter those same inmates and officers that are in constant contact with the inmates housed in the jail. As of May 5, 2020, the Active Records department remains unscathed! In lieu of our department being included in the sanitation, we are asked to upkeep our area until further notice. When will we receive our initial sanitizing of our department? But yet and still we are “essential” to the process!

Many of us are the sole providers for our family. It is not enough to express our deepest concerns and they be ignored. We are held to the same standards of reporting come inclement weather in addition to presently reporting through this global pandemic. You will never feel nor understand the pain that we feel until you have actually worn our shoes. We hold the decision makers to a higher standard in making well thought out decisions. One can imagine the consequences the jail as a whole would suffer if the entire Intake and Booking as well as the Active Records Department would have only thought of our immediate family as well as ourselves. The results would have been detrimental to the entire Fulton County Jail. We value our jobs as well as our families and know that we need both to sustain.

From Doctors to delivery drivers, grocery store workers and care providers, detention officers to us as Criminal Investigation Service Technicians we are “essential” to the process. The panic on our faces are not seen while performing our duties and then go home to family in hopes that we have not contracted the virus nor transmitted it to anyone else. There should be no excuse why we are not included in the hazardous benefits. We are the ones taking the risk! We are the ones included in the exposure to COVID-19 in order to continue processing in-coming and releasing inmates.

Honestly, we cannot put an amount on how much is enough at risking our lives but what should be considered is our safety, our health and those again we compromise. Those included in our chain of command have expressed their gratitude but with this type of unprecedented event and high exposure a simply thank you is not enough!

Let this resonate from those that work the frontline...Those that are considered non-essential have to ***remain sheltered-in-place!*** Those that are deemed “***essential***” have ***to report!*** We know we are “essential” show us by allowing us to reap the benefits.

All

Have been thinking about testing overnight. Having watched Trump's press conference yesterday where every mass retailer from WalMart to RiteAid got up and described testing plans, am struck by futility of trying to "control a rollout" versus focusing on results and where to add value.

We debated in telecom about who should "control the content" and finally decided to "let a thousand flowers bloom"....and add value in other ways such as broadband, wireless mobility, security, etc, Of course, now AT&T has purchased Time Warner :-)

In testing, perhaps we add value in various ways...optimal site selection, awareness marketing from a trusted source, best practices in running a SPOC and data analysis by BOH....but we don't try to control a mass market roll-out.

Let's do some more thinking and discuss.

Subject: Fwd: COVID-19 Update for Fulton County Employees
Date: Tuesday, April 28, 2020 10:43:55 AM

See below.

Jessica Corbitt-Dominguez
Director of External Affairs
Fulton County Government
404-713-5990 (mobile)

**A Message From
County Manager Dick Anderson**

Dear Fulton County Employees:

It has been more than a month since most of our Fulton County facilities closed to the public.

During that time, thanks to your hard work, we have seen an incredible transformation in the way we serve citizens.

As the situation continues to evolve, I wanted to give you an update about our COVID-19 response and how it may affect you as an employee.

Transformation of Services

In the last month, virtually every Fulton County department has found new ways to deliver services, using creativity, innovation and technology to deliver services in new ways.

Your spirit of public service is unstoppable and we can all be proud of the outstanding work done on behalf of our citizens!

Employee Assignments

Most of you are still working in your typical jobs, whether teleworking or reporting to your worksite. Some employees who have been on administrative leave, unable to telework or report to their workplace, are beginning to be reassigned to other county departments.

As one example, approximately 30 employees previously on administrative leave are now supporting the Department of Registration & Elections.

Fulton County citizens need us, so we are continuing to look for more opportunities to ensure that our entire workforce is supporting our mission during this critical time.

If you are called to serve in a job that is not your typical assignment, we know that you will show the same level of commitment that you show every day. Remember...we're counting on you!

Cost Control Measures

With millions of Americans out of work, we expect to see a revenue decline this year. At the same time, our costs have increased dramatically as we respond to this crisis. We do not yet know the full economic impact of this pandemic.

To help ensure financial stability in the months ahead, we have put several cost saving measures in effect, including:

- Hiring freeze

- Delay of the Incremental Compensation Strategy implementation
- Delay of new programs and projects

While we understand that these measures may cause some inconveniences, they will help us remain strong financially.

Hazard Pay

On April 15, the Board of Commissioners approved hazard pay, in the amount of \$750 monthly, prorated for the month of March, and including the months of April and May, for Hazardous Emergency Essential front-front line employees.

These include public safety, public health, public works and employees who are required to provide daily service to the general public. If you are eligible, you will hear more about this in coming days.

Next Steps

You may have read recent news reports about plans to reopen businesses and governments.

While Fulton County has not set a re-opening date, we are beginning to make preparations to gradually reopen public facilities in coming weeks. In doing so, the safety of the public and employees is our highest priority.

Our next steps will include:

- Ensuring that we have sufficient supplies for cleaning, sanitizing, and personal protective equipment
- Setting up screening stations at facility entrances, and signage on safety protocols
- Reconfiguring offices and public spaces to ensure social distancing
- Making program changes within departments, including modified employee schedules and services
- Training for employees on new procedures

We know that you will continue to rise to the challenge in the weeks ahead.

Thank you for all you do!

*-Dick Anderson
County Manager*

Subject: DPH News Release - Six New Symptoms of Covid-19 Added to List, Symptomatic Individuals Urged to Get Tested

NEWS RELEASE

FOR IMMEDIATE RELEASE:

April 28, 2020

Six New Symptoms of Covid-19 Added to List *Symptomatic Individuals Urged to Get Tested*

Atlanta – Six new symptoms have been added to the Centers for Disease Control and Prevention's (CDC) existing list of symptoms for COVID-19. The new symptoms are **chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste and/or smell.** These symptoms join the original symptoms of fever, cough and shortness of breath/difficulty breathing. Symptoms of COVID-19 typically appear 2-14 days after exposure and range from mild to severe.

The Georgia Department of Public Health (DPH) is expanding testing throughout the state, so it is important for people to recognize these symptoms and seek testing if they are ill.

All symptomatic individuals are eligible for COVID-19 testing. Health care workers, first responders, law enforcement, and long-term care facility residents and staff are all prioritized for testing whether they have

symptoms or not.

People should not arrive unannounced or without a scheduled appointment at a specimen collection site. There are two ways to be referred for COVID-19 testing:

Local Health Department

Individuals who meet COVID-19 testing criteria may now be referred to DPH specimen collection sites by contacting their local health department. They will be screened by appropriate health department staff and referred to the closest, most convenient specimen collection site. Contact information for local health departments can be found on the DPH homepage at <https://dph.georgia.gov/>, under COVID-19 in Georgia.

Health Care Provider

Health care providers and/or physicians can still refer patients for COVID-19 testing.

A list of specimen collection sites in Georgia can be found at on the DPH website at <https://dph.georgia.gov/locations/covid-19-testing-site>

All Georgians have a critical role in preventing the spread of COVID-19 in our state.

Practice social distancing – keep at least 6 feet between yourself and other people.

Wash your hands – use soap and water and scrub for at least 20 seconds. Use an alcohol-based hand sanitizer (60% alcohol) if soap and water aren't readily available.

Wear a mask – Centers for Disease Control and Prevention (CDC) recommend [the use of face masks](#) to help slow the spread of COVID-19, especially where social distancing is difficult to maintain (grocery stores, pharmacies, etc.), and **especially** in areas of significant community-based transmission.

For more information about COVID-19
<https://dph.georgia.gov/novelcoronavirus> or
<https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

For updates on the COVID-19 situation as it develops, follow @GaDPH, @GeorgiaEMA, and @GovKemp on Twitter and @GaDPH, @GEMA.OHS, and @GovKemp on Facebook.

Hi Ken,
Some comments because I am not sure all the pieces have been placed together

ARFF

<!--[if !supportLists]-->1- <!--[endif]-->This is an airport fund (200)-
We only have budget for 10 positions. The airport fund is severely
constrained due to the airport expansion and likely sharp decline
in revenues due to COVID

Emergency Management

<!--[if !supportLists]-->1- <!--[endif]-->Emergency Management has
4 positions – David (Animal Control) , Matt, Cat, Joe (is currently in
one) and you have a continuity program manager or outreach
coordinator (not sure has been established).

New Structure

<!--[if !supportLists]-->1- <!--[endif]-->I'm looking at the new
orchard and see over 23 positions. I am assuming we are
bringing in the individuals from AFCEMA ? if that is the case,
we need to find out a potential budget gap . Positions and
liabilities aligned to employees being transferred. But again, I
had not heard about the transition and did not have a change
to discuss with Matt.

Regards
James

Subject: EMA support staff - funding request

Sir -

Please allow this email to serve as a request for CARE grant funding for 3 employees that are performing critical roles in our response to COVID-19. These 3 members have been donating their services to the citizens of Fulton County, but their employment has ended or will end with the companies that they are currently affiliated with.

I am humbly requesting that AFCEMA receive \$ 194,545.18 to hire these individuals on a full time basis to assist us with our operations. The funding request will cover the salary of these individuals as well as their necessary health benefits for the remainder of this fiscal year.

Total Cost for 3 employees for 1 year \$ 291,817.77
Monthly cost for 3 employees \$ 24,318.15
8 months left in this budget year \$ 194,545.18

Total needed for AFCEMA \$ 194,545.18

Please let me know if I can provide further information regarding this topic.

John

Thought you might be interested in attached if you had not already seen.

Hope you are doing well. Anything you need from us?

Also, heard yesterday that Grady was doing some COVID-19 testing. Is that for in-patient only and/or at our sites as well?

Dick

From "wartime" to "peacetime" Five stages for healthcare institutions in the battle against COVID-19

Healthcare has found itself tested by the pandemic. The frontlines are delivering heroically, but the next normal for healthcare will look nothing like the normal we leave behind.

Major challenges remain in COVID-19 testing

There remain challenges and risk in considering “widespread testing” as the sole criterion for returning to work and activities.

Subject: Fwd: From McKinsey: To emerge stronger from the COVID-19 crisis, companies should start reskilling their workforces now
Date: Thursday, May 7, 2020 8:06:41 PM

Interesting read...a little private sector oriented, but food for thought.

And to meet Chairman's challenge, let's begin to develop our working list of discontinuities.
My top 10:

- 1) Never open WCA again; perhaps transfer early
- 2) Never open Arts Centers; offer to transfer (2) remaining
- 3) Go to 50% less employees at 141 on any one day....reconfigure with new re-stacking modern workspace. Telework balance of employees
- 3A) Exit 137 and encourage DA not to occupy, but also telework
- 4) Expand Library digital offerings 500% and drop print subscription by 50% “. Offer half of Libraries to cities as community centers (16) with one for each city
- 5) Redesign of Senior services to video service delivery and small group settings for any on site classes. Congregate meals replaced with meals on wheels model.
- 6) Exit Youth services except counseling through BH providers
- 7) Significant investment in employee digital skills and social skills in a telework dominant environment
- 8) Review management structure and attempt to get to (5) levels of management with spans of at least 5-7 with much more metrics/bonus driven versus supervision orientation
- 9) Go to (1) BOC meeting per month and make paperless and no longer then 10-2pm
- 10).....

Subject: **Fulton County COVID-19 Marketing & Outreach Campaign Proposal**

Jessica,

Happy Monday!

As promised, please find attached Jones Worley's proposal to provide Creative Services for the development of Fulton County's COVID-19 Testing Marketing & Outreach campaign. Because of the urgency facing Fulton County, Jones Worley has also included preliminary research findings, planning and a creative approach for your review and consideration.

Please note, I have pulled the information below from the proposal content for your quick reference. Additionally, I have separated the proposal into two phases. Our proposal has been organized as follows:

- **PHASE 1: DEVELOP & LAUNCH** - *In this phase, Jones Worley will plan, design, implement and launch the campaign. As outlined below, the timeline for this effort is extremely aggressive and will require seamless communication and coordination between Fulton County and Jones Worley.*

A. Project Overview

- B. Scope of Work
- C. Scope of Services
- D. Creative Approach
- E. Compensation
- F. General Conditions

- **PHASE 2: ASSESS, PIVOT & CONTINUE** - *In this phase, Jones Worley will collaborate with Fulton County to assess the campaign's effectiveness, determine changes and scope required, and review budgetary needs to move forward. Not further content is provided in this proposal for this phase.*

Recommended Milestone Timeline *(Based on client input, this timeline may change)*

<!--[if !supportLists]-->• <!--[endif]-->	May 8, 2020	Fulton
County notice of contract award to Jones Worley		
<!--[if !supportLists]-->• <!--[endif]-->	May 15, 2020

Subject: GMS Award 2020-VD-BX-0372

Congratulations You have been awarded a grant by the Office of Justice Programs at the Department of Justice (DOJ) DOJ issued your award in accordance with your legal name and Data Universal Numbering System (DUNS) number as registered in Federal Government's System for Award Management (SAM) In reviewing the award package in step 2 below, please confirm that your legal name and DUNS number are accurate If this information is incorrect, please contact the Office of the Chief Financial Officer (OCFO) Customer Service at 1-800-458-0786

Accepting your award is a two step process

Step 1: Designate a Financial Point of Contact (FPOC) for your award To designate a FPOC please follow these steps:

- 1 Log into GMS
 - 2 Click the "Awards" link on the navigation bar on the left hand side
 - 3 Click the "View Award Instructions" link to the right of the award you want to accept
 - 4 A new page displays with this message near the top: "The FPOC designation must be submitted before the Award Package can be accessed "
- The page contains text boxes highlighted in light yellow to capture the FPOC registration information
- a If information for the FPOC of this award already exists in GMS, the first table entry will contain a box with the text "Available Financial Points of Contact " There is a box with a dropdown arrow to allow the selection of the FPOC Select the name and click the "Load POC" box GMS will populate the data entry fields with information from the user Profile Click the button near the bottom of the page labeled "Submit "
 - b If the name of the FPOC is not one of the choices using the dropdown arrow, type the appropriate information in each of the fields Fields with an asterisk (*) are required Click the button near the bottom of the page labeled "Submit " The FPOC will receive an email requesting them to complete the FPOC registration
- 5 Click "Yes" on the confirmation page
 - 6 You are allowed to assign more than one FPOC to each award You are able to change the FPOC under the "Manage Users" link on the GMS home page

NOTE: If you come to the Financial Point of Contact designation screen and the information in the fields are already grayed out and no "Submit" button is available, then the Financial Point of Contact has already been chosen You will have to accept your award and await confirmation before you can change this designation If, at that time, you need instructions on how to proceed, you can review the "Creating a Financial Point of Contact instructions" or contact the GMS Helpdesk for assistance

Step 2 Complete the acceptance process by following these steps:

Click on the "Award Document" link and download the award documents If you choose to accept the award and ALL the special conditions, you may use either the physical signature process or the electronic signature process as outlined below:

- 1 Print (or, if signing electronically, download) the Award Document and Special Conditions Confirm the accuracy of your legal name and DUNS If accurate, proceed to step 2 If not accurate, please contact the OCFO Customer Service at 1-800-458-0786
- 2 Have the Award Document signed by the Authorized Grantee Official (Note: In Box 18 of the Award Document, the name and the title of the authorized grantee official are preprinted The person named as the official in Box 18 should sign the Award Document in Box 19 and enter the signature date in Box 19A)

Recipients may use an electronic signature for award acceptance (instead of downloading and signing/initialing the award document with an ink pen) Any of the electronic signature processes available in Adobe Acrobat Reader, or similar software, are generally acceptable (e.g., a signature and/or initials image applied to the PDF award package, or a digital credential) See https://urldefense.proofpoint.com/v2/url?u=https-3A-__www.ojp.gov.funding.apply_electronic-2Dsignature-2Dguidance&d=DwICAg&c=HPJvcKF4Kk5WqrulT_u_fOsw8NVQVa3gp0ReMdlciXw&r=PiaHc41RH7aML4nWdUWxr7-GbyGCzFaLp5e6Z-Z2X1g&m=Mo-Y-d-qybrn0IS6zdhKeMjMdVGqW9g6aTiIPf10mZ8&s=llup1hcBwGzfzGeY-IYN94UJxxkBGZUoLQ74JKBGGyI&e= for more information

- 3 Have the Authorized Grantee Official initial the bottom right corner of each page listing any Special Conditions of the Award Document (If signing electronically, ensure that electronic initials (or a full electronic signature) are applied to each page)
- 4 Return BOTH the Award Document and the Special Conditions pages to the Office of Justice Programs, Control Desk by email to acceptance@usdoj.gov

Recipients shall not modify the text of the Award Document or Special Conditions If you choose not to accept the award, OR if you do not agree with the terms/conditions of the award and would like to discuss options, then please contact your OJP program manager

If the Authorized Grantee Official named on the Award Document is no longer authorized to accept this award on behalf of your organization, do not alter the pre-printed name in box 18 Please go to the Grant Adjustment Notice (GAN) link and request an adjustment to the name of the authorized official This GAN must be approved before you can accept the award Once the GAN to change the name of the authorizing official has been approved, you should:

- 1 Print (or download, for electronic signature) the approved GAN;
- 2 Print (or download, for electronic signature) the original award document;
- 3 Have the new approving official sign the acceptance next to the former official's name and initial the special conditions page(s);
- 4 Email the signed acceptance, special conditions, and the approved GAN to the Control Desk as noted above in #4;

If you have programmatic questions, contact Flora D Lawson at (202) 305-9216 For financial questions, contact OCFO Customer Service at 1-800-458-0786

For questions about retrieving or printing these documents, designating a Financial Point of Contact, or creating a Grant Adjustment, please contact the GMS Help Desk:

Subject: Re: Hazard Pay for GCIC Operators

Diara, thanks for your note and I do appreciate your concerns.

The standard we used to determine eligibility for hazardous pay was....departments identified by the US Department of Labor as generally involved in hazardous duty and then employees directly interacting with the public on a daily basis.

We have many folks in the Sheriff, Marshal, PD, Courts, and Public Works departments that are reporting to work each day and not receiving hazardous pay due to their job responsibilities.

And we reviewed submissions by each department including FCPD in great detail to make a decision. As example, we didn't include the FCPD Chief or Deputy Chief.

Our overall focus was to keep all of our employees on the payroll without the uncertainty of layoffs or furloughs. As you know, almost 1 in 5 of all Georgia workers have now filed for unemployment indicating a historic high. With the support of the BOC, we have been able to do so as well as provide hazardous pay for employees directly interacting with the public.

So, we have great appreciation for all of our FC employees and think these actions demonstrate that commitment.

Dick

On May 3, 2020, at 6:44 AM, James, Diara <Diara.James@fultoncountyga.gov> wrote:

Good morning Mr. Anderson,

I am currently assigned to the Police Department -GCIC Section Morning Watch. I was told on Saturday, May 2, 2020 that our division is Not eligible for Hazard Pay after being told we were eligible a couple of weeks ago. Mr. Anderson I am so confused as to why we are no longer eligible. The Police Officers nor 911 cannot function without us and we cannot operate without them. Our 12 person staff not only services The Fulton County PD but we also service Palmetto PD/Fulton County School PD/Fairburn PD/Union City PD/Department of Juvenile Justice and City of South Fulton PD. We form a triangle – The Police/911 and GCIC whom all perform critical duties. Maybe it was not fully explained what exactly it is we do.

Mr. Anderson if one of your love ones were missing and you wanted the police to assist with locating them, the first line of contact would be 911. Then 911 would dispatch an officer to your location to collect information so your love one can be placed on a National System which is GCIC/NCIC. That officer/detective would then

forward the collected information to Fulton County GCIC for entry. That information is entered by one of our 12 GCIC Operators who work 24/7 all 365 days of the year. Any vehicles/wanted persons & articles are also entered by us. If a person commits a Murder in unincorporated Fulton County, that person must be placed on the system so that every police agency in the world is aware the he/she is wanted. That is done by our section. Mr. Anderson with all due respect I really don't understand how 911 Operators are eligible for Hazard Pay and GCIC Operators are not. We both are civilians who do not physically come in contact with the general public but neither of us can operate without the other.

The FCPD has been closed to the public during Covid-19 but NOT GCIC because we are essential. However we have had to fingerprint numerous Officers and Judges during this time and that has placed each staff member in our section in a hazardous environment. If only Sworn Personnel are considered "Emergency Essential" then maybe we should look at only having officers handling GCIC/ finger printing and civilians should be placed on paid leave like the rest of the county.

Mr. Anderson I am reaching out to you because I don't know what else to do. It doesn't seem like we have anyone to fight for us so I am willing to speak up on behalf of all 12 persons assigned to our division. I was contacted on Friday, May 1, 2020 by some of my co-workers and they were in tears because they feel unappreciated and hurt by the Personnel Directors decision to not include GCIC Operators in the Hazard Pay. I hope I have not over stepped any boundaries and if you feel I have, I deeply apologize. I just wanted each of my team members to know that they are appreciated and that someone is willing to fight for them!!

Thanks for all your assistance with this matter and I hope you have a great weekend.

Subject: Hazard Pay for GCIC Operators in the Police Department

Good morning Comm. Hall,

I am currently assigned to the Police Department -GCIC Section Morning Watch. I was told thru second hand information on Friday, May 1, 2020 that our division is Not eligible for Hazard Pay.

Commissioner Hall I am so confused as to why we are no longer eligible. The Police Officers nor 911 cannot function without us and we cannot operate without them. Our 12 person staff not only services The Fulton County PD but we also service Palmetto PD/Fulton County School PD/Fairburn PD/Union City PD/Department of Juvenile Justice and City of South Fulton PD. We form a triangle – The Police/911 and GCIC whom all perform critical duties. Maybe it was not fully explained what exactly it is we do.

Commissioner if one of your love ones were missing and you wanted the police to assist with locating them, the first line of contact would be 911. Then 911 would dispatch an officer to your location to collect information so your love one can be placed on a National System which is GCIC/NCIC. That officer/detective would then forward the collected information to Fulton County GCIC for entry. That information is entered by one of our 12 GCIC Operators who work 24/7 all 365 days of the year. Any vehicles/wanted persons & articles are also entered by us. If a person commits a Murder in unincorporated Fulton County that person must be placed on the system so that every police agency in the world is aware the he/she is wanted. That is done by our section. Commissioner Hall with all due respect I really don't understand how 911 Operators are eligible for Hazard Pay and GCIC Operators are not. We both are civilians who do not physically come in contact with the general public but neither of us can operate without the other.

The FCPD has been closed to the public during Covid-19 however we have had to fingerprint numerous Officers and Judges during this time and that has placed each staff member in our section in a hazardous environment. If only Sworn Personnel are considered "Emergency Essential" then maybe we should look at only having officers handling GCIC/ finger printing and civilians should be placed on paid leave like the rest of the county.

Dick and Kenneth,

All of the Sheriff's employees who are working on the front lines and in the jail should be receiving the hazardous pay. Are they not? If not, then why not?

The COVID-19 virus infected people in the jail. Everyone working in that environment is at risk. I look forward to hearing from you.

Thanks,

Subject: HAZARD PAY

I have 2 small kids that I have to take care of everyday I come to work I put them at risk. My sitter is my mother who is taking care of someone with dementia. So now I am putting this lady at risk because I have to get someone to keep my kids since they cant go to school. Then sometimes I have to take them to my brother house who is on dialysis. I am at risk even higher since I am his living donor but we don t get hazard pay bull.

Subject: Re: HAZARD PAY

I think we will discuss tomorrow at BOC and take any direction on needed changes.

We presented to BOC a hazardous pay plan that had both departments and a direct interaction with the public as requirements. So, not every employee in the Sheriff, Marshall, Police or Public Works departments are receiving hazardous pay...if they are not interacting with the public.

Have asked Ken Hermon to re-look at this specific example which we may have missed.

Dick and Kenneth,

All of the Sheriff's employees who are working on the front lines and in the jail should be receiving the hazardous pay. Are they not? If not, then why not?

The COVID-19 virus infected people in the jail. Everyone working in that environment is at risk. I look forward to hearing from you.

Thanks,

Natalie Hall

Subject: HAZARD PAY

I have 2 small kids that I have to take care of everyday I come to work I put them at risk. My sitter is my mother who is taking care of someone with demencia. So now I am putting this lady at risk because I have to get someone to keep my kids since they cant go to school. Then sometimes I have to take them to my brother house who is on dialysis. I am at risk even higer since I am his living donner but we don't get hazard pay bull.

Commissioners

Just wanted to give you some insight below in the many moving parts and management needed to bring up and sustain our testing operations at each SPOC. Detailed planning down to the number of chairs, tables, water bottles, personnel and specimen collection kits.....as well as when HVAC isn't working in a new building (4700 NP).

Appreciate Joe Barasoain's leadership on the ground at each site!

Morning everyone,

Just wanted to thank everyone for an extremely successful week and the hard work everyones put in to accomplish getting South SPOC operations up and running.

I am working on the IAP and for now there are just a few changes I wanted to make sure everyone was aware of.

The South SPOC Team will be transitioning out tomorrow (Monday) and the new team will be coming in. South SPOC's current Operations Chief Henry Argo, Deputy Ops/Logs Chief Greg Brett and Safety Officer Joe Maddox will be heading out tomorrow afternoon after transitioning in the new team. Captain Handloser from the GANG will be left in command of the south troops assigned to Wolf Creek as well as maintaining command of all 30 of her soldiers (15 north/15 south). The Captain will remain operational at South SPOC for the week.

Outreach Programs will shift operations from Airport to South and will be deploying out of there till such time that we can get a north team up and running later this week.

The new South Team will be Fulton County's Adrian Hairston and Charles Perdomo who will be at South Spoc Monday morning. As of last night I received an email from the City of South Fulton City Manager that they will be providing a safety officer from CoSF Fire.

Adrian Hairston 470-240-9347

Adrian.Hairston@fultoncountyga.gov

Charles Perdomo 404-632-6091

Charles.Perdomo@fultoncountyga.gov

Airport Operations will be demobing tomorrow after the day's operations and that team will be heading North to do a dry run at 1500 hours and get ready for north spoc operations Tuesday morning at 10AM.

North SPOC Operations at 4700 North Point Parkway will be led by Ops Chief Robert "RADAR" Summers and will be operational Tuesday at 10am.

SPOC Area Command Team will be operational and running out of North SPOC beginning today. They will be operating on the area command channel AFCEMA7 or EMA TAC 7 (Depending on your radio profile)

email	Area Command	Radio call sign	Phone #
firefightertyson@yahoo.com	Incident Commander	Chip Tyson	678-576-6908
		IC	
Phillip.Lana@atlchampgame.com	Deputy IC	Phill Lana	813-731-2074
		Deputy IC	
matt.snyder@atlchampgame.com	Logs Chief	Matt Snyder	760-397-5098
		Logs Chief	

Everyone please refer to the new 205 attached as we will need to have south operations on channel 1 tomorrow in order to make the needed changes.

Tomorrow's starting appointments are:
 Aviation 20 starting at 9 last one at 3
 South 20 starting at last one at 3

Please remember they will continue to add to this all day so check your webeoc for updated numbers.

This week:

This week we are making a few changes to the call center protocols that should help greatly with the call taking process.

We are also going to look at how we can assist with warehouse operations in order to become more efficient.

Also, assisting with support with Central Spoc at Mercedes Benz where CORE is taking the lead.

Wanted to thank Chief Argo, Brett and Maddax for your quick response to my call for assistance and know how grateful I am to have had your help in kick starting 2 of our SPOCS. And for that, as soon as this is over it will be chips and salsa on me sir!

Thank you everyone and have a safe Monday..

Should you have any questions please give me a call.

Joe

Subject: FW: Notes from 4.28.20 NACO Call w/ U S. Treasury Department officials

Good Afternoon,

As you probably know, yesterday ACCG and GMA submitted the attached letter to Governor Kemp, asking that he make available to cities and counties under 500,000 in population a share of the funding that the state received through the CARES Act. The proposal, if accepted by the Governor, would make the cities (except Atlanta, which got direct funding) within your counties eligible for funding.

Today I learned that GMA is actively advocating that the cities within your four counties request from you funding your county received (or is slated to receive) through the CARES Act. However, I want to note for the record that GMA's original proposal for a 50 – 50 split of funding was predicated upon population figures (incorporated versus unincorporated) that were inclusive of all the cities within your four counties, but not inclusive of the populations of your counties on the county side of the ledger. The final agreement ACCG reached with GMA still relied upon that 50 – 50 split on 70% of total funding we are seeking from the Governor.

I am letting you know about this because if the cities within your counties get funding through the sub-grants we have requested from the Governor, and get funding through the counties' CARES allocation, they will be getting a "double-dip" so to speak.

I thought you ought to know.

Sincerely,

Dave Wills

Subject: FW: Notes from 4.28.20 NACO Call w/ U.S. Treasury Department officials

Ladies and gentlemen –

Late yesterday I listened in on what I thought was a very helpful conference call hosted by NACo, largely focused on the Coronavirus Relief Fund in the CARES Act. An official with the Treasury Department responded to many questions about the fund. I've attached the notes that my colleague Kathleen Bowen took from that call.

On a related note, I've attached ACCG's blast email from yesterday, which you may have already seen. The first item relates to a proposal to the Governor regarding distribution of CRF money to local governments that did not receive direct CRF allocations. So while that does not directly impact your counties, note that the proposal would allow the cities in your counties (other than Atlanta) to participate in this separate distribution. I mention that in the event that any of your cities approach your counties asking for part of your direct CRF allocations. On the NACO call yesterday, the Treasury official stated that a direct CRF recipient county could choose to share some of that money with its constituent cities. However, if the Governor accepts this proposal, the cities in your counties will have an alternate route to seek an allocation of CRF funds from the state.

I hope all of you are well and hanging in there!

Subject: Notes from 4.28.20 NACO Call w/ U.S. Treasury Department officials

Attached are my notes from today's NACO call with U.S. Treasury Department - mainly was a Q & A session relevant to the counties who are direct recipients of the Coronavirus Relief Funds (counties over the 500,000 population mark).

If counties have questions they can keep sending them to questions@naco.org.

Lastly, Matt Chase closed the call reiterating that NACO continues to ask for federal support for counties. He suggested we block out the noise of what Congressional leaders are saying publicly - that they are working towards a deal.

We'll see

Join NACo **TODAY** for a Call with U.S. Treasury Department Officials

CALL DETAILS

DATE: **TODAY**, April 28

TIME: 5 p.m. EDT

CALL-IN: [RSVP here](#) to receive call-in information

Please join the National Association of Counties (NACo) and the U.S. Department of Treasury **TODAY, April 28, at 5 p.m. EDT** for an update on the Coronavirus Relief Fund and county priorities in federal [coronavirus \(COVID-19\)](#) response efforts.

Hear from Daniel Kowalski, U.S. Department of the Treasury counselor to the secretary, who will discuss and answer questions on the [recently released guidance](#) for the Coronavirus Relief Fund, which was authorized under the CARES Act. The Coronavirus Relief Fund provides \$150 billion for state, county and municipal governments with populations over 500,000 to address costs related to the coronavirus pandemic response.

To review U.S. Treasury guidance on the Fund, [click here](#).

To review NACo's analysis of U.S. Treasury's guidance as it relates to local governments, [click here](#).

To submit questions before and during the call, email questions@naco.org.

RSVP HERE

COVID-19 UPDATES FROM NACo

During this critical and unprecedented time, NACo is focused on advocating for the needs of counties at the federal level, disseminating useful information to our members, and facilitating the exchange of effective strategies and approaches.

We have launched www.NACo.org/coronavirus, as well as a recurring digest of key resources for counties. Click below to subscribe to updates.

Subject: Nursing resource for Atlanta residents

Hi Richard,

New nurses joining the workforce is more important than ever. As we face COVID-19 America's nursing shortage has made itself more apparent than ever. At NurseJournal.org we recognize that prospective nurses need the most up to date information on this vital professional path.

To support future nurses in Atlanta with their studies, our team connected with experienced nurses and create a resource that deep dives on the impact of the Affordable Care Act on the profession. The resource explores how the role of nurses continues to evolve and deciphers what the changes in the landscape means for the nursing careers of current students. Take a look below:

A Nurse's Guide to the Affordable Care Act
<https://nursejournal.org/community/affordable-care-act-nursing-guide/>

Connect nursing students in Atlanta with this resource so we can contribute to their nursing excellence in this uncertain time. **Include a link to the above resource on the Fulton County Government site here or anywhere else you find most appropriate:** <https://www.fultoncountyga.gov/services/health-services/public-health>

We hope that together we can support Atlanta nursing students as they remain committed to their academics and training during these unprecedented times.

Best,

Michelle Turner | MichelleTurner@nursejournal.org

Hi Dick,

Good chatting earlier today. Have attached a couple of documents:

1. A short 5-10 pager that describes what we (Mck) are doing for others and how we could help address specific issues for State of GA
2. A custom pull specifically for State of GA of key metrics and markers – current as of 4/17. Think you will find this very useful. We have the capability to do this for every state.

We have lots of further detail on these and other topics (e.g. chapter and verse on testing etc) but wanted to see if these would be enough to start with Kemp

FGTV (4.27.20)

Where are we?

- 1) With over 2500 COVID-19 cases and 90 deaths, we are still in quite serious situation, but I think moving to a second phase.
- 2) The good news is that our capacity planning with Healthcare and State partners, provided us with ample capacity in our hospital, ICU and ventilator needs which averted a catastrophic result. And we have seen the curve flatten in FC.
- 3) We completed another \$2M in awards to a number of community based organizations such as QLS, GOODR, COUNCIL on AGING to support food insecurity, homelessness.
- 3) In this next phase, social distancing and many of precautions continue to be necessary. However, a measured set of steps are being planned as the State of GA moves forward.

What are some of those next steps?

- 1) We are significantly expanding our COVID-19 testing locations.

2) This week, we move from 2 to 6 locations and plans to test over 50K citizens in month of May.

3) We can expand rapidly by partnering with public and private partners...including the National Guard at Turner Field and Greenbrier Mall, CVS and Walgreens and FC at WCA and 4700 NP.

4) We also plan a very innovative approach to mobile testing using previous approach with HIV testing vans converted to COVID-19 vans.

5) We are also planning an isolation unit of 100-200 at the FC Jail as we plan for any worst cast scenario in those facilities.

When do we get back to normal?

1) It is certainly too early to say from the economy as well as from the health outlook.

2) However, we have begun planning necessary to re-open FC Government.

3) Our guiding principle is safety for public and for our employees.

4) I think you will see phases...courts and tax offices perhaps first, limited Library and BH services, and much later senior services and arts.

5) While no dates have been proposed, we will have proper PPE, building enhancements and protocols before we open and I expect the month of May to be largely about planning and perhaps June for some limited re-opening.

BOC MEETING (5/6)

- 1) We continue make progress in our response to the COVID-19 crisis.
- 2) Most importantly, we have maintained healthy cushions in healthcare capacity with 846 beds. 195 ICU beds, 287, ventilators and 129 in expected morgue capacity. The flattening of the curve and good planning have avoided an early catastrophic result.
- 3) In a next phase, testing becomes paramount. With the inclusion our new sites at WCA and 4700 NP, two retail sites, two National Guard sites and hospital partners, we have tested over 55K folks through yesterday.
- 4) To think boldly, we should consider testing all FC employees, all municipal employee and the population in general. We have asked EMSI and our teams to model the priorities, capacity and even marketing campaigns to drive behavior. However, even McKinsey's effort to offer a strategy proved to be difficult.
- 5) The other element of a next phase of FC re-opening. Safety first will be our guiding principle. That requires PPE at scale for 90 days, building enhancements, employee testing and new protocols which are being carefully thought through. Anna Roach will cover the details with a target of June 1 thru July 1 for a phased opening.
- 6) We also continue to closely monitor the situation at the Jail which has been

managed well. We are now finalizing plans for COVID-19 isolation unit at Rice street and Union City.

7) We are continue to support the community through the \$10M package approved by the BOC and will provide a brief status on those payments.

8) As with all governments, we are in a conservative posture as it relates to our financial stability. As you recall, we implemented expense controls and reserved \$31M to cover near-term COVID-19 expenses. We have received CARES funding of \$104M. We will share the most likely uses of that funding today. Having already spent or obligated \$18M, we are on a monthly run rate to use these funds in their entirety.

9) We are also looking ahead to future revenue impacts from commercial property tax digest impacts and will argue to continued expense controls in light of great uncertainties.

10) In the end, I want to thank our leaders for their commitment to citizens and their creative approaches to managing some very complicated issues in an unprecedented time.

Subject: Proposed CARES Act funding usage at Fulton County Executive Airport

Dick:

Earlier this week, the FAA provided revised guidance on how the CARES Act funding can be used by general aviation airports. Specifically, the guidance centered around using the funds towards abating rent of business operators on the airfield. Business Operators are being defined as those companies that are based on the airfield and that earn their livelihood by providing air-related services. For Fulton County Executive, these include the 2 FBOs and the flight school. Tenants who rent hangar space from the County do not meet this definition and should not be given the abatement option according to the FAA.

Over the past few days, Public Works has been in conversations with the County Attorney's Office about this refined direction. Based on the new information, the County Attorney's Office is recommending that the topic be discussed with the Board

of Commissioners during the Executive Session on May 6 . I have attached a memo that more fully outlines the issue, FAA's guidance, and staff recommendations.

I will be available during the BOC meeting, if necessary to answer any questions. Also, Tim Beggerly and I will make ourselves available to the Manager's Office early next week if you would like to discuss this matter in more detail as you prepare for the BOC meeting.

To: COUNTY-MANAGERS-AND-ADMINS@LISTSERV.ACCG.ORG
Subject: [COUNTY-MANAGERS-AND-ADMINS] Queueing & Online Scheduling

Good afternoon:

Coweta County is considering a queueing solution as part of our strategy to facilitate social distancing and alleviate wait times as we begin to reopen to the public. The primary use will begin with the Tag Office and then we may implement in other departments long-term (contingent upon funding). Although we've identified a few similar solutions, QLess seems to be the prevailing choice. I understand that Cobb County was a former QLess client. Does anyone else have any experience with QLess or a similar virtual queueing or online scheduling solution?

QLess:
<https://www.qless.com/government/>

Thanks for any relevant information that you can share.

Best regards,
Michael

David,

Good morning,

Attached you will find a summary report on our advertising support for the testing program. We designed the ads and had them placed in various locations on the Arts and Entertainment District's signs downtown. We then took pictures of the signs and blasted them out on social media. You can see some of the initial results in the report.

We will continue to look for ways to support your efforts in this area.

Best,

AJ

-

Today at 2 p.m.

Fulton Providing Six Medical Transport Units to South Fulton Cities to Aid in COVID-19 Response

Six new units will be shared among South Fulton cities

- WHAT:** Transfer of six medical transport units for use by South Fulton cities
- WHEN:** 2 p.m. TODAY, Friday, May 1, 2020
- WHO:** *Anticipated attendees include:*
Fulton County Chairman Robb Pitts
Vice Chairman Marvin S. Arrington, Jr.
Commissioner Joe Carn
Fulton County Manager Dick Anderson
Fire Chiefs of South Fulton cities
- WHERE:** Wolf Creek Amphitheater, 3025 Merk Rd SW, College Park, GA 30349
- WHY:** To assist with COVID-19 response, Fulton County has leased 6 medical transport units to support emergency medical service response in South Fulton, which includes many of the ZIP codes with the greatest incidence of COVID-19 in Fulton County. These will be shared among the cities.

The fire chiefs of the cities of City of South Fulton, Union City, Fairburn, College Park, Chattahoochee Hills, East Point and Palmetto requested the support of additional medical transport vehicles for 90 days during COVID-19 response. These vehicles will be shared by the cities and used by their fire departments for medical transport if Grady EMS is unable to meet demand. Many of the Fulton County ZIP Codes with the highest incidence of COVID-19 disease are located in South Fulton County.

Today at 2 p.m.

Fulton Providing Six Medical Transport Units to South Fulton Cities to Aid in COVID-19 Response

Six new units will be shared among South Fulton cities

- WHAT:** Transfer of six medical transport units for use by South Fulton cities
- WHEN:** 2 p.m. TODAY, Friday, May 1, 2020
- WHO:** *Anticipated attendees include:*
Fulton County Chairman Robb Pitts
Vice Chairman Marvin S. Arrington, Jr.
Commissioner Joe Carn
Fulton County Manager Dick Anderson
Fire Chiefs of South Fulton cities
- WHERE:** Wolf Creek Amphitheater, 3025 Merk Rd SW, College Park, GA 30349
- WHY:** To assist with COVID-19 response, Fulton County has leased 6 medical transport units to support emergency medical service response in South Fulton, which includes many of the ZIP codes with the greatest incidence of COVID-19 in Fulton County. These will be shared among the cities.

The fire chiefs of the cities of City of South Fulton, Union City, Fairburn, College Park, Chattahoochee Hills, East Point and Palmetto requested the support of additional medical transport vehicles for 90 days during COVID-19 response. These vehicles will be shared by the cities and used by their fire departments for medical transport if Grady EMS is unable to meet demand. Many of the Fulton County ZIP Codes with the highest incidence of COVID-19 disease are located in South Fulton County.

Everyone,

Just informed by Joe that we got word that a contractor custodial employee in the government center tested positive today. This employee was in the building yesterday. The employee was a floor tech who worked floor cleaning so we don't believe he was in office areas but are tracing. He was in public hallways and the bridge at least lower levels. Joe and team are working with the contractor to identify areas to

clean and response tonight.

Just wanted everyone to be aware and be safe on your way out tonight given you all are still in the building. Joe will be updating tonight on areas cleaned by Spaulding and staff.

Some interesting perspective on reopening

From: [James, Diara](#)
To: [Anderson, Dick](#)
Subject: Hazard Pay for GCIC Operators
Date: Sunday, May 3, 2020 6:44:38 AM
Attachments: [image001.png](#)
Importance: High

Good morning Mr. Anderson,

I am currently assigned to the Police Department -GCIC Section Morning Watch. I was told on Saturday, May 2, 2020 that our division is Not eligible for Hazard Pay after being told we were eligible a couple of weeks ago. Mr. Anderson I am so confused as to why we are no longer eligible. The Police Officers nor 911 cannot function without us and we cannot operate without them. Our 12 person staff not only services The Fulton County PD but we also service Palmetto PD/Fulton County School PD/Fairburn PD/Union City PD/Department of Juvenile Justice and City of South Fulton PD. We form a triangle – The Police/911 and GCIC whom all perform critical duties. Maybe it was not fully explained what exactly it is we do.

Mr. Anderson if one of your love ones were missing and you wanted the police to assist with locating them, the first line of contact would be 911. Then 911 would dispatch an officer to your location to collect information so your love one can be placed on a National System which is GCIC/NCIC. That officer/detective would then forward the collected information to Fulton County GCIC for entry. That information is entered by one of our 12 GCIC Operators who work 24/7 all 365 days of the year. Any vehicles/wanted persons & articles are also entered by us. If a person commits a Murder in unincorporated Fulton County, that person must be placed on the system so that every police agency in the world is aware the he/she is wanted. That is done by our section. Mr. Anderson with all due respect I really don't understand how 911 Operators are eligible for Hazard Pay and GCIC Operators are not. We both are civilians who do not physically come in contact with the general public but neither of us can operate without the other.

The FCPD has been closed to the public during Covid-19 but NOT GCIC because we are essential. However we have had to fingerprint numerous Officers and Judges during this time and that has placed each staff member in our section in a hazardous environment. If only Sworn Personnel are considered "Emergency Essential" then maybe we should look at only having officers handling GCIC/ finger printing and civilians should be placed on paid leave like the rest of the county.

Mr. Anderson I am reaching out to you because I don't know what else to do. It doesn't seem like we have anyone to fight for us so I am willing to speak up on behalf of all 12 persons assigned to our division. I was contacted on Friday, May 1, 2020 by some of my co-workers and they were in tears because they feel unappreciated and hurt by the Personnel Directors decision to not include GCIC Operators in the Hazard Pay. I hope I have not over stepped

any boundaries and if you feel I have, I deeply apologize. I just wanted each of my team members to know that they are appreciated and that someone is willing to fight for them!!

Thanks for all your assistance with this matter and I hope you have a great weekend.

When the world's leading strategy consulting firm has a difficult time articulating a strategy for COVID-19 testing, it demonstrates the difficulty in articulating our strategy for Fulton county. However, this article does raise some interesting points.

FGTV (4.27.20)

Where are we?

- 1) With over 2500 COVID-19 cases and 90 deaths, we are still in quite serious situation, but I think moving to a second phase.
- 2) The good news is that our capacity planning with Healthcare and State partners, provided us with ample capacity in our hospital, ICU and ventilator needs which averted a catastrophic result. And we have seen the curve flatten in FC.
- 3) We completed another \$2M in awards to a number of community based organizations such as QLS, GOODR, COUNCIL on AGING to support food insecurity, homelessness.
- 3) In this next phase, social distancing and many of precautions continue to be necessary. However, a measured set of steps are being planned as the State of GA moves forward.

What are some of those next steps?

- 1) We are significantly expanding our COVID-19 testing locations.
- 2) This week, we move from 2 to 6 locations and plans to test over 50K citizens in month of May.
- 3) We can expand rapidly by partnering with public and private partners...including the National Guard at Turner Field and Greenbrier Mall, CVS and Walgreens and FC at WCA and 4700 NP.
- 4) We also plan a very innovative approach to mobile testing using previous approach with HIV testing vans converted to COVID-19 vans.
- 5) We are also planning an isolation unit of 100-200 at the FC Jail as we plan for any worst cast scenario in those facilities.

When do we get back to normal?

- 1) It is certainly too early to say from the economy as well as from the health outlook.
- 2) However, we have begun planning necessary to re-open FC Government.
- 3) Our guiding principle is safety for public and for our employees.
- 4) I think you will see phases...courts and tax offices perhaps first, limited Library and BH services, and much later senior services and arts.
- 5) While no dates have been proposed, we will have proper PPE, building enhancements and protocols before we open and I expect the month of May to be largely about planning and perhaps June for some limited re-opening.

BOC MEETING (5/6)

- 1) We continue make progress in our response to the COVID-19 crisis.
- 2) Most importantly, we have maintained healthy cushions in healthcare capacity with 846 beds. 195 ICU beds, 287, ventilators and 129 in expected morgue capacity. The flattening of the curve and good planning have avoided an early catastrophic result.
- 3) In a next phase, testing becomes paramount. With the inclusion our new sites at WCA and 4700 NP, two retail sites, two National Guard sites and hospital partners, we have tested over 55K folks through yesterday.
- 4) To think boldly, we should consider testing all FC employees, all municipal employee and the population in general. We have asked EMSI and our teams to model the priorities, capacity and even marketing campaigns to drive behavior. However, even McKinsey's effort to offer a strategy proved to be difficult.
- 5) The other element of a next phase of FC re-opening. Safety first will be our guiding principle. That requires PPE at scale for 90 days, building enhancements, employee testing and new protocols which are being carefully thought through. Anna Roach will cover the details with a target of June 1 thru July 1 for a phased opening.
- 6) We also continue to closely monitor the situation at the Jail which has been managed well. We are now finalizing plans for COVID-19 isolation unit at Rice street and Union City.
- 7) We are continue to support the community through the \$10M package approved by the BOC and will provide a brief status on those payments.
- 8) As with all governments, we are in a conservative posture as it relates to our financial stability. As you recall, we implemented expanse controls and reserved \$31M to cover near-term COVID-19 expenses. We have received CARES funding of \$104M. We will share the most likely uses of that funding today. Having already spent or obligated \$18M, we are on a monthly run rate to use these funds in their entirety.
- 9) We are also looking ahead to future revenue impacts from commercial property tax digest impacts and will argue to continued expense controls in light of great uncertainties.
- 10) In the end, I want to thank our leaders for their commitment to citizens and their creative approaches to managing some very complicated issues in an unprecedented time.

Subject: Proposed CARES Act funding usage at Fulton County Executive Airport
Date: Friday, May 1, 2020 2:33:41 PM
Attachments: [Proposed funding usage.pdf](#)

Dick:

Earlier this week, the FAA provided revised guidance on how the CARES Act funding can be used by general aviation airports. Specifically, the guidance centered around using the funds towards abating rent of business operators on the airfield. Business Operators are being defined as those companies that are based on the airfield and that earn their livelihood by providing air-related services. For Fulton County Executive, these include the 2 FBOs and the flight school. Tenants who rent hangar space from the County do not meet this definition and should not be given the abatement option according to the FAA.

Over the past few days, Public Works has been in conversations with the County Attorney's Office about this refined direction. Based on the new information, the County Attorney's Office is recommending that the topic be discussed with the Board of Commissioners during the Executive Session on May 6th. I have attached a memo that more fully outlines the issue, FAA's guidance, and staff recommendations.

I will be available during the BOC meeting, if necessary to answer any questions. Also, Tim Beggerly and I will make ourselves available to the Manager's Office early next week if you would like to discuss this matter in more detail as you prepare for the BOC meeting.

Hi there, Dick. Hope all is well.

I'm working on a story with my colleague Scott Trubey that assesses testing capacity and progress in the core counties of metro Atlanta: Clayton, Cobb, DeKalb, Fulton, and Gwinnett. As testing capacity ramps up, we're collecting data and requesting interviews from each county. Our deadline is tomorrow Tuesday, April 28.

We'd like to speak with you about the following:

- Are the county sites expecting to open more locations? Where, when and why?
- Are there testing goals that your county or counties are
- What are the challenges currently faced as you ramp up?

Here's the data we'd like for Fulton:

- Number of COVID cases by Zip code of residence for April 20 and April 27
- Number of COVID deaths by Zip code of residence for April 20 and April 27
- The number of people tested per site on April 20 vs. April 27
- Number of sites open on April 20 vs. April 27
- Typical appointment wait times, April 20 vs. April 27
- Testing capacity per site on April 20 vs. April 27. This means the number of people who can be tested per site if it were fully staffed and were processing the maximum

Thanks in advance for your help!

Hi Denise,

Thank you for introducing me to Marvin Arrington

Marvin, a pleasure e-mtg you earlier today As we discussed, I am one of the founding members for Global Hills Group (www.globalhillsgroup.com), a business development company working closely with NYCEDC to attract foreign companies to expand into the US in areas of medical devices, healthcare technologies, telemedicine, AI and make direct investments into our portfolio companies to help with their expansion and growth efforts in the US

When Coronavirus hit New York City, several of our hospital relationships reached out to us seeking to purchase a wide range of PPE directly with 3M distributors in order to find the needed allocation in their system to ship to hospitals groups in NYC, TX CA including the US Dept of Veterans Affairs who has given us substantial purchase orders to acquire 3M masks as well as other PPE directly with approved Chinese manufacturers (approved manufacturers by the CDC)

Given our vast network of direct 3M distributors and suppliers there is virtually nothing we are unable to procure on behalf of your state or county PPE requirements I will be happy to work with each of you to prepare a Request for Quotation and a Purchase Order in order to place the orders directly with 3M or any of our direct manufacturers for any of your PPE items by bypassing the restricted allocations by state at preferred pricing

Hope this information is helpful Look forward to working with you Thank you and stay safe and healthy God bless

Denise,

Pls see attached Purchase Order for the 6mm KN95 masks currently in New Jersey ready for purchase post full inspection by the buyer or buyers inspection firm

As discussed, the nursing home changed their purchase order downward leaving us with 6mm the buyer is holding for us to purchase if we issue another purchase order from a credible buyer (ie Hospital, nursing home, federal or state agency, etc.)

Feel free to call me with any interest Thank you

20-0326 AGENDA ITEM NOTE

Given the importance of Emergency Management, and our desire to better manage the County's ability to respond to current COVID-19 activity (and any future events), we request an increase in the pay grades of the **Emergency Management Director**, **Emergency Management Deputy Director** and **Emergency Management Division Chief** classifications within Emergency Management. Approval of this request will allow us attract and retain talent.

This action will also help the County decrease its dependency on outside vendors like EMSI. It will allow us the build our management capacity in Emergency Management, for this crisis (present and long term.)

If approved, we will have an immediate benefit in the potential to retain Joe Barasoain as the Deputy -- and recruit a top notch Division Chief to

manage EMS, ARFF and assist with SPOC operations.

DOR Extends Vehicle Registration Renewals to June 15

The Georgia Department of Revenue (DOR) has announced the renewal date for all vehicle registrations that expire between March 15, 2020 and June 13, 2020 has been extended through June 15, 2020. County tag offices should be prepared for increased walk-ins after June 15 and develop a plan for social distancing to protect staff and residents. In addition, as counties begin to reopen, many jurisdictions are considering ways to limit foot traffic into their facilities. Last week, the County Advisory Committee asked ACCG to contact the Department of Revenue (DOR), Motor Vehicle Division to see if the \$1 mail-in fee could be eliminated in the DRIVES system. DOR has indicated that this change can be made at the request of your tax commissioner. The online convenience fee is a payment to DOR's web portal vendor and cannot be eliminated at this time.

Guidance from the Secretary of State's Office Regarding Polling Places in Government Buildings

State Elections Director Chris Harvey today released guidance regarding polling places in government buildings. Georgia law gives county election superintendents authority to ensure that appropriate government buildings are made available for polling places, so long as such use does not substantially interfere with the use of such property for the purposes for which it is primarily intended. Subject: Re: Call center info

Dr. Holland,

I have added an "analytics" button to the SPOC appt board. This will take users to a view where they can see a breakdown of the data in many different forms;

1. Total appointments
2. Breakdown by SPOC location
3. Breakdown by Appointment Status
4. Breakdown by Race (which I'll improve on tomorrow and change up the colors a little bit)
5. Breakdown by zip code
 1. I coded every single zip code in Fulton County into this display
 2. Which means it's quite a bit so the data is in 4 rows of 20, the best way I could fit them all on one single page.

Destiny has also created all of the requested accounts for the users that were submitted to us, they all should have received an email with the URL to login as well as their assigned username and password. I can maybe put together a basic PowerPoint tutorial after dinner.

Subject: RE: Call center info

Here's what we need for the fields in WebEOC – basically what you said:

- Name
- DOB
- Address

- City
- State
- Zip
- Phone number
- Race (dropdown: Asian, American Indian/Native American, Black, Native Hawaiian/Pacific Islander, White, Other)
- Symptoms (dropdown: yes or no)
- First responder/healthcare worker/live or work in congregate setting: (dropdown: yes or no)
- Contact to known case (dropdown: yes/no)

We don't need to capture the actual symptoms, just "yes or no" will do. And we don't need medical conditions – we can get those on the backend.

Also, we don't need PUI numbers at all. If these fields can be added to the WebEOC scheduler, that's all we need. The call center will just skip the SENDSS interface, put them in a time slot, and we get them tested. No nurse referral, no callback for an appointment, no screening – just an appointment.

Subject: Re: Call center info

When we registered the public safety folks for testing, all the BOH team asked for was Name / DOB / Cell Number / Home Address / Chief Complaints / Any underlying medical conditions. From there, a PUI number was assigned and they were told to report for testing. It should be that easy for any citizen that calls the hotline.

On Apr 26, 2020, at 10:02 AM, Holland, David

<David.Holland@fultoncountyga.gov> wrote:

True, and I'm *not* suggesting we sideline Joe or his team. Things have been running extremely well, and I don't want to endanger that.

However, we've been running the SPOC for about a month, so I wonder if we could take another look at how it's run and see if we could simplify a little.

More broadly, though, after talking to Gwinnett, I realize that everyone with a successful testing site basically broke away from the states guidance (albeit more quietly than we did) and let go of SENDSS, set up their own scheduling system, and are

basically testing *everyone* that calls in asking for it.

I feel really stupid for allowing us to get trapped in this corner we're in. Testing large numbers of people is *literally* 50% of what I do for a living, and this is embarrassing. I will *not* allow the National Guard to do a better job at it than we do. Monday begins a total revamp of our system, starting with the call center, and I just wanted to be ask that we include all our operations when looking at what can be simplified.

Subject: Re: Call center info

Joe is very reasonable and always willing to listen. However, I will caution you this is your team's first major disaster declaration. Joe has done a few of these and his experiences shouldn't be shoved to the side for the sake of making things more like a blue sky day operation.

I am the first to admit that we can always learn from others, but I think her logic is flawed when the most successful operations in our area still utilizes the registration and appointment method.

With that being said, I am more that willing to place more of the responsibility of the operations of the SPOC on your team should that be the will of the Board of Health and Dr Paxton.

On Apr 25, 2020, at 6:15 PM, Holland, David
<David.Holland@fultoncountyga.gov> wrote:

I know Joe is in charge of the SPOCs, but I think we need to listen to what Corinna has to say. We added a lot of extra staff at Joe's insistence, but I'm not clear that we really need as many as we have out there. We can run an HIV testing event with three people, and though admittedly this is more complicated, it's not an order of magnitude more so.

I would like to think about shifting the SPOCs to run more like a testing event and less like an emergency response. I know we need some of that for federal reimbursement, but we can still simplify.

From: Hansen, Corinna
Sent: Saturday, April 25, 2020 5:32 PM
To: Holland, David
Subject: RE: Call center info

Hi Dr. Holland.

Can we please talk? I did visits with Cobb and DeKalb SPOCs this week to get thoughts on what is working/not working. I haven't known who to talk to about what Cobb is doing, but they process significantly more specimens than we do in much less time with far fewer staff members. Their system almost completely eliminates the need for schedulers and our WebEOC scheduling board. It also improves accuracy of data, while decreasing the number of Registration staff needed, reducing time spent entering data in SENDSS, allows for PUIs to be tested without an "appointment", and provides for a way to document consent for the BOH to contact.

From my experience working closely with the schedulers and Registration, I see where a rapid rollout of added schedulers may lead to an increase in errors that will need to be addressed at Registration (thereby increasing the time it takes to take to move PUIs through the queue), issues around pacing appointments, errors with specimen count data (Tenny and I worked through one of these Friday), and increased challenges around communicating changes in plans/operations. Of course, we will do whatever it is leadership wants and we will work to resolve these issues. I just wanted to share an alternative approach that may also be driving more people to Cobb's SPOC versus ours.

Best regards,

Corinna

Subject: RE: Call center info

So to sum up: We can just go straight to WebEOC for scheduling, though it would be nice if we could add fields for the demographic info and something brief about symptoms and risk factors – it really comes down to what Epi needs on the back end. If Donnie can add that stuff in (not the whole list in SENDSS), then we are solid.

Subject: RE: Call center info

Thanks Donnie, I probably should have been a little more specific. I appreciate the information though.

My question was in reference to the Web EOC scheduling component. FCBOH call center reps are now generating PUI numbers. Our goal is to also have them assist schedule appointments for those whom they generate PUI numbers for.

Would it be possible for you and I and maybe a team leader or two to have a quick training on the schedule tracker? We can discuss the logistics of this sometime next week if you're available, and if the process doesn't change.

Thanks again,

Sheena

Subject: Re: Call center info

Certainly, we can set a time to do a conference together and I can give you an impromptu training focused on what we've done for COVID-19 and the SPOCs overall to this point. Just let me know when is a good time for you. I've attached some photos of some of the work we've been doing / can do for this response; Included is a read-only version of the appointment board we designed for the SPOC.

We also have some WebEOC basic training materials. We created a virtual WebEOC training guide during the super bowl which [you can view by clicking here](#) - Some of the boards and options are tailored for that Super Bowl event, but a lot of the basics on how the system operates is applicable to daily use for users that have never used the system before.

Additionally, we have a very short, basic tutorial guide on setting up the app plus how to navigate the new app on youtube which you can find here - Video Setup - <https://youtu.be/-FkA9eiHf2I>

Let me know if there's anything we can do to improve or assist with any boards or systems and/or if you'd like to get together online for a screen share.

I just spoke to Gwinnett about their call center and learn some very important things:

1. They don't use the SENDSS interface for scheduling at all. They don't bother assigning PUI numbers to their clients. Instead, they built out their own scheduling system using Google Sheets that captures the necessary information and is available to the team at the SPOCs.
2. They don't have nurses in their call centers. They consider entirely a scheduling system.
3. They expanded the criteria for testing to include all symptomatic individuals long before DPH did – but they didn't advertise it, so the Governor didn't find out about it to shut it down.

Also, the National Guard has threatened to take over their SPOCs, too, so it isn't just us. We have common cause.

Dr. Holland,

I have added an "analytics" button to the SPOC appt board. This will take users to a view where they can see a breakdown of the data in many different forms;

1. Total appointments
2. Breakdown by SPOC location
3. Breakdown by Appointment Status
4. Breakdown by Race (which I'll improve on tomorrow and change up the colors a little bit)
5. Breakdown by zip code
  1. I coded every single zip code in Fulton County into this display
  2. Which means it's quite a bit so the data is in 4 rows of 20, the best way I could fit them all on one single page.

Destiny has also created all of the requested accounts for the users that were submitted to us, they all should have received an email with the URL to login as well as their assigned username and password. I can maybe put together a basic PowerPoint tutorial after dinner.

Subject: Re: Call center info

I have added all of the fields requested to the SPOC Appointments Tracker & taken away the PUI number and column per request. Currently I'm combing through the read only list views & search and filter functions to ensure everything is unaffected, once done I'll begin working on some visualization tools - graphs/charts, totals, etc.

I'll reply back when those are in place as well.

**To:** Matthew Kallmyer <[matthew.kallmyer@afcema.com](mailto:matthew.kallmyer@afcema.com)>

**Subject: RE: Call center info**

Here's what we need for the fields in WebEOC – basically what you said:

- Name
- DOB
- Address
- City
- State
- Zip
- Phone number
- Race (dropdown: Asian, American Indian/Native American, Black, Native Hawaiian/Pacific Islander, White, Other)
- Symptoms (dropdown: yes or no)
- First responder/healthcare worker/live or work in congregate setting: (dropdown: yes or no)
- Contact to known case (dropdown: yes/no)

We don't need to capture the actual symptoms, just "yes or no" will do. And we don't need medical conditions – we can get those on the backend.

Also, we don't need PUI numbers at all. If these fields can be added to the WebEOC scheduler, that's all we need. The call center will just skip the SENDSS interface, put them in a time slot, and we get them tested. No nurse referral, no callback for an appointment, no screening – just an appointment.

**Subject:** Re: Call center info

When we registered the public safety folks for testing, all the BOH team asked for was Name / DOB / Cell Number / Home Address / Chief Complaints / Any underlying medical conditions. From there, a PUI number was assigned and they were told to report for testing. It should be that easy for any citizen that calls the hotline.

<[David.Holland@fultoncountyga.gov](mailto:David.Holland@fultoncountyga.gov)> wrote:

True, and I'm *not* suggesting we sideline Joe or his team. Things have been running extremely well, and I don't want to endanger that.

However, we've been running the SPOC for about a month, so I wonder if we could take another look at how it's run and see if we could simplify a little.

More broadly, though, after talking to Gwinnett, I realize that everyone with a successful testing site basically broke away from the states guidance (albeit more quietly than we did) and let go of SENDSS, set up their own scheduling system, and are basically testing *everyone* that calls in asking for it.

I feel really stupid for allowing us to get trapped in this corner we're in. Testing large numbers of people is *literally* 50% of what I do for a living, and this is embarrassing. I will *not* allow the National Guard to do a better job at it than we do. Monday begins a total revamp of our system, starting with the call center, and I just wanted to be ask that we include all our operations when looking at what can be simplified.

Joe is very reasonable and always willing to listen. However, I will caution you this is your team's first major disaster declaration. Joe has done a few of these and his experiences shouldn't be shoved to the side for the sake of making things more like a blue sky day operation.

I am the first to admit that we can always learn from others, but I think her logic is flawed when the most successful operations in our area still utilizes the registration and appointment method.

With that being said, I am more that willing to place more of the responsibility of the operations of the SPOC on your team should that be the will of the Board of Health and Dr Paxton.

**Subject:** RE: Call center info

Hi Dr. Holland.

Can we please talk? I did visits with Cobb and DeKalb SPOCs this week to get thoughts on what is working/not working. I haven't known who to talk to about what Cobb is doing, but they process significantly more specimens than we do in much less time with far fewer staff members. Their system almost completely eliminates the need for schedulers and our WebEOC scheduling board. It also improves accuracy of data, while decreasing the number of Registration staff needed, reducing time spent entering data in SENDSS, allows for PUIs to be tested without an "appointment", and provides for a way to document consent for the BOH to contact.

From my experience working closely with the schedulers and Registration, I see where a rapid rollout of added schedulers may lead to an increase in errors that will need to be addressed at Registration (thereby increasing the time it takes to take to move PUIs through the queue), issues around pacing appointments, errors with specimen count data (Tenny and I worked through one of these Friday), and increased challenges around communicating changes in plans/operations. Of course, we will do whatever it is leadership wants and we will work to resolve these issues. I just wanted to share an alternative approach that may also be driving more people to Cobb's SPOC versus ours.

Best regards,

Corinna

Subject: RE: Call center info

So to sum up: We can just go straight to WebEOC for scheduling, though it would be nice if we could add fields for the demographic info and something brief about symptoms and risk factors – it really comes down to what Epi needs on the back end. If Donnie can add that stuff in (not the whole list in SENDSS), then we are solid.

**Subject:** RE: Call center info

Thanks Donnie, I probably should have been a little more specific. I appreciate the information though.

My question was in reference to the Web EOC scheduling component. FCBOH call center reps are now generating PUI numbers. Our goal is to also have them assist schedule appointments for those whom they generate PUI numbers for.

Would it be possible for you and I and maybe a team leader or two to have a quick training on the schedule tracker? We can discuss the logistics of this sometime next week if you're available, and if the process doesn't change.

Thanks again,

Sheena

Certainly, we can set a time to do a conference together and I can give you an impromptu training focused on what we've done for COVID-19 and the SPOCs overall to this point. Just let me know when is a good time for you. I've attached some photos of some of the work we've been doing / can do for this response; Included is a read-only version of the appointment board we designed for the SPOC.

We also have some WebEOC basic training materials. We created a virtual WebEOC training guide during the super bowl which [you can view by clicking here](#) - Some of the boards and options are tailored for that Super Bowl event, but a lot of the basics on how the system operates is applicable to daily use for users that have never used the system before.

Additionally, we have a very short, basic tutorial guide on setting up the app plus how to navigate the new app on youtube which you can find here - Video Setup - <https://youtu.be/-FkA9eiHf2I>

Let me know if there's anything we can do to improve or assist with any boards or systems and/or if you'd like to get together online for a screen share.

<David.Holland@fultoncountyga.gov> wrote:

I just spoke to Gwinnett about their call center and learn some very important things:

1. They don't use the SENDSS interface for scheduling at all. They don't bother assigning PUI numbers to their clients. Instead, they built out their own scheduling system using Google Sheets that captures the necessary information and is available to the team at the SPOCs.
2. They don't have nurses in their call centers. They consider entirely a scheduling system.
3. They expanded the criteria for testing to include all symptomatic individuals long before DPH did – but they didn't advertise it, so the Governor didn't find out about it to shut it down.

Also, the National Guard has threatened to take over their SPOCs, too, so it isn't just us. We have common cause.

We are putting this information together and additional as part of BOC memo in preparation for next week's meeting. Most likely will have tomorrow.

We published previously all digital services on FC home page. While we has 880 employees on administrative leave, we are down to less than 150 not yet assigned. Will be recommending ceasing admin leave consistent with re-opening dates when final.

Will have about 1500 on hazardous pay based on final list and construction continues with exception of ceasing planning for animal shelter and public safety center.

Ellis, thanks for adding me.

I would first ask the CM how he wants to handle the request (for example, some of these will be answered when Ken presents on hazard pay next week).

In general, these are all fair questions and e should consider sharing response (if CM directs us to provide) with the full BOC. I imagine we have the information on hand to answer much of this. It would just be a matter of coordinating into a single response document.

Glad to discuss with you tonight if below doesn't suffice...

Would also mention (2) things:

1) We have expanded testing sites from 2 to 6 including FC, National Guard and Retail. With hospital partners included we had some 47K tests as of yesterday during April.

Have also challenged EMSI to work on a testing capacity plan for us as they did for hospitals

2) Our capacity planing for hospitals was successful and have 800 spare beds, 200 ICU beds and 150 ventilators in excess...good news being most likely deaths at 230 versus 450 several weeks ago

3) Last, we have reduced the jail population over 500 and have only one COVID positive inmate and 4-5 under investigation. But are reviewing an option for a medical isolation units at Rice and Union City if needed.

Dick,

Hope you're well.

The good folks of Cherokee County told us that Fulton has received some Fed funds to use for preparedness related to Coronavirus. Is that the case? If so, which specific funds have you received?

Thanks so much for your guidance.

Just plucked from AJC, Kemp think's he's furloughing and layoffs to teachers? That's another significant impact.

State agencies were told Friday they should plan on cutting more than \$3.5 billion from their budgets in the upcoming fiscal year, a move that could bring furloughs and layoffs among Georgia's 200,000 teachers and state employees.

With the coronavirus pandemic shutdown and recession hitting state finances hard, Gov. Brian Kemp's budget office and the leaders of the House and Senate budget committees sent a memo to agencies asking them to

develop new spending proposals for fiscal 2021, which begins July 1. The amount they should expect to cut: 14%, no exceptions.

That includes K-12 schools, which would see their state support trimmed, and state colleges.

Subject: cash flows updated for April 30 actuals.

So we thought Tax Office would be zero in April, but they did make at least 1 big distribution.

With TAVT and prior year taxes, it's an extra \$9m (split about 50/50 between the two categories), that

We got in April that we didn't think we would. So I've reduced subsequent collections to keep to our Projection totals.

Spending was close, we spent about \$2M more than projected. We have \$59M in the bank for General fund

As of 4/30, our fund balance is \$55M. we'll be fine before TAN proceeds arrive.

So back to TAVT, we got \$4.5M. that's 2 months' worth I'm guessing, which means my 20% reduction guess on TAVT

For all of 2020 is too conservative. But not sure how much carry over/lag time we really have on TAVT – I think we get
A clearer picture on TAVT at end of May. It's just what data we can gather and how current it is.

Also, we've not done any lifts out of General fund for spending on Covid over into fund 444 as of 4/30, that certainly
Affects our projection go forward.

Sales tax. We think it's probably \$900+ for April, which is really March sales. I
reduced annual sales tax 5%, could be that needs
To come down a good bit more.

Subject: Contact Tracing

Hey John,

It was good catching up today. I wanted to follow up on our conversation to see if Fulton County plans to have a local approach to contact tracing when Georgia begins to reopen. We work with a group called Westat out of Maryland and they have thousands of employees throughout the country that perform large health surveys and research studies for intuitions like NIH. As states and local governments look to navigate the path forward with COVID, they are interested in working with them to perform contact tracing. If there is any interest from Fulton County to meet with Westat in the future and learn more about their capabilities please let me know. If I should reach out directly to Fulton County Board of Health I can do that as well.

Hope you and your family stay healthy and safe!

Best,
Sally

Thanks. As I mentioned on the Area Command call yesterday, DPH is already far along in the planning for what will be a statewide contacting tracing plan that is currently being piloted in 2 districts then will be going live to all districts next week. There is therefore no need for Westat's services in this regard and I have already let them know since they contacted me separately. We will, however, need people to help with the contact tracing and our chief epidemiologist, Dr. Khan, will be liaising with Ms. Roach, among others, to coordinate that effort.

Best,
Lynn

Dick and Anna:

We have met several times—in particular at some meetings to coordinate support for Grady. I serve as the ED for the Atlanta Regional Collaborative for Health Improvement (ARCHI) and many different staff at the county and the Fulton Board of Health have been actively involved in our work for the last 7 years.

I realize you are all working very hard without enough time or resources-- but I wanted to reach out anyway.

There is some interest in exploring how jurisdictions might coordinate across lines as they work to alleviate both the health issues and address economic concerns with the recent CARES Act distributions metro area governments have received. This obviously can reach far beyond health as there are many uses for these dollars including support for public employees. But where it would make sense to identify evidence based strategies, common community or private partners, address concerns that span jurisdictions or would require coordination to be as successful as possible (testing, tracing, any social supports for people in need etc.) it might be useful to find a forum to discuss.

DeKalb county and the City of Atlanta have already confirmed that they would be very interested in a call to discuss as soon as possible.

If there is even a shred of interest in this, on Fulton's part, please let me know. This is on a short timeline as everyone is eager to get the funds deployed.

I hope you are and your families are well. Thank you for all your are doing to support Fulton county!

Subject: Covid-19 Essential Worker Concern

From a Concerned "Essential Workers",

It is no secret that the Corona Virus known as COVID-19 has interrupted and disrespected this entire society and seems to be running rampant within this entire country. Like millions of workers across America, my co-workers and I are a community that has risked our lives and compromised the health of family as well as ourselves in the midst of performing a job deemed "essential" for society. The extreme sacrifices we continue to make as frontline workers require an immediate response to those whose loved ones are booked-in and hopefully released as the jail continues to house those that have been infected and those that may be carriers of the virus as well.

We trust on a daily basis that this facility will provide life-saving personal protective equipment (PPE) to shield us from this invisible enemy as well as provide stringent safety measures also. On March 20, 2020, we were provided with one N95 mask for the duration of this epidemic but can go through other measures to receive an additional one. This is unacceptable! But yet and still we arrive to work for our regularly scheduled shift.

Included in the mainstream media news on April 13, 2020 was the Fulton County Jail being sanitized and cleaned in order to aid in the eradication of the virus within the jail. We were ecstatic to hear the news except the Active Records Department was not included. We encounter those same inmates and officers that are in constant contact with the inmates housed

in the jail. As of May 5, 2020, the Active Records department remains unscathed! In lieu of our department being included in the sanitation, we are asked to upkeep our area until further notice. When will we receive our initial sanitizing of our department? But yet and still we are “essential” to the process!

Many of us are the sole providers for our family. It is not enough to express our deepest concerns and they be ignored. We are held to the same standards of reporting come inclement weather in addition to presently reporting through this global pandemic. You will never feel nor understand the pain that we feel until you have actually worn our shoes. We hold the decision makers to a higher standard in making well thought out decisions. One can imagine the consequences the jail as a whole would suffer if the entire Intake and Booking as well as the Active Records Department would have only thought of our immediate family as well as ourselves. The results would have been detrimental to the entire Fulton County Jail. We value our jobs as well as our families and know that we need both to sustain.

From Doctors to delivery drivers, grocery store workers and care providers, detention officers to us as Criminal Investigation Service Technicians we are “essential” to the process. The panic on our faces are not seen while performing our duties and then go home to family in hopes that we have not contracted the virus nor transmitted it to anyone else. There should be no excuse why we are not included in the hazardous benefits. We are the ones taking the risk! We are the ones included in the exposure to COVID-19 in order to continue processing in-coming and releasing inmates.

Honestly, we cannot put an amount on how much is enough at risking our lives but what should be considered is our safety, our health and those again we compromise. Those included in our chain of command have expressed their gratitude but with this type of unprecedented event and high exposure a simply thank you is not enough!

Let this resonate from those that work the frontline...Those that are considered non-essential have to ***remain sheltered-in-place!*** Those that are deemed ***“essential” have to report!*** We know we are “essential” show us by allowing us to reap the benefits.

We can pull whatever is necessary. We are not flush with PPE but we should be able to address any essential services needs.

I was not aware that any particular needs existed with the FCSO. Historically, the FCSO has made their needs well know and Alton normally amplifies any such needs.

I will check with Alton to see if he is aware of this concern.

Subject: Covid-19 Essential Worker Concern

From a Concerned "Essential Workers",

It is no secret that the Corona Virus known as COVID-19 has interrupted and disrespected this entire society and seems to be running rampant within this entire country. Like millions of workers across America, my co-workers and I are a community that has risked our lives and compromised the health of family as well as ourselves in the midst of performing a job deemed "essential" for society. The extreme sacrifices we continue to make as frontline workers require an immediate response to those whose loved ones are booked-in and hopefully released as the jail continues to house those that have been infected and those that may be carriers of the virus as well.

We trust on a daily basis that this facility will provide life-saving personal protective equipment (PPE) to shield us from this invisible enemy as well as provide stringent safety measures also. On March 20, 2020, we were provided with one N95 mask for the duration of this epidemic but can go through other measures to receive an additional one. This is unacceptable! But yet and still we arrive to work for our regularly scheduled shift.

Included in the mainstream media news on April 13, 2020 was the Fulton County Jail being sanitized and cleaned in order to aid in the eradication of the virus within the jail. We were ecstatic to hear the news except the Active Records Department was not included. We encounter those same inmates and officers that are in constant contact with the inmates housed in the jail. As of May 5, 2020, the Active Records department remains unscathed! In lieu of our department being included in the sanitation, we are asked to upkeep our area until further notice. When will we receive our initial sanitizing of our department? But yet and still we are "essential" to the process!

Many of us are the sole providers for our family. It is not enough to express our deepest concerns and they be ignored. We are held to the same standards of reporting come inclement weather in addition to presently reporting through this global pandemic. You will never feel nor

understand the pain that we feel until you have actually worn our shoes. We hold the decision makers to a higher standard in making well thought out decisions. One can imagine the consequences the jail as a whole would suffer if the entire Intake and Booking as well as the Active Records Department would have only thought of our immediate family as well as ourselves. The results would have been detrimental to the entire Fulton County Jail. We value our jobs as well as our families and know that we need both to sustain.

From Doctors to delivery drivers, grocery store workers and care providers, detention officers to us as Criminal Investigation Service Technicians we are “essential” to the process. The panic on our faces are not seen while performing our duties and then go home to family in hopes that we have not contracted the virus nor transmitted it to anyone else. There should be no excuse why we are not included in the hazardous benefits. We are the ones taking the risk! We are the ones included in the exposure to COVID-19 in order to continue processing in-coming and releasing inmates.

Honestly, we cannot put an amount on how much is enough at risking our lives but what should be considered is our safety, our health and those again we compromise. Those included in our chain of command have expressed their gratitude but with this type of unprecedented event and high exposure a simply thank you is not enough!

Let this resonate from those that work the frontline...Those that are considered non-essential have to ***remain sheltered-in-place!*** Those that are deemed ***“essential” have to report!*** We know we are “essential” show us by allowing us to reap the benefits.

Subject: COVID-19 Response Tools

The RAND Corporation is a nonprofit institution that helps improve policy and decisionmaking through research and analysis.

May 2020

Dear Vangie,

I hope you are taking care of yourself and supporting your family, friends, and colleagues during this unsettling time. While we at RAND are all doing our best to keep our RAND family safe, we are also hard

at work on the analysis and methods needed to help leaders at all levels make effective decisions to help our communities heal.

This week, RAND released a **new tool** to help state and local officials estimate the public health and economic effects of social distancing and other public health interventions used to combat the COVID-19 pandemic. The tool will help decisionmakers weigh the trade-offs of different approaches, like scaling back or lifting stay-at-home orders and non-essential business closures. The tool also generates estimates for the projected change in COVID-19 infections, fatalities, hospitalizations, and gross state income. We are updating the tool every few days with new data to aid recovery planning as it unfolds.

Like many other research projects currently underway at RAND, the tool was funded with the help of unrestricted philanthropic support. We've used philanthropic contributions to initiate more than a dozen new COVID-19 projects on topics including the pandemic's impact on vulnerable populations, the use of technology in combating the crisis, and ways to lessen economic fallout. We've also launched a **fund to help support immediate research needs**, including those related to the COVID-19 pandemic.

RAND will continue to contribute evidence-based input to help decisionmakers take action to combat COVID-19 and mitigate its effects. I hope you will share **our resources** widely with colleagues and friends, and I encourage you to check back often for new RAND tools and recommendations.

I'm confident we will get through this together. We at RAND are inspired to do our part, and we're grateful for your support.

Be well,

Subject: COVID-19 Response Tools

The RAND Corporation is a nonprofit institution that helps improve policy and decisionmaking through research and analysis.

May 2020

Dear Vangie,

I hope you are taking care of yourself and supporting your family, friends, and colleagues during this unsettling time. While we at RAND are all doing our best to keep our RAND family safe, we are also hard at work on the analysis and methods needed to help leaders at all levels make effective decisions to help our communities heal.

This week, RAND released a **new tool** to help state and local officials estimate the public health and economic effects of social distancing and other public health interventions used to combat the COVID-19 pandemic. The tool will help decisionmakers weigh the trade-offs of different approaches, like scaling back or lifting stay-at-home orders and non-essential business closures. The tool also generates estimates for the projected change in COVID-19 infections, fatalities, hospitalizations, and gross state income. We are updating the tool every few days with new data to aid recovery planning as it unfolds.

Like many other research projects currently underway at RAND, the tool was funded with the help of unrestricted philanthropic support. We've used philanthropic contributions to initiate more than a dozen new COVID-19 projects on topics including the pandemic's

impact on vulnerable populations, the use of technology in combating the crisis, and ways to lessen economic fallout. We've also launched a [fund to help support immediate research needs](#), including those related to the COVID-19 pandemic.

RAND will continue to contribute evidence-based input to help decisionmakers take action to combat COVID-19 and mitigate its effects. I hope you will share [our resources](#) widely with colleagues and friends, and I encourage you to check back often for new RAND tools and recommendations.

I'm confident we will get through this together. We at RAND are inspired to do our part, and we're grateful for your support.

Be well,

Michael D. Rich signature

Afternoon Mr. Anderson

First thank you for receiving my email message. I pray that you, your family and colleagues remain healthy in these trying times. My company, Strother Nursing & Surgical Services L.L.C., is in a partnership agreement with KAG1 which is the Healthcare Procurement Branch of the partnership. Please visit the website below and go to the news section to see the great things we are doing. After seeing one of your cities Pastors on CNN this Sunday<x-apple-data-detectors //1>, Pastor Jamal Bryant, my partners and I were moved by his plea to get more testing in Atlanta. We have agreed to lower some of the cost of the test kits, changing the price from \$20 a kit to \$18. More than making a profit we are concerned about helping as many people as possible get tested. The only breakthrough for this Pandemic is widespread testing. And hopefully we can help your city and state reach that point. I will be in surgery for the next couple of hours. So if you would like to schedule a call please let me know. Thanks again and stay at home and virus free.

Dear All,

It is a pity that the COVID-19 pandemic has prevented me from meeting all of you in person as is my eventual plan. In the meantime we will continue to soldier on via email, phone calls and Zoom!

I actually want to assure you all that we at the Dept of Health are only interested in making sure that every Fulton County resident has access to testing and we will work with any group or organization that can make that a reality. We are not concerned with being the ones in control of every testing site. To achieve our goal of accessible testing, we are proceeding on several fronts:

- 1) Dr. Holland and I are reviewing all the available data about all current testing locations, location of cases ('hotspots'), and demographics to assess coverage and guide our planning.
- 2) As you know, the mobile testing sites are starting out tomorrow. We will be closely evaluating them over the coming days and making adjustments as necessary.
- 3) I will be closely working with our Communications teams so that we can improve our outreach to the community and our media presence. We should also be exploring different avenues to get the message out which may include some that we may not have used in the past.
- 4) It is apparent that we need to foster better communications between all the actors in this endeavor. It will be no secret to you that there have been some serious hiccups in the past weeks with plans to set up SPOCs in certain areas being derailed at the last minute because of miscommunications or power struggles. It has been very much a moving target but it is my aim to do my utmost to help bring some order to the process as I grow into my new role. I look forward to working with you all in that regard. I know that you all have a wealth of ideas and experience that I am eager to tap into. Do feel free to call or email me at anytime.

Best,
Lynn

Subject: COVID-19 Testing

All

Have been thinking about testing overnight. Having watched Trump's press conference yesterday where every mass retailer from WalMart to RiteAid got up and described testing plans, am struck by futility of trying to "control a rollout" versus focusing on results and where to add value.

We debated in telecom about who should "control the content" and finally decided to "let a thousand flowers bloom"....and add value in other ways such as broadband, wireless mobility, security, etc, Of course, now AT&T has purchased Time Warner :-)

In testing, perhaps we add value in various ways...optimal site selection, awareness marketing from a trusted source, best practices in running a SPOC and data analysis by BOH....but we don't try to control a mass market roll-out.

Let's do some more thinking and discuss.

We have completed 47,000 tests across Fulton County as of yesterday for month of April. This includes FC sites, National Guard sites, CVS, Walgreens and Hospitals like Grady, Emory and Piedmont.

We are developing a better report that captures all testing results across FC.

And we have now tripled sites and plan to double our capacity for May.

Subject: COVID-19 Update for Fulton County Employees

A Message From County Manager Dick Anderson

Dear Fulton County Employees:

It has been more than a month since most of our Fulton County facilities closed to the public.

During that time, thanks to your hard work, we have seen an incredible transformation in the way we serve citizens.

As the situation continues to evolve, I wanted to give you an update about

our COVID-19 response and how it may affect you as an employee.

Transformation of Services

In the last month, virtually every Fulton County department has found new ways to deliver services, using creativity, innovation and technology to deliver services in new ways.

Your spirit of public service is unstoppable and we can all be proud of the outstanding work done on behalf of our citizens!

Employee Assignments

Most of you are still working in your typical jobs, whether teleworking or reporting to your worksite. Some employees who have been on administrative leave, unable to telework or report to their workplace, are beginning to be reassigned to other county departments.

As one example, approximately thirty employees previously on administrative leave are now supporting the Department of Registration & Elections.

Fulton County citizens need us, so we are continuing to look for more opportunities to ensure that our entire workforce is supporting our mission during this critical time.

If you are called to serve in a job that is not your typical assignment, we know that you will show the same level of commitment that you show every day. Remember...we're counting on you!

Cost Control Measures

With millions of Americans out of work, we expect to see a revenue decline this year. At the same time, our costs have increased

dramatically as we respond to this crisis. We do not yet know the full economic impact of this pandemic.

To help ensure financial stability in the months ahead, we have put several cost saving measures in effect:

- Hiring freeze
- Delay of the Incremental Compensation Strategy implementation
- Delay of new programs and projects

Hazard Pay

On April 15, the Board of Commissioners approved hazard pay, in the amount of \$750, prorated for the month of March, for Hazardous Emergency Essential front-front line employees.

These include public safety, public health, public works and employees who are required to provide daily service to the general public. If you are eligible, you will hear more about this in coming days.

Next Steps

You may have read recent news reports about plans to reopen businesses and governments.

While Fulton County has not set a re-opening date, we are beginning to make preparations to gradually reopen public facilities in coming weeks. In doing so, the safety of the public and employees is our highest priority.

Our next steps will include:

- Ensuring that we have sufficient supplies for cleaning, sanitizing, and personal protective equipment

- Setting up screening stations at facility entrances, and signage on safety protocols
- Reconfiguring offices and public spaces to ensure social distancing
- Making program changes within departments, including modified employee schedules and services
- Training for employees on new procedures

We know that you will continue to rise to the challenge in the weeks ahead.

Thank you for all you do!

News Release

U.S. Department of Labor | April 30, 2020

**U.S. Department of Labor Announces \$29.2 Million Funding Opportunity
For the Workforce Opportunity for Rural Communities**

Initiative

WASHINGTON, DC – The U.S. Department of Labor, in partnership with the Appalachian Regional Commission (ARC) and the Delta Regional Authority (DRA), today [announced](#) the availability of approximately \$29.2 million in a second round of grant funding for the Workforce Opportunity for Rural Communities (WORC) Initiative.

“As we confront the economic challenges created by coronavirus, we must remain focused on equipping all Americans, including those living in rural America, with the skills they need to gain good paying jobs as our economy rebounds,” U.S. Secretary of Labor Eugene Scalia said. “The funding announcement today empowers rural communities to strategically invest in the local workforce and to create opportunities for individuals and families to better their lives.”

Under this FOA, the department’s Employment and Training Administration (ETA) will award these grants to applicants that demonstrate innovative and sustainable strategies to provide needed career, training and support services to eligible individuals to assist in meeting workforce challenges and industry needs currently underserved by other resources in the Appalachian and Delta regions.

Authorized by the Workforce Innovation and Opportunity Act, WORC Initiative grants take a long-term view towards assisting eligible communities in diversifying their economies and expanding and diversifying partnerships by investing in local strategies developed by regional partners. ETA will award those applicants that align and integrate workforce development activities with existing state, regional, or community development strategies. Ranging from \$150,000 to \$1.5 million, the grants also help serve those receiving employment and training services from organizations in regions affected by the opioid crisis.

Those eligible for WORC grants include:

- State, county, city, township, or special district governments;
- State or local workforce development boards;
- Regional organizations;
- Independent school districts;
- Public, state-controlled, or private institutions of higher education;
- Indian/Native American tribal governments (Federally and other than Federally Recognized);
- Indian/Native American tribally designated organizations;
- Public or Indian housing organizations;
- Non-profit organizations;
- Hispanic-serving Institutions;
- Tribally controlled colleges and universities;
- Historically black colleges and universities.

ARC and DRA will provide technical assistance to prospective applicants in their respective regions, as well as provide assistance and support to grantees across the life

of the initiative. Potential applicants are encouraged to visit www.arc.gov or www.dra.gov for more information, including dates and locations for pre-application technical assistance meetings.

[Learn more about grant eligibility and how to apply.](#)

ETA administers federal job training and dislocated worker programs, federal grants to states for public employment service programs, and unemployment insurance benefits. These services are primarily provided through state and local workforce development systems.

The mission of the Department of Labor is to foster, promote, and develop the welfare of the wage earners, job seekers, and retirees of the United States; improve working conditions; advance opportunities for profitable employment; and assure work-related benefits and rights.

On May 1, 2020, at 9:42 AM, Hermon, Kenneth <Kenneth.Hermon@fultoncountyga.gov> wrote:

Guidance from EEO re testing employees

A.6. May an employer administer a COVID-19 test (a test to detect the presence of the COVID-19 virus) before permitting employees to enter the workplace? 4/23/20

The ADA requires that any mandatory medical test of employees be "job related and consistent with business necessity." Applying this standard to the current circumstances of the COVID-19 pandemic, employers may take steps to determine if [employees entering the workplace have COVID-19](#) because [an individual with the virus will pose a direct threat](#) to the health of others. Therefore an employer may choose to administer COVID-19 testing to employees before they enter the workplace to determine if they have the virus.

Consistent with the ADA standard, employers should ensure that the tests are accurate and reliable. For example, employers may review [guidance](#) from the U.S. Food and Drug Administration about what may or may not be considered safe and accurate testing, as well as guidance from CDC or other public health authorities, and check for updates. Employers may wish to consider the incidence of false-positives or false-negatives associated with a particular test. Finally, note that accurate testing only reveals if the virus is currently present; a negative test does not mean the employee will not acquire the virus later.

Based on guidance from medical and public health authorities, employers should still require - to the greatest extent possible - that employees observe infection control practices (such as social distancing, regular handwashing, and other measures) in the workplace to prevent transmission of COVID-19.

Dear Mr. Anderson,

I trust this email finds you in good health and high spirits. Per my conversation with former Chairman John Eaves, please find below and attached a brief about our company. We would be honored to help during this time of crisis.

As you are aware our country has a shortage on N95 masks. For that reason the FDA recently approved the use of KN95 masks.

Attached, please find the following:

1. KN95 Mask information from PPE Provider – 5 layer
2. N95 and KN95 comparison from 3M

The founders of PPEProvider.com have an 18 year track record of importing various products. We have imported products from China, Cambodia, Israel, India, Malaysia and Vietnam. During the COVID-19 crisis, we are focusing on China, Malaysia, Vietnam and Philippines.

We are unique because we have our own boots on the ground in these countries and can provide the necessary real-time data and quality assurance as needed.

FDA Certified products:

1. KN95 masks
2. Isolation Gowns
3. Nitrile Gloves

4. Face Shields

Lead time: 7-10 Days if not in stock.

It is our honor to serve and provide these lifesaving products during a time of need for our country.

Best wishes,

Subject: Re: EMA restructure
Date: Friday, May 1, 2020 4:32:58 PM

All

Will try to help....themes that I asked Matt to accomplish were:

- 1) Decrease dependency on EMSI
- 2) Build up management capacity in EMA (for this crisis and long-term)
- 3) Improve diversity in leadership

The trip wire was the ability to bring Joe Barasoain back. The way to do so was as Deputy in EMA and put him in charge of SPOCs. I negotiated with him last Saturday.

Then, was the ability to recruit Jack Butler to come back. We can plug him in immediately and then long-term, he can run the AARF and EMS and move function from Chris and let him focus on 911 alone.

Last, the ability to bring in the 2-3 guys on loan from the host committee completes the picture.

So, this accomplished the three goals and I am driving to get in place.

Am fine with either using COVID funds for a subset of this (2-3 from host committee) or eliminating some of the jobs of folks not likely to return to work or just by a priority of EMA over Libraries.

So, pls take a look and advise on best way to accomplish....thanks

Dick

Hi Ken,
Some comments because I am not sure all the pieces have
been placed together

ARFF

<!--[if !supportLists]-->1- <!--[endif]-->This is an airport
fund (200)- We only have budget for 10 positions.
The airport fund is severely constrained due to the
airport expansion and likely sharp decline in
revenues due to COVID

Emergency Management

<!--[if !supportLists]-->1- <!--[endif]-->Emergency
Management has 4 positions – David (Animal
Control) , Matt, Cat, Joe (is currently in one) and you
have a continuity program manager or outreach
coordinator (not sure has been established).

New Structure

<!--[if !supportLists]-->1- <!--[endif]-->I'm looking
at the new orchard and see over 23 positions.
I am assuming we are bringing in the
individuals from AFCEMA ? if that is the case, we
need to find out a potential budget gap .
Positions and liabilities aligned to employees
being transferred. But again, I had not heard
about the transition and did not have a change
to discuss with Matt.

Regards
James

Sir -

Please allow this email to serve as a request for CARE grant funding for 3 employees that are performing critical roles in our response to COVID-19. These 3 members have been donating their services to the citizens of Fulton County, but their employment has ended or will end with the companies that they are currently affiliated with.

I am humbly requesting that AFCEMA receive \$ 194,545.18 to hire these individuals on a full time basis to assist us with our operations. The funding request will cover the salary of these individuals as well as their necessary health benefits for the remainder of this fiscal year.

Total Cost for 3 employees for 1 year	\$ 291,817.77
Monthly cost for 3 employees	\$ 24,318.15
8 months left in this budget year	\$ 194,545.18

Total needed for AFCEMA \$ 194,545.18

Please let me know if I can provide further information regarding this topic.

> Good afternoon Dick,

> Thank you for sending this article. It definitely solidifies the value proposition for creating an organizational culture that is smart (performance focused) and inclusive (healthy). Building out our "Great Place, For Great People to Do Great Work" strategy during COVID-19 is an excellent opportunity to test our organizational flexibility and consider in real-time how responsive and inclusive we can be when meeting the needs of our workforce and the community at large. Without a doubt, this is the biggest challenge of my lifetime, but I am grateful for the strength, courage, determination and brilliance of everyone on the Executive Leadership Team. No matter how difficult the road ahead may be, I know that we can accomplish anything together.

> Next week, I will send out a "One Pager" to all Department Directors to introduce DCRC's virtual footprint as we adjust to COVID-19 operationally. However, in time, I hope to work closely with the Executive Team to establish programming that meets the organization's most pressing needs. As always, I stand ready to assist.

Dick,

Thanks for sharing. I haven't checked in with John yet but thought I'd send you the details on the testing of Grady patients we are doing. I learned about most of this yesterday after Matt K. inquired. Please let me know if there are any questions about it.

- Testing at all sites, by appts, Grady Patients only, Provider submits order for testing.
- Each testing location has different hours of operation:
 - Asa: System coverage 1 to 3 pm, daily
 - Brookhaven, adults 9-11am, peds 1.30-2.30p, Monday, Wednesday, and Friday
 - East Point: 10-12pm, Monday to Thursday
 - Camp Creek: 9-11am Monday and Tuesday
 - Kirkwood: 10-1130 am Tuesday and Thursday
 - North Fulton: 2-3pm twice a week
- Tent is 10X10
- All are in the parking lots of the clinics. If it's an off day of testing, then patients can be tested inside the clinic.

Below is our current draft of the testing priority for patients. This has been a living document that has been updated as our testing capacity grows.

Priority	Patient characteristics	COVID testing?	Who Swabs?
High	<p>Any symptoms in:</p> <ul style="list-style-type: none"> <!--[if !supportLists]-->1. <!--[endif]-->Ob/ Postpartum <!--[if !supportLists]-->2. <!--[endif]-->HCW <!--[if !supportLists]-->3. <!--[endif]-->Employed or living in congregant setting <!--[if !supportLists]-->4. <!--[endif]-->Homeless <!--[if !supportLists]-->5. <!--[endif]-->Immunosuppressed <p>Asymptomatic:</p> <ul style="list-style-type: none"> <!--[if !supportLists]-->1. <!--[endif]-->Pre-procedure <!--[if !supportLists]-->2. <!--[endif]-->Grady HCW (see below) 	Yes	Treating provider, Specialized test collection team

FULTON COUNTY HEALTH OFFICIALS ARE TAKING COVID-19 TESTING TO COUNTY
NEIGHBORHOODS
Local Board of Health Taking In

Who: The [Fulton County Board of Health](#) (FCBOH)

What: FCBOH "Neighborhood" COVID-19 Testing Site

Why: In an effort to increase testing and make testing accessible to all county residents, the Fulton County Board of Health is opening its first "Neighborhood Testing Site." Now, many living in the County don't have to go far for testing, as the testing site is now a short drive, bike ride, or walk to their neighborhood testing site.

In the next few days, Neighborhood testing sites will be popping up in neighborhoods across Fulton County to test those with COVID-19 symptoms including new symptoms recently added by the Centers for Disease Control and Prevention (CDC) such as chills, shaking with chills, muscle pain, headache, sore throat and loss of taste or smell.

Those who have questions or feel they should be tested will need to call the FCBOH COVID-19 Hotline to speak to an agent at 404-613-8150. The hotline is available Monday through Friday from 8 a.m. to 7 p.m. and Saturdays from 8:30 a.m. to 5 p.m.

When: TODAY, WEDNESDAY, APRIL 29 and THURSDAY, APRIL 30

10 a.m. – 4 p.m.

Where: McGee Tennis Center
820 Beecher Ct S.W.
Atlanta, GA 30311

INTERVIEWS David Holland M.D., Chief Clinical Officer, will be available for interviews on site until 11 a.m. (Please call to schedule all interviews even those requests for interviews after 11 a.m.)

To protect the confidentiality of those being tested and media representatives from potential exposure, media will not be allowed in the patient care area.

**FULTON COUNTY HEALTH OFFICIALS ARE TAKING COVID-19 TESTING TO COUNTY
NEIGHBORHOODS
Local Board of Health Taking In**

Who: The [Fulton County Board of Health](#) (FCBOH)

What: FCBOH "Neighborhood" COVID-19 Testing Site

Why: In an effort to increase testing and make testing accessible to all county residents, the Fulton County Board of Health is opening its first "Neighborhood Testing Site." Now, many living in the County don't have to go far for testing, as the testing site is now a short drive, bike ride, or walk to their neighborhood testing site. In the next few days, Neighborhood testing sites will be popping up in neighborhoods across Fulton County to test those with COVID-19 symptoms including new symptoms recently added by the Centers for Disease Control and Prevention (CDC) such as chills, shaking with chills, muscle pain, headache, sore throat and loss of taste or smell. Those who have questions or feel they should be tested will need to call the FCBOH COVID-19 Hotline to speak to an agent at 404-613-8150. The hotline is available Monday through Friday from 8 a.m. to 7 p.m. and Saturdays from 8:30 a.m. to 5 p.m.

When: TODAY, WEDNESDAY, APRIL 29 and THURSDAY, APRIL 30

10 a.m. – 4 p.m.

Where: McGee Tennis Center
820 Beecher Ct S.W.
Atlanta, GA 30311

INTERVIEWS David Holland M.D., Chief Clinical Officer, will be available for interviews on site until 11 a.m. (Please call to schedule all interviews even those requests for interviews after 11 a.m.)

To protect the confidentiality of those being tested and media representatives from potential exposure, media will not be allowed in the patient care area.

Importance: High

Good Afternoon Jessica,

Here we are in the "new normal" and I hope you are staying well and healthy. I'm

reaching out to you because in the midst of all this turmoil, there is good news that we are going to share about Fulton County in our June issue. **Fulton County is being recognized by ACCG as a "County of Excellence" for your IT, Cybersecurity Center of Excellence. We will publish a County Excellence feature that will spotlight Fulton County in the June issue of Georgia Trend magazine.**

Attached you'll find the letter that was sent to Chairman Pitts about the ACCG recognition as well as the advertising details.

This is an opportunity for those counties like Fulton to take advantage of the positive editorial coverage and the special ACCG rates (half-price) and I wanted to make sure that you knew about this marketing opportunity. Perhaps we could put together an ad that congratulates the County and promotes the opportunities and support for small business and industry in Fulton County? Let me know if I need to reach out to any other organizations to share this news.

I'd appreciate your thoughts about this timely good news and interest in this opportunity. Ad space closes April 29th and we can extend your ad deadline until May 13th.

I look forward to hearing from you soon. In the meantime, please stay safe and well!

Thanks,

Dick:

I just wanted you to know of the current situation at the Johns Creek Environmental Campus. Many of the Garrard Landing Park users are parking in the JCEC side lot where elections and educational program participants normally park. Because the education programs and elections are temporarily suspended, the general public's use of the parking lot is not significantly impacting operations – as long as they are parking in designated parking spaces. However, once early voting begins in mid-May, we will need to restrict access to the parking lot, if the Garrard Landing Park lot is still closed.

Subject: Garrard Landing Park

Dan:

I hope that you are doing well and staying safe and healthy during the COVID-19 event. Strange times indeed.

There is one situation that I want to bring to the City's attention concerning the activity usage at Garrard Landing Park. As you know, the City has closed the City's parking lot typically used by the general public in an attempt to limit the park's usage. However, this has resulted in residents parking in the Johns Creek Environmental Campus parking lot. This afternoon there were over 40 cars parked in the lot in order to walk over to

the park, including many areas designated as “no parking.”

At this time, I just wanted the City to know of the situation. We are monitoring it and if the excessive parking continues to interfere with the operations of the facility, we will consider closing the parking lot to all users. Fulton County appreciates the partnership that we have at this site and hope that we can continue to coordinate the future opening of the Garrard Landing Park and parking lot.

> Step 2 Complete the acceptance process by following these steps:

>

> Click on the "Award Document" link and download the award documents If you choose to accept the award and ALL the special conditions, you may use either the physical signature process or the electronic signature process as outlined below:

>

> 1 Print (or, if signing electronically, download) the Award Document and Special Conditions Confirm the accuracy of your legal name and DUNS If accurate, proceed to step 2 If not accurate, please contact the OCFO Customer Service at 1-800-458-0786

> 2 Have the Award Document signed by the Authorized Grantee Official (Note: In Box 18 of the Award Document, the name and the title of the authorized grantee official are preprinted The person named as the official in Box 18 should sign the Award Document in Box 19 and enter the signature date in Box 19A)

>

> Recipients may use an electronic signature for award acceptance (instead of downloading and signing/initialing the award document with an ink pen) Any of the electronic signature processes available in Adobe Acrobat Reader, or similar software, are generally acceptable (e.g., a signature and/or initials image applied to the PDF award package, or a digital credential) See https://urldefense.proofpoint.com/v2/url?u=https-3A__www.ojp.gov/funding/apply_electronic-2Dsignature-2Dguidance&d=DwlCAg&c=HPJvcKF4Kk5WqrulT_u_fOsw8NVQVa3gp0ReMdlciXw&r=PiaHc41RH7aML4nWdUWxr7-GbvGCzFaLp5e6Z-Z2X1g&m=Mo-Y-d-qybrn0IS6zdhKeMjMdVGqW9g6aTiIPf10mZ8&s=Ilup1hcBwGzGzGeY-IYN94UlxkBGZUoLQ74JKBGyI&e= for more information

>

> 3 Have the Authorized Grantee Official initial the bottom right corner of each page listing any Special Conditions of the Award Document (If signing electronically, ensure that electronic initials (or a full electronic signature) are applied to each page)

> 4 Return BOTH the Award Document and the Special Conditions pages to the Office of Justice Programs, Control Desk by email to acceptance@usdoj.gov

>

> Recipients shall not modify the text of the Award Document or Special Conditions If you choose not to accept the award, OR if you do not agree with the terms/conditions of the award and would like to discuss options, then please contact your OJP program manager

>

> If the Authorized Grantee Official named on the Award Document is no longer authorized to accept this award on behalf of your organization, do not alter the pre-printed name in box 18 Please go to the Grant Adjustment Notice (GAN) link and request an adjustment to the name of the authorized official This GAN must be approved before you can accept the award Once the GAN to change the name of the authorizing official has been approved, you should:

>

> 1 Print (or download, for electronic signature) the approved GAN;

> 2 Print (or download, for electronic signature) the original award document;

> 3 Have the new approving official sign the acceptance next to the former official's name and initial the special conditions page(s);

> 4 Email the signed acceptance, special conditions, and the approved GAN to the Control Desk as noted above in #4;

>

> If you have programmatic questions, contact Flora D Lawson at (202) 305-9216 For financial questions, contact OCFO Customer Service at 1-800-458-0786

Mgr. Anderson, I was listening to Gov Cuomo, as I do each morning, and he shared a plan with the public, along with Mayor Blumberg, which I texted to Mayor Edwards. I would like to share that text with you, as I thought it sounded great, and doable. They were discussing developing a Public Tracing Program for public release to that other agencies can use it to track and monitor the coronavirus. With Mayor Blumberg's technical support, it sounds like they could collaborate on a system for tracking contacts. Personally, I am not concerned about them knowing when and where I go, as they probably know that already. Just sharing the idea as it seems to be the only way to defeat this virus. Everybody else is fighting over the rights to any vaccine - big pharma, and Trump wants to make sure they get a piece of the action. I don't know what happened to CDC and FDA approval. Thanks, vw

Tina

Thanks for note. Have looped in Sharon and Ken who might be able to respond more quickly.

At this point, the BOC has approved a hard freeze on hiring and raises and HR is following that policy by not allowing hiring or movement. The logic is both “we don’t know what we don’t know” in terms of financial impact of COVID-19 and also we are being sensitive to unemployment at 25M externally and the optics of continued hiring and pay raises.

We plan to discuss and revisit at next week’s BOC meeting. Wouldn’t be able to grant exceptions in the interim.

Dick

On May 6, 2020, at 12:43 PM, Oneil, Eunice <Eunice.Oneil@fultoncountyga.gov> wrote:

RE: Hazard Pay for Civilians

Good morning,

My name is Eunice Oneil, I am a CIS Technician, for the Sheriff's Department of Fulton County Government.

I am writing to strongly urge you to issue hazard pay to "Civilians" at the jail that are directly affected by this uncertain pandemic the COVID-19. I and many others come in contact with the public daily. This includes people from all walks of life. We the civilians, are frontline essential workers that risk our lives and our family lives, when we come into work daily. Numbers do not lie. Today we were told that there are 6 employees and 31 inmates that have tested positive for this virus. There was testing done on site recently and the number of positive individuals with this virus is going up. This fact lets you know that there is still cause for alarm or concern.

This hazard pay will give the civilians some compensation for the brave ones who continue to fight this disease. The civilians at the jail want adequate compensation and support for putting our lives on the line. The jail is an essential business that needs to operate and continue operating just as the hospital workers, the nursing homes, public transportation and the super markets. This is an insult to the civilians that work at the jail. There were Security Specialists who are not sworn staff and do not come in direct contact with the inmates, still received hazardous pay. The civilians received an official

letter allowing permission to be out and not stay inside, due to being an essential employee, but not being able to receive hazard pay.

In the beginning of this uncertain pandemic, the civilians in Booking and Intake, continued to risk their lives without proper professional protective equipment. Not knowing the true facts we still came in to perform our daily duties. Again, I strongly urge you to issue hazard pay to the jail civilians. This step is very necessary to compensate and continue with the heroism and risk of the jail employees.

Diara, thanks for your note and I do appreciate your concerns.

The standard we used to determine eligibility for hazardous pay was....departments identified by the US Department of Labor as generally involved in hazardous duty and then employees directly interacting with the public on a daily basis.

We have many folks in the Sheriff, Marshal, PD, Courts, and Public Works departments that are reporting to work each day and not receiving hazardous pay due to their job responsibilities.

And we reviewed submissions by each department including FCPD in great detail to make a decision. As example, we didn't include the FCPD Chief or Deputy Chief.

Our overall focus was to keep all of our employees on the payroll without the uncertainty of layoffs or furloughs. As you know, almost 1 in 5 of all Georgia workers have now filed for unemployment indicating a historic high. With the support of the BOC, we have been able to do so as well as provide hazardous pay for employees directly interacting with the public.

So, we have great appreciation for all of our FC employees and think these actions demonstrate that commitment.

On May 3, 2020, at 6:44 AM, James, Diara <Diara.James@fultoncountyga.gov> wrote:

Good morning Mr. Anderson,

I am currently assigned to the Police Department -GCIC Section Morning Watch. I was told on Saturday, May 2, 2020 that our division is Not eligible for Hazard Pay after being told we were eligible a couple of weeks ago. Mr. Anderson I am so

confused as to why we are no longer eligible. The Police Officers nor 911 cannot function without us and we cannot operate without them. Our 12 person staff not only services The Fulton County PD but we also service Palmetto PD/Fulton County School PD/Fairburn PD/Union City PD/Department of Juvenile Justice and City of South Fulton PD. We form a triangle – The Police/911 and GCIC whom all perform critical duties. Maybe it was not fully explained what exactly it is we do.

Mr. Anderson if one of your love ones were missing and you wanted the police to assist with locating them, the first line of contact would be 911. Then 911 would dispatch an officer to your location to collect information so your love one can be placed on a National System which is GCIC/NCIC. That officer/detective would then forward the collected information to Fulton County GCIC for entry. That information is entered by one of our 12 GCIC Operators who work 24/7 all 365 days of the year. Any vehicles/wanted persons & articles are also entered by us. If a person commits a Murder in unincorporated Fulton County, that person must be placed on the system so that every police agency in the world is aware the he/she is wanted. That is done by our section. Mr. Anderson with all due respect I really don't understand how 911 Operators are eligible for Hazard Pay and GCIC Operators are not. We both are civilians who do not physically come in contact with the general public but neither of us can operate without the other.

The FCPD has been closed to the public during Covid-19 but NOT GCIC because we are essential. However we have had to fingerprint numerous Officers and Judges during this time and that has placed each staff member in our section in a hazardous environment. If only Sworn Personnel are considered "Emergency Essential" then maybe we should look at only having officers handling GCIC/ fingerprinting and civilians should be placed on paid leave like the rest of the county.

Mr. Anderson I am reaching out to you because I don't know what else to do. It doesn't seem like we have anyone to fight for us so I am willing to speak up on behalf of all 12 persons assigned to our division. I was contacted on Friday, May 1, 2020 by some of my co-workers and they were in tears because they feel unappreciated and hurt by the Personnel Directors decision to not include GCIC Operators in the Hazard Pay. I hope I have not over stepped any boundaries and if you feel I have, I deeply apologize. I just wanted each of my team members to know that they are appreciated and that someone is willing to fight for them!!

Thanks for all your assistance with this matter and I hope you have a great weekend.

Good morning Comm. Hall,
I am currently assigned to the Police Department -GCIC Section Morning Watch. I was told thru second hand information on Friday,

May 1, 2020 that our division is Not eligible for Hazard Pay. Commissioner Hall I am so confused as to why we are no longer eligible. The Police Officers nor 911 cannot function without us and we cannot operate without them. Our 12 person staff not only services The Fulton County PD but we also service Palmetto PD/Fulton County School PD/Fairburn PD/Union City PD/Department of Juvenile Justice and City of South Fulton PD. We form a triangle – The Police/911 and GCIC whom all perform critical duties. Maybe it was not fully explained what exactly it is we do.

Commissioner if one of your love ones were missing and you wanted the police to assist with locating them, the first line of contact would be 911. Then 911 would dispatch an officer to your location to collect information so your love one can be placed on a National System which is GCIC/NCIC. That officer/detective would then forward the collected information to Fulton County GCIC for entry. That information is entered by one of our 12 GCIC Operators who work 24/7 all 365 days of the year. Any vehicles/wanted persons & articles are also entered by us. If a person commits a Murder in unincorporated Fulton County that person must be placed on the system so that every police agency in the world is aware the he/she is wanted. That is done by our section. Commissioner Hall with all due respect I really don't understand how 911 Operators are eligible for Hazard Pay and GCIC Operators are not. We both are civilians who do not physically come in contact with the general public but neither of us can operate without the other.

The FCPD has been closed to the public during Covid-19 however we have had to fingerprint numerous Officers and Judges during this time and that has placed each staff member in our section in a hazardous environment. If only Sworn Personnel are considered "Emergency Essential" then maybe we should look at only having officers handling GCIC/ finger printing and civilians should be placed on paid leave like the rest of the county.

Comm. Hall I am reaching out to you because I don't know what else to do. It doesn't seem like we have anyone to fight for us so I am willing to speak up on behalf of all 12 persons assigned to our division. I was contacted today by some of my co-workers and they were in tears because they feel unappreciated and hurt by the Boards decision to not include them in the Hazard Pay. I hope I have not over stepped any boundaries and if you feel I have, I deeply

apologize.

Thanks for all your assistance with this matter and I hope you have a great weekend.

Subject: Re: HAZARD PAY
Date: Tuesday, May 5, 2020, 7:34:35 PM

I think we will discuss tomorrow at BOC and take any direction on needed changes.

We presented to BOC a hazardous pay plan that had both departments and a direct interaction with the public as requirements. So, not every employee in the Sheriff, Marshall, Police or Public Works departments are receiving hazardous pay...if they are not interacting with the public.

Have asked Ken Hermon to re-look at this specific example which we may have missed.

Subject: HAZARD PAY

I have 2 small kids that I have to take care of everyday I come to work I put them at risk. My sitter is my mother who is taking care of someone with dementia. So now I am putting this lady at risk because I have to get someone to keep my kids since they can't go to school. Then sometimes I have to take them to my brother's house who is on dialysis. I am at risk even higher since I am his living donor but we don't get hazard pay bull.

I think we will discuss tomorrow at BOC and take any direction on needed changes.

We presented to BOC a hazardous pay plan that had both departments and a direct interaction with the public as requirements. So, not every employee in the Sheriff, Marshall, Police or Public Works departments are receiving hazardous pay...if they are not interacting with the public.

Have asked Ken Hermon to re-look at this specific example which we may have missed.

Dick

Dick and Kenneth,

All of the Sheriff's employees who are working on the front lines and in the jail should be receiving the hazardous pay. Are they not? If not, then why not?

The COVID-19 virus infected people in the jail. Everyone working in that environment is at risk. I look forward to hearing from you.

Thanks,

Morning all

Hopefully this email can simplify the matter at hand so we can make a decision. First and foremost, my team did exactly what we directed but I do see a window for flexibility even though our longstanding procedures were not followed.

Kristin Alsobrook – HR procedures stated that employees cannot be in an interim role for more than 1 year. Ms. Alsobrook interim appointment ends on 5/9. **Solution - Due to COVID-19 and the Hiring freeze, HR will permit the employee to remain in the position for an additional 6 months.**

Rachel Starkey – is sitting in a parallel position. Now that the employee has vacated the roll, due to an admin separation, they want to move her from the parallel position to the permanent position. **Solution – Finance should allow the move since its, budget neutral.**

Requires the Committee decision.

Ms. Huff and Ms. Johnson, both electronically signed their offer letters 4/14 and 4/8, respectively. In both instances, the Clerk's office didn't seek budgetary approval prior to issuing the offers, which is now the problem. The requests for approval were submitted after our 4/20 deadline on 4/28 and 4/21.

Subject: Hirig Freeze

Good Day,

Unfortunately the Department of Human Resources Management will not be able to process the transactions below for the following reasons.

- Rita Johnson – This hire was not fully executed by deadline, 4/20/2020. See attached job freeze memo
- Frederick Huff – This hire was not fully executed by deadline, 4/20/20. Mr. Huff is currently working in department of Finance. See attached job freeze memo

Kristin Alsobrook – Per policy, Ms. Alsobrook’s interim status cannot exceed (1) year, which is 5/9/2020. The position Ms. Alsobrook previously occupied is not available.

- Rachel Starkey – The position to reassign Ms. Starkey to is not available due to the hiring freeze. See attached job freeze memo

With kind regards,

CORETTA H. BELL, MSHRM, IPMA-CP

Subject: Inquiry from COA

Good morning. Fran let me know that she received an inquiry from the City of Atlanta regarding the Coronavirus Relief Fund allocation and ensuring that they do not duplicate expenditures. I let Fran know that the presentation tomorrow will address some of our major spending categories. We can provide that discussion or set up a call if that is helpful.

Thanks.

Greetings to All:

The three members of the Fulton County Jail Law Library staff physically report to work during the current coronavirus crisis. We do so to serve inmates who could not otherwise receive their due process.

The Law Library provides Fulton County inmates with the tools they need to fight their case, and courts continue to operate. Inmates rely on our research and expertise to gain legal materials such as statutes and cases. Additionally, we copy inmates' legal paperwork so that the facts of their case may be known to all involved parties.

Our services cannot be adequately performed from a remote location. We, the Law Library staff, report to work as usual because it is our duty to serve those who cannot serve themselves.

Thank you for your time and consideration.

Would need to get information from Adger/Lee as that would be tracked and handled by HR not NaphCare. Are you asking about virus to date or current? Not sure how we track who is under quarantine, may have been confirmed, etc. Copying Kenneth as it may be in HR system.

There have not been any given approval, but I think we will need to provide some flexibility.

COVID-19 funding (from Federal) will cover COVID-19 response expense as long as BOC don't allocate to cities.

The cloudy picture comes from unknown revenue impacts and how to align ongoing expenses with a most likely revenue picture.

Dick:

Chief Judge Juliette Scales needs to fill their vacant Court Administrator position. Their prior Court Administrator left when she was appointed as the head of Georgia's Indigent Defense Agency. The position has been vacant for more than two months, and Judge Scales is ready to interview candidates, but became worried about the hiring freeze. I can tell you that Judge Scales has been performing the duties of the Court Administrator, as well as handling her own caseload, in addition to her duties as Chief Judge. She needs to fill that position asap.

I know Chief Judge Scales does not want to get to the end of this process and then have to rescind an offer, so I ask that if there is an issue with her filling this critical need position, that it be discussed with her now. I appreciate your attention to this issue in this very busy time.

With best regards,

May 1, 2020

Dear Richard (Dick),

Because of your leadership in local governments, I was hopeful that you might know of possible candidates interested in the position of **City Manager for Kansas City, Missouri**, with a starting salary range of **\$250K - \$325K!** Kansas City is a growing, world-class community of nearly 500,000 residents that serves as the central hub for a thriving bi-state, 18-county metropolitan area of 2.5 million. A diverse and culturally rich community located at the confluence of the Kansas and Missouri Rivers, the City is also widely recognized as a center for outstanding cultural, performing and visual arts, an exciting array of professional sports teams and major league venues, and for its superb restaurants and entertainment. If you know of any experienced and visionary professionals that might have an interest, please forward this email to them, or have them contact us. To see a full profile for this position, please view the following link.

Click Here To See the Job Posting: [POSTING](#)

As the City's chief administrative officer, the City Manager is responsible for directly overseeing an organization with 4,706 FTEs, supported by a total operating and capital budget exceeding \$1 billion. There are three collective

bargaining units that are part of the City Manager's oversight responsibility: IAFF 42 (Fire); IAFF 3808 (Fire Management); and, the AFSCME 500 (Labor). The City is comprised of 16 departments – with 14 of them reporting directly through the City Manager. The City Manager reports directly to the Mayor and City Council and oversees all aspects of the City's operations, excluding the Departments of Parks and Recreation and Police that are governed by separate appointed Boards. Candidates must have a Bachelors' degree plus 7–10 years of increasingly responsible executive-level experience in either a public or private sector organization. A Masters' degree in public administration, business administration plus additional advanced executive-level training is preferred. Experience leading and developing an executive-level leadership team, including supervisory experience of professional staff, is required. Working for similar-sized municipal organizations, or an organization of similar complexity is desired and will be an advantage. An equivalent combination of education and experience will be considered. The starting salary will be commensurate with the selected candidate's qualifications and experience and will range from \$250,000 to \$325,000. Other benefits such as vehicle allowance, relocation assistance, etc., will be determined on a case-by-case basis. Residency is required.

If you are aware of highly motivated professionals that might have an interest, please forward this link to them: <https://bakertilly.recruitmenthome.com/postings/2510>. This position is open until filled; however, the City has slightly extended this recruitment process establishing a new first review deadline of Tuesday, June 2, 2020 to provide applicants more time to address any challenges they are currently facing because of the COVID – 19 Pandemic.

For more information, please contact Art Davis at Art.Davis@BakerTilly.com, 816.868.7042, or Edward Williams at Edward.Williams@BakerTilly.com, or 214.608.6363.

Sincerely,

Art Davis

Attached is the memo, with legal's edits, to the BOC on the rational for the HR policy. (The contents was in my info memo last board meeting but the policy didn't make it to the agenda). I also believe that we should include the question sheet to address questions that have been circulating about hazardous pay and childcare benefit.

Morning everyone,

Just wanted to thank everyone for an extremely successful week and the hard work everyones put in to accomplish getting South SPOC operations up and running.

I am working on the IAP and for now there are just a few changes I wanted to make sure everyone was aware of.

The South SPOC Team will be transitioning out tomorrow (Monday) and the new team will be coming in. South SPOC's current Operations Chief Henry Argo, Deputy Ops/Logs Chief Greg Brett and Safety Officer Joe Maddox will be heading out tomorrow afternoon after transitioning in the new team. Captain Handloser from the GANG will be left in command of the south troops assigned to Wolf Creek as well as maintaining command of all 30 of her soldiers (15 north/15 south). The Captain will remain operational at South SPOC for the week.

Outreach Programs will shift operations from Airport to South and will be deploying out of there till such time that we can get a north team up and running later this week.

The new South Team will be Fulton County's Adrian Hairston and Charles Perdomo who will be at South Spoc Monday morning. As of last night I received an email from the City of South Fulton City Manager that they will be providing a safety officer from CoSF Fire.

Adrian Hairston 470-240-9347 Adrian.Hairston@fultoncountyga.gov
Charles Perdomo 404-632-6091 Charles.Perdomo@fultoncountyga.gov

Airport Operations will be demobing tomorrow after the day's operations and that team will be heading North to do a dry run at 1500 hours and get ready for north spoc operations Tuesday morning at 10AM.

North SPOC Operations at 4700 North Point Parkway will be led by Ops Chief Robert "RADAR" Summers and will be operational Tuesday at 10am.

SPOC Area Command Team will be operational and running out of North SPOC beginning today. They will be operating on the area command channel AFCEMA7 or EMA TAC 7 (Depending on your radio profile)

Everyone please refer to the new 205 attached as we will need to have south operations on channel 1 tomorrow in order to make the needed changes.

Tomorrow's starting appointments are:

Aviation 20 starting at 9 last one at 3

South 20 starting at last one at 3

Please remember they will continue to add to this all day so check your webeoc for updated numbers.

This week:

This week we are making a few changes to the call center protocols that should help greatly with the call taking process.

We are also going to look at how we can assist with warehouse operations in order to become more efficient.

Also, assisting with support with Central Spoc at Mercedes Benz where CORE is taking the lead.

Wanted to thank Chief Argo, Brett and Maddax for your quick response to my call for assistance and know how grateful I am to have had your help in kick starting 2 of our SPOCS. And for that, as soon as this is over it will be chips and salsa on me sir!

Thank you everyone and have a safe Monday..

Should you have any questions please give me a call.

FULTON COUNTY GOVERNMENT

<!--[if !vml]--><!--[endif]-->

Fulton County Board of Commission Extends the County's Local Emergency Order

The BOC also reviews plans to reopen by mid-July.

ATLANTA – The Fulton County Board of Commission (BOC) who ordered a shelter in place in mid-March voted unanimously to extend the county's Emergency Order through June 30, 2020. The vote comes just days after Georgia Governor Brian Kemp extended the state's public health emergency order until June 12, 2020.

During the May 6, BOC meeting, the Commissioners continued reviewing options to strengthen containment of COVID-19. The extension of Fulton County's local emergency order means that emergency powers will continue to be granted to the Chairman and the County Manager due to the threat and impact of the COVID-19 Outbreak. County officials presented evidence indicating that although social distancing and wearing protective gear help in continuing to fight the spread, additional measures are necessary to not only help reduce new cases of Coronavirus but in helping the county to reopen.

“We want to make sure that our employees are safe and healthy before bringing them back to work,” said Fulton County Commission Chairman Robb Pitts. “It's vital that we have a plan in place that will help us to not protect the employees, but the residents of Fulton County.”

Fulton County Manager Dick Anderson and his team presented a proposed plan to the Commissioners outlining possible indicators that will assist in reopening the county to include:

- Determining whether the total number of cases in the community is flat or decreasing
- Determining the county's ability to test 100% of the employees returning to work.
- Determining the county ability to implement temperature screenings and provide personal protective equipment (PPE) to every employee interacting with the public

County officials will also continue implementing enhanced cleaning of its facilities and install signage that will inform residents of services and disease prevention instruction. The plan also recommends phasing in county offices over a two-month period beginning May 15 and ending with

all offices possibly being opened by mid-July.

"It remains critical that we work to ensure that the growth of cases be sufficiently contained to protect the health and safety of our employees and the community," said Anderson. "This impact of the virus has been hard for many of us, but we are now on a path for steady progress and sheltering in place a while longer will keep us on course."

"The extended emergency order will allow us to carefully review our progress while we continue to provide the services our residents need," said Fulton County Chief Operating Officer Anna Roach. "Our goal is to build an essential public health infrastructure by using measures such as employee testing and implementing a gradual reopening plan."

The Fulton County Board of Commissioners will continue reviewing plans to reopen at its next meeting on May 20, 2020.

On Apr 29, 2020, at 2:23 PM, Wills, Dave <DWills@accg.org> wrote:

Good Afternoon,

As you probably know, yesterday ACCG and GMA submitted the attached letter to Governor Kemp, asking that he make available to cities and counties under 500,000 in population a share of the funding that the state received through the CARES Act. The proposal, if accepted by the Governor, would make the cities (except Atlanta, which got direct funding) within your counties eligible for funding.

Today I learned that GMA is actively advocating that the cities within your four counties request from you funding your county received (or is slated to receive) through the CARES Act. However, I want to note for the record that GMA's original proposal for a 50 – 50 split of funding was predicated upon population figures (incorporated versus unincorporated) that were inclusive of all the cities within your four counties, but not inclusive of the populations of your counties on the county side of the ledger. The final agreement ACCG reached with GMA still relied upon that 50 – 50 split on 70% of total funding we are seeking from the Governor.

I am letting you know about this because if the cities within your counties get funding through the sub-grants we have requested from the Governor, and get funding through the counties' CARES allocation, they will be getting a "double-dip" so to speak.

I thought you ought to know.

Sincerely,

Dave Wills

Subject: FW: Notes from 4.28.20 NACO Call w/ U.S. Treasury Department officials

Ladies and gentlemen –

Late yesterday I listened in on what I thought was a very helpful conference call hosted by NACO, largely focused on the Coronavirus Relief Fund in the CARES Act. An official with the Treasury Department responded to many questions about the fund. I've attached the notes that my colleague Kathleen Bowen took from that call.

On a related note, I've attached ACCG's blast email from yesterday, which you may have already seen. The first item relates to a proposal to the Governor regarding distribution of CRF money to local governments that did not receive direct CRF allocations. So while that does not directly impact your counties, note that the proposal would allow the cities in your counties (other than Atlanta) to participate in this separate distribution. I mention that in the event that any of your cities approach your counties asking for part of your direct CRF allocations. On the NACO call yesterday, the Treasury official stated that a direct CRF recipient county could choose to share some of that money with its constituent cities. However, if the Governor accepts this proposal, the cities in your counties will have an alternate route to seek an allocation of CRF funds from the state.

I hope all of you are well and hanging in there!

Larry

Subject: Notes from 4.28.20 NACO Call w/ U.S. Treasury Department officials

Attached are my notes from today's NACO call with U.S. Treasury Department - mainly was a Q & A session relevant to the counties who are direct recipients of the Coronavirus Relief Funds (counties over the 500,000

population mark).

If counties have questions they can keep sending them to questions@naco.org.

Lastly, Matt Chase closed the call reiterating that NACo continues to ask for federal support for counties. He suggested we block out the noise of what Congressional leaders are saying publicly - that they are working towards a deal.

We'll see...

Subject: FW: Notes from 4 28 20 NACO Call w/ U S. Treasury Department officials

Good Afternoon,

As you probably know, yesterday ACCG and GMA submitted the attached letter to Governor Kemp, asking that he make available to cities and counties under 500,000 in population a share of the funding that the state received through the CARES Act. The proposal, if accepted by the Governor, would make the cities (except Atlanta, which got direct funding) within your counties eligible for funding.

Today I learned that GMA is actively advocating that the cities within your four counties request from you funding your county received (or is slated to receive) through the CARES Act. However, I want to note for the record that GMA's original proposal for a 50 – 50 split of funding was predicated upon population figures (incorporated versus unincorporated) that were inclusive of all the cities within your four counties, but not inclusive of the populations of your counties on the county side of the ledger. The final agreement ACCG reached with GMA still relied upon that 50 – 50 split on 70% of total funding we are seeking from the Governor.

I am letting you know about this because if the cities within your counties get funding through the sub-grants we have requested from the Governor, and get funding through the counties' CARES allocation, they will be getting a "double-dip" so to speak.

I thought you ought to know.

Sincerely,

Dave Wills

Subject: FW: Notes from 4 28 20 NACO Call w/ U S. Treasury Department officials

Ladies and gentlemen –

Late yesterday I listened in on what I thought was a very helpful conference call hosted by NACo, largely focused on the Coronavirus Relief Fund in the CARES Act. An official with the Treasury Department responded to many questions about the fund. I've attached the notes that my colleague Kathleen Bowen took from that call.

On a related note, I've attached ACCG's blast email from yesterday, which you may have already seen. The first item relates to a proposal to the Governor regarding distribution of CRF money to local governments that did not receive direct CRF allocations. So while that does not directly impact your counties, note that the proposal would allow the cities in your counties (other than Atlanta) to participate in this separate distribution. I mention that in the event that any of your cities approach your counties asking for part of your direct CRF allocations. On the NACo call yesterday, the Treasury official stated that a direct CRF recipient county could choose to share some of that money with its constituent cities. However, if the Governor accepts this proposal, the cities in your counties will have an alternate route to seek an allocation of CRF funds from the state.

I hope all of you are well and hanging in there!

Larry

Subject: Notes from 4.28 20 NACO Call w/ U.S. Treasury Department officials

Attached are my notes from today's NACo call with U.S. Treasury Department - mainly was a Q & A session relevant to the counties who are direct recipients of the Coronavirus Relief Funds (counties over the 500,000 population mark).

If counties have questions they can keep sending them to questions@naco.org.

Lastly, Matt Chase closed the call reiterating that NACo continues to ask for federal support for counties. He suggested we block out the noise of what Congressional leaders are saying publicly - that they are working towards a deal.

We'll see

Dear Fulton County employees:

Thank you for your continued service to our citizens and fellow employees.

Although our public facilities are still closed, many of you are still reporting to the workplace.

To protect your health and the health of your fellow employees, all employees must follow the following guidelines regarding COVID-19.

<!--[if !supportLists]-->• <!--[endif]-->Do not come to work if you are over 65 and/or have an underlining medical condition that makes you more vulnerable to COVID-19.

<!--[if !supportLists]-->• <!--[endif]-->Do not come to work if you have received a positive COVID-19 viral test result within the last 14 days UNLESS:

<!--[if !supportLists]-->• <!--[endif]-->You have received a negative COVID-19 viral test result within the last 72 hours, AND

<!--[if !supportLists]-->• <!--[endif]-->You have no fever (without medicine)

<!--[if !supportLists]-->• <!--[endif]-->You have no cough symptoms

<!--[if !supportLists]-->• <!--[endif]-->**Do not come to work if you have symptoms of COVID-19 or know you have been exposed to COVID-19, unless you have received a negative COVID-19 viral test result in the last 72 hours.**

<!--[if !supportLists]-->• <!--[endif]-->**Do not come to work if a member of your household currently has COVID-19 and is in the isolation period.**

<!--[if !supportLists]-->• <!--[endif]-->**Do not come to work if you have been tested for COVID-19 and do not yet know your status.**

<!--[if !supportLists]-->• <!--[endif]-->**If you are at work and feel sick during the work day, go home.**

If you meet these criteria and are unable to report to work [or work remotely](#), contact your supervisor [for the appropriate HR forms](#).

Please contact your healthcare provider if you are ill and may be eligible for COVID-19 testing.

Free COVID-19 testing is available from many providers. For more information go to www.fultoncountyga.gov/covid19testing

Good afternoon,

Please see the email below which puts us on notice that we are being “dispossessed” from our offices at the Fulton County Jail. We are bringing this to your attention because we are concerned that being deprived of this space will impact our ability to effectively represent our clients, and will result in delaying court cases and getting people released from the jail in a timely manner. We have used this office space for

approximately 20 years and it is necessary for our operations; we use it to have early and ongoing contact with our clients throughout the pendency of their cases. Removing us from that space will result in delaying our communication with our clients, thereby decreasing our ability to resolve cases. This will result in increasing the jail population, even as we have worked so hard to get the numbers down.

Additionally, given that we were given this information verbally yesterday and only in writing today, we cannot possibly move these 2 offices, including copy machines and furniture, within the time frame outlined. I sincerely hope that you will look into this matter and offer us some assurance that we will be able to maintain a space within the facility. I believe that it is in the best interest of the County as a whole as we look for ways to move ahead when Court hearings begin to expand post the Covid-19 crisis.

I look forward to some communication with you on this pressing matter.

Best regards,

Good morning,

Effective Monday, 05/11/2020, by 1700 hours, the office space currently occupied by the Public Defender's Office within the Fulton County Jail must be vacated. All items or equipment specific to and owned by the Public Defender's Office must be removed by that time.

All keys to said office must also be returned to Officer Brian Martin. Those with issued keys are:

- Shereese Hester (issued 2017)
- Karen Shropshire (issued 2018)

Any remaining items not included in this dispossessory (equipment, personal paraphernalia) will be managed as unwanted as of the above date and time.

Subject: Pit Bull Issues

Hi Mrs. Gumbs,

I hope all is well. I would like to know who do we contact if we are not getting resolution from animal control? The pit bull below has been spotted in my yard and my neighborhood multiple times, as recently as this morning. Saturday when it was in my yard, while me and my family were in the out there, I called animal control and they returned the call and stated it was nothing they could do because of COVID-19. The children are out of school and are playing outside this is very dangerous. We spotted the dog yesterday when we were riding bikes and my husband spotted it in our yard again this morning when he was doing yard work and just put up our eight pounds toy poodle. Additionally our neighbor was outside with her one year old daughter. I called animal control today and the first person told me we needed to pick the dog up and bring it to them, I responded a pit bull really. This is completely out of hand and we are not comfortable in our own yard. Any direction for resolution you can give would be appreciated.

Yes, I think we should. Am interests if we pre-approval of use of this cash or it all after the fact review (have copied Patrise).

Am also interested in expense estimates for “outside County” expenditures....eg testing from third parties, marketing plans to drive testing adoption, hospital financials, small business loans, additional community support and any restrictions that might apply.

Dick,

We have the Qmatic queuing system in all of our offices. Qmatic offers similar features as Nemo-Q and QLess, the systems in the email stream. Our Qmatic system has an appointment feature with web access that would allow taxpayers to see wait times and schedule their visits to our office. I don't know if Qmatic offers the texting function. We're currently discussing scheduling options.

Subject: [COUNTY-MANAGERS-AND-ADMIN] Queueing & Online Scheduling

Good afternoon:

Coweta County is considering a queueing solution as part of our strategy to facilitate social distancing and alleviate wait times as we begin to reopen to the public. The primary use will begin with the Tag Office and then we may implement in other departments long-term (contingent upon funding). Although we've identified a few similar solutions, QLess seems to be the prevailing choice. I understand that Cobb County was a former QLess client. Does anyone else have any experience with QLess or a similar virtual queueing or online scheduling solution?

QLess:
<https://www.qless.com/government/>

Thanks for any relevant information that you can share.

Best regards,

Michael

Subject: Reimbursement to Non-profits/others via CSP
and 10mm fund

Hakeem/Sharon-

I've received some concern from some of the non profits who participate in CSP and via the 10mm fund regarding delayed reimbursement.

As you would imagine, many for their fund raising and revenue certainty has been curtailed it is unclear given COVID. Also, we definitely want to get the funds from the designated 10mm directly into supporting the community as soon as possible.

I am not sure of the process we are currently using for

reimbursement but would ask for consideration of accelerating payments to these providers given the circumstances that they find themselves in as well as our objectives of putting funds to work as soon as possible.

Thanks and welcome your feedback.

Hakeem/Sharon-

I've received some concern from some of the non profits who participate in CSP and via the 10mm fund regarding delayed reimbursement.

As you would imagine, many for their fund raising and revenue certainty has been curtailed it is unclear given COVID. Also, we definitely want to get the funds from the designated 10mm directly into supporting the community as soon as possible.

I am not sure of the process we are currently using for reimbursement but would ask for consideration of accelerating payments to these providers given the circumstances that they find themselves in as well as our objectives of putting funds to work as soon as possible.

Thanks and welcome your feedback.

Bob

Over the weekend we received notice that Commissioner Carn, Commissioner Hall and Commissioner Arrington are holding a press conference today at 12:30 p.m., along with many other community leaders, in front of Grady Hospital. The purpose is to highlight the impact of COVID-19 on the African American community.

Late last night/early this morning we receive a request to provide a podium/mic for this event. I did let them know that we normally rely on DREAM for this support and I would follow up. I wanted everyone to be aware of this request.

Thank you.

We could do this, but we committed the mobile units to some churches next week. We could possibly send one of them out there on Wednesday.

Looping in Tonya King and Milon Davis, who are working with the mobile units.

Sounds like a logical use of our mobile unit. Also looks like it would make sense to test all the staff. I imagine our only constraint would be available tests.

CHIEF OPERATING OFFICER

Fulton County Government

On Apr 30, 2020, at 3:44 PM, Khan, Fazle <Fazle.Khan@fultoncountyga.gov> wrote:

All:

I sent emails to our contact, Ms. Carla Harris, at the Christian City Skilled Nursing and Rehabilitation Center, wanting to understand the overall management structure of the different facilities, and more importantly, to understand the specific needs before calling the Mayor. While I was waiting for her response, Mayor Williams himself called me and his call was followed up by another call from Mr. George Martin, the Chief Operating Officer of Christian City. Those calls helped me understand the issue better and their specific needs.

As Jessica mentioned in her email, the Mayor's concern is about all the residents of all the facilities there, especially of the Active Senior Living and Assisted Living Centers. The concern is based on the fact that there were several cases among residents and staff recently (in the last ten days) and includes two deaths in residents. We are aware of those cases and deaths – Carla from the Skilled Nursing & Rehabilitation Center (where all the cases are from) kept us posted. They (the Nursing and Rehabilitation Center) recently got all their residents and 31 staff tested at their facility through their contract with Capstone.

Many of those tested positive were asymptomatic at the time of testing. The Mayor and the COO are concerned about that more than anything else, afraid that these asymptomatic positive individuals might unknowingly infect the other vulnerable residents of the Assisted Living facility and in the

HUD Apartment buildings. They have a total of about 1000 residents in all those complexes.

They are requesting testing of all these approximately 850 residents and suggested sending a Mobile Testing Unit there. I promised that I will pass this information on to Dr. Holland. Thanks.

Subject: Request from Union City Mayor - Christian City Senior Living

Good morning. I just got a call from Union City Mayor Vince Williams. He is requesting assistance from the Health Department in increasing COVID-19 testing onsite at the Christian City 500-acre complex in Union City.

This property includes a skilled nursing facility as well as apartments for seniors. There are approximately 1000 residents total. The address of the property is 7345 Red Oak Road, Union City, GA 30291. They also have some children in a group home setting on the property.

He said there had already been a few positive cases at this property and is concerned about spread among the residents after reading about some of the other issues in senior living facilities.

He asked if it is possible for the health department to do widespread testing among residents at Christian City. Mayor Williams can be reached via cell # at 770-355-0897.

Thank you.

A Message From County Manager Dick Anderson

Dear Fulton County Employees:

It has been more than a month since most of our Fulton County facilities closed to the public.

During that time, thanks to your hard work, we have seen an incredible transformation in the way we serve citizens.

As the situation continues to evolve, I wanted to give you an update about our COVID-19 response and how it may affect you as an employee.

Transformation of Services

In the last month, virtually every Fulton County department has found new ways to deliver services, using creativity, innovation and technology to deliver services in new ways.

Your spirit of public service is unstoppable and we can all be proud of the outstanding work done on behalf of our citizens!

Employee Assignments

Most of you are still working in your typical jobs, whether teleworking or reporting to your worksite. Some employees who have been on administrative leave, unable to telework or report to their workplace, are beginning to be reassigned to other county departments.

As one example, approximately 30 employees previously on administrative leave are now supporting the Department of Registration & Elections.

Fulton County citizens need us, so we are continuing to look for more opportunities to ensure that our entire workforce is supporting our mission during this critical time.

If you are called to serve in a job that is not your typical assignment, we know that you will show the same level of commitment that you show every day. Remember...we're counting on you!

Cost Control Measures

With millions of Americans out of work, we expect to see a revenue decline this year. At the same time, our costs have increased dramatically as we respond to this crisis. We do not yet know the full economic impact of this pandemic.

To help ensure financial stability in the months ahead, we have put several cost saving measures in effect, including:

- Hiring freeze
- Delay of the Incremental Compensation Strategy implementation
- Delay of new programs and projects

While we understand that these measures may cause some inconveniences, they will help us remain strong financially.

Hazard Pay

On April 15, the Board of Commissioners approved hazard pay, in the amount of \$750, prorated for the month of March, for Hazardous Emergency Essential front-front line employees.

These include public safety, public health, public works and employees who are required to provide daily service to the general public. If you are eligible, you will hear more about this in coming days.

Next Steps

You may have read recent news reports about plans to reopen businesses and governments.

While Fulton County has not set a re-opening date, we are beginning to make preparations to gradually reopen public facilities in coming weeks. In doing so, the safety of the public and employees is our highest priority.

Our next steps will include:

- Ensuring that we have sufficient supplies for cleaning, sanitizing, and personal protective equipment
- Setting up screening stations at facility entrances, and signage on safety protocols
- Reconfiguring offices and public spaces to ensure social distancing
- Making program changes within departments, including modified employee schedules and services
- Training for employees on new procedures

We know that you will continue to rise to the challenge in the weeks ahead.

Thank you for all you do!

Dick,

Per your text, wanted to get this to the top of your inbox (see below). In thinking about this more, we could also build something specifically for Fulton County that could be the blueprint for the state /other counties regarding testing awareness, education, and a platform with site location, registration requirements, etc. This would require a larger funding effort but could be an opportunity build on the county's early activity and success and address a longer-term need.

I've copied Ed Trimble - CEO of GeorgiaALIVE and Genna Keller - CMO of GeorgiaALIVE. Thanks-Ben

<ben.balsley@gmail.com> wrote:

Dick,

Thanks again for your time today. We are encouraged by the testing progress being made across the board both in Fulton County and the state.

As GeorgiaALIVE, we see our role is a unifier and a public awareness/education channel. We simply want to help Georgia and can lend support in ways we think valuable. We have assets in play that could be leveraged at a moment's notice as it relates to a testing education and messaging strategy.

Two ways we can help:

1. Use the GeorgiaALIVE web platform to house testing locations and pertinent site/platform specific information, regardless of entity sponsor. In the messaging, we'd suggest messaging testing criteria (who should get tested as the call to action). This listing would not preclude all other efforts – but could serve as a central point for all to find the critical information they need to know (location, registration process, etc.).
2. Leverage our existing creative platform to extend to and focus on testing. We have the communications channels (facebook, instagram, website, outdoor, media, etc.) built and with the proper resources, they can be amplified to reach all core audiences in short order. We can cross-brand and co-promote.

We'd suggest a follow up call with you to review the approach at a high level. We can show you the site and where testing could live and show you existing creative already in play and note how we can extend. Please let me know what works for you.

Best,

Ben

Hi Karen,

Thanks for reaching out. Your inquiry regarding testing is timely as last week and next will result in a significant ramp-up in testing within Fulton County. Roughly 30% of the state's testing efforts have taken place within Fulton County to date and availability of testing will continue to grow. Additionally, I think we will see a lot more movement across the state to ramp up testing.

There are essentially four streams of testing efforts going on.

- Private run drive thru sites like Walgreens one opening up and the CVS site at GA Tech
- County run public health run sites of which we will have 3 in Fulton County (Fulton County Charlie Brown Airport, Wolf Creek Amphitheater, and 4700 North Point Parkway, Alpharetta (opening on Tuesday) as well as site specific testing
- Georgia National Guard (which will have sites at Greenbriar Mall and GA State University)
- Hospitals and Health Providers

As with any effort, there have been a lot parties involved and not necessarily a single point of contact. As a place to start, I'd probably suggest to link him up with Dick Anderson, who is Fulton's County Manager as Dick has been involved in many of the conversations to move our efforts along and can possibly help get in touch with the right parties at the state level.

I'm happy to connect them.

Kind regards,

Bob

Subject: The Walgreen's sponsored test site initiative and GeorgiaALIVE

Hi Bob,

I hope that you and your family are staying well. Thanks so much for your continuing to share on Twitter the COVID status reports for the cities of North Fulton, those reports are the best and most comprehensive local data that I've seen to date.

I also saw that Walgreens has opened a drive-through COVID test site in Alpharetta, which is a very good development. I wanted to ask if you might be able to assist in connecting a new, Ga. nonprofit with the state leaders/division that's managing the initiative to open the new drive-through test sites?

The reason for my ask is that GeorgiaALIVE (www.georgiaalive.org, see attached) is seeking to align with the state to help to quickly expand the reach and frequency of COVID testing in Georgia.

GeorgiaALIVE is a new, nonprofit leadership initiative formed by GA private sector business leaders to help track and forecast the spread of the novel coronavirus and the associated COVID-19 disease within the state of Georgia and help to expand testing, equipment and supplies.

Genna Keller, the co-founder of Tech Alpharetta's Atlanta-based PR firm, Trevelino Keller, serves on the steering committee for GeorgiaALIVE and reached out to me to ask if I could assist in connecting GeorgiaALIVE with the state leaders who are working to initiate the new drive-through testing sites, so that GeorgiaALIVE can help the state with these efforts.

I'm happy to introduce you directly to Genna if that would make more sense. Just let me know.

Thanks so much, Bob.

Best,

Karen

Dick,
Great to connect with you and I'm not sure if you remember me but we crossed paths at BellSouth back in day. Hope you are doing well and look forward to speaking with you. I'm available tomorrow from 8am-10am and again from 12:30-2pm, if you have 10 minutes during either of those windows. Otherwise, please let me know when you have availability on Thursday or Friday.

Best,
Ben

Bob,

It's great to hear that more testing sites will be opening in Fulton County.

Thanks so much for offering to connect Genna Keller and GeorgiaALIVE with Dick Anderson, Fulton County's Manager, that would be super helpful.

By copy of this email, I'm introducing you to Genna, who serves on the steering committee for GeorgiaALIVE.

Genna, please meet Bob Ellis, Fulton County's District 2 Commissioner.

Bob has kindly offered to connect you with Dick Anderson, Fulton County's Manager, who has been involved in a number of the conversations to help move Fulton County's testing efforts along. Bob noted that there is no single point of contact currently regarding testing sites, but that Dick may be able to help GeorgiaALIVE get in touch with the right parties at the state level.

Genna, I'll let you take it from here.

Bob, thanks so much once again for your help.

Best,

Karen

Subject: RE: The Walgreen's sponsored test site initiative and GeorgiaALIVE

Hi Karen,

Thanks for reaching out. Your inquiry regarding testing is timely as last week and next will result in a significant ramp-up in testing within Fulton County. Roughly 30% of the state's testing efforts have taken place within Fulton County to date and availability of testing will continue to grow. Additionally, I think we will see a lot more movement across the state to ramp up testing.

There are essentially four streams of testing efforts going on.

- Private run drive thru sites like Walgreens one opening up and the CVS site at GA Tech
- County run public health run sites of which we will have 3 in Fulton County (Fulton County Charlie Brown Airport, Wolf Creek Amphitheater, and 4700 North Point Parkway, Alpharetta (opening on Tuesday) as well as site specific testing
- Georgia National Guard (which will have sites at Greenbriar Mall and GA State University)
- Hospitals and Health Providers

As with any effort, there have been a lot parties involved and not necessarily a single point of contact. As a place to start, I'd probably suggest to link him up with Dick Anderson, who is Fulton's County Manager as Dick has been involved in many of the conversations to move our efforts along and can possibly help get in touch with the right parties at the state level.

I'm happy to connect them.

Kind regards,

Bob

Subject: The Walgreen's sponsored test site initiative and GeorgiaALIVE

Hi Bob,

I hope that you and your family are staying well. Thanks so much for your continuing to share on Twitter the COVID status reports for the cities of North Fulton, those reports are the best and most comprehensive local data that I've seen to date.

I also saw that Walgreens has opened a drive-through COVID test site in Alpharetta, which is a very good development. I wanted to ask if you might be able to assist in connecting a new, Ga. nonprofit with the state leaders/division that's managing the initiative to open the new drive-through test sites?

The reason for my ask is that GeorgiaALIVE (www.georgiaalive.org, see attached) is seeking to align with the state to help to quickly expand the reach and frequency of COVID testing in Georgia.

GeorgiaALIVE is a new, nonprofit leadership initiative formed by GA private sector business leaders to help track and forecast the spread of the novel coronavirus and the associated COVID-19 disease within the state of Georgia and help to expand testing, equipment and supplies.

Genna Keller, the co-founder of Tech Alpharetta's Atlanta-based PR firm, Trevelino Keller, serves on the steering committee for GeorgiaALIVE and reached out to me to ask if I could assist in connecting GeorgiaALIVE with the state leaders who are working to initiate the new drive-through testing sites, so that GeorgiaALIVE can help the state with these efforts.

I'm happy to introduce you directly to Genna if that would make more sense. Just let me know.

Thanks so much, Bob.

Best,

Karen

Dick,
Per your text, wanted to get this to the top of your inbox (see below). In thinking about this more, we could also build something specifically for Fulton County that could be the blueprint for the state /other counties regarding testing awareness, education, and a platform with site location, registration requirements, etc. This would require a larger funding effort but could be an opportunity build on the county's early activity and success and address a longer-term need.

I've copied Ed Trimble - CEO of GeorgiaALIVE and Genna Keller - CMO of GeorgiaALIVE. Thanks-Ben

On Wed, Apr 29, 2020 at 5:24 PM J. Benjamin Balsley

<ben.balsley@gmail.com> wrote:

Dick,

Thanks again for your time today. We are encouraged by the testing progress being made across the board both in Fulton County and the state.

As GeorgiaALIVE, we see our role is a unifier and a public awareness/education channel. We simply want to help Georgia and can lend support in ways we think valuable. We have assets in play that could be leveraged at a moment's notice as it relates to a testing education and messaging strategy.

Two ways we can help:

1. Use the GeorgiaALIVE web platform to house testing locations and pertinent site/platform specific information, regardless of entity sponsor. In the messaging, we'd suggest messaging testing criteria (who should get tested as the call to action). This listing would not preclude all other efforts – but could serve as a central point for all to find the critical information they need to know (location, registration process, etc.).
2. Leverage our existing creative platform to extend to and focus on testing. We have the communications channels (facebook, instagram, website, outdoor, media, etc.) built and with the proper resources, they can be amplified to reach all core audiences in short order. We can cross-brand and co-promote.

We'd suggest a follow up call with you to review the approach at a high level. We can show you the site and where testing could live and show you existing creative already in play and note how we can extend. Please let me know what works for you.

Best,

Ben

By copy of this email, I'm introducing you to Genna, who serves on the steering committee for GeorgiaALIVE.

Genna, please meet Bob Ellis, Fulton County's District 2 Commissioner.

Bob has kindly offered to connect you with Dick Anderson, Fulton County's Manager, who has been involved in a number of the conversations to help move Fulton County's testing efforts along. Bob noted that there is no single point of contact currently regarding testing sites, but that Dick may be able to help GeorgiaALIVE get in touch with the right parties at the state level.

Genna, I'll let you take it from here.

Bob, thanks so much once again for your help.

Best,
Karen

Subject: RE: The Walgreen's sponsored test site initiative and GeorgiaALIVE

Hi Karen,

Thanks for reaching out. Your inquiry regarding testing is timely as last week and next will result in a significant ramp-up in testing within Fulton County. Roughly 30% of the state's testing efforts have taken place within Fulton County to date and availability of testing will continue to grow. Additionally, I think we will see a lot more movement across the state to ramp up testing.

There are essentially four streams of testing efforts going on.

- Private run drive thru sites like Walgreens one opening up and the CVS site at GA Tech
- County run public health run sites of which we will have 3 in Fulton County (Fulton County Charlie Brown Airport, Wolf Creek Amphitheater, and 4700 North Point Parkway, Alpharetta (opening on Tuesday) as well as site specific testing
- Georgia National Guard (which will have sites at Greenbriar Mall and GA State University)
- Hospitals and Health Providers

As with any effort, there have been a lot parties involved and not necessarily a single point of contact. As a place to start, I'd probably suggest to link him up with Dick Anderson, who is Fulton's County Manager as Dick has been involved in many of the conversations to move our efforts along and can possibly help get in touch with the right parties at the state level.

I'm happy to connect them.

Kind regards,

Bob

Subject: The Walgreen's sponsored test site initiative and GeorgiaALIVE

Hi Bob,

I hope that you and your family are staying well. Thanks so much for your continuing to share on Twitter the COVID status reports for the cities of North Fulton, those reports are the best and most comprehensive local data that I've seen to date.

I also saw that Walgreens has opened a drive-through COVID test site in Alpharetta, which is a very good development. I wanted to ask if you might be able to assist in connecting a new, Ga. nonprofit with the state leaders/division that's managing the initiative to open the new drive-through test sites?

The reason for my ask is that GeorgiaALIVE (www.georgiaalive.org, see attached) is seeking to align with the state to help to quickly expand the reach and frequency of COVID testing in Georgia.

GeorgiaALIVE is a new, nonprofit leadership initiative formed by GA private sector business leaders to help track and forecast the spread of the novel coronavirus and the associated COVID-19 disease within the state of Georgia and help to expand testing, equipment and supplies.

Genna Keller, the co-founder of Tech Alpharetta's Atlanta-based PR firm, Trevelino Keller, serves on the steering committee for GeorgiaALIVE and reached out to me to ask if I could assist in connecting GeorgiaALIVE with the state leaders who are working to initiate the new drive-through testing sites, so that GeorgiaALIVE can help the state with these efforts.

I'm happy to introduce you directly to Genna if that would make more sense. Just let me know.

Thanks so much, Bob.

Best,
Karen

Hi Marvin and Dick, I hope you and your families are doing well,

Thank you for your interest in reviewing our product as I'd like to introduce Thermal Vision Solution;

- Thermal Vision Solution Features MULTIFUNCTIONAL: US Based
-
- The solution has multiple functions that detect certain symptoms of Covid-19 and report hazardous behaviors that may help it spread. PRIVACY PROTECTED:
-
- No internet connection is needed, no personal information is collected and human faces are blurred in any delivered or stored data. EASY TO USE:
-
- No contact is needed, operator-free, alerts via multiple channels and trackable alert logs make it easy to use. EASY TO SETUP:
-
- The device can be either installed on existing walls or tripods, or fixed onto mobile carts which makes it easy to move. ENTERPRISE READY:
-
- The whole system can be deployed in an enterprise network environment and the data can be easily integrated with other systems.

I'd like to show you how this solution works and how it may be configured specifically for your business/medical needs. **Please follow up with two dates and times where you and your team may sit for an interactive demonstration and get all of your questions answered from our subject matter experts. Also keep in mind to check with FEMA and the Cares Act as this technology can be covered in many cases.**

Cordially,

Kathrine M. Williams

Today at 2 p.m.

Fulton Providing Six Medical Transport Units to South Fulton Cities to Aid in COVID-19 Response

Six new units will be shared among South Fulton cities

WHAT: Transfer of six medical transport units for use by South
Fulton cities

WHEN: 2 p.m. TODAY, Friday, May 1, 2020

WHO: *Anticipated attendees include:*
Fulton County Chairman Robb Pitts
Vice Chairman Marvin S. Arrington, Jr.
Commissioner Joe Carn
Fulton County Manager Dick Anderson
Fire Chiefs of South Fulton cities

WHERE: Wolf Creek Amphitheater, 3025 Merk Rd SW, College Park, GA
30349

WHY: To assist with COVID-19 response, Fulton County has
leased 6 medical transport units to support emergency
medical service response in South Fulton, which includes
many of the ZIP codes with the greatest incidence of COVID-
19 in Fulton County. These will be shared among the cities.

The fire chiefs of the cities of City of South Fulton, Union City, Fairburn, College Park, Chattahoochee Hills, East Point and Palmetto requested the support of additional medical transport vehicles for 90 days during COVID-19 response. These vehicles will be shared by the cities and used by their fire departments for medical transport if Grady EMS is unable to meet demand. Many of the Fulton County ZIP Codes with the highest incidence of COVID-19 disease are located in South Fulton County.

Mr. Anderson,

I probably needed to be more specific in detailing the process used. The established protocol calls for disinfectant fogging whenever there's a confirmed positive test result. Spaulding used the fogging method to treat the janitorial offices, restrooms on floors B-3rd, B-3rd hallways, the Pryor and Peachtree entry points, and the raised dining area on the Peachtree level. As an adjustment to the original plan, only high frequency touch points received an additional wipe down. All other listed areas were fogged. Hopefully, this clarification addresses your concern.

Thanks.

Good evening,

Spaulding Decon will be on site shortly to begin the disinfectant process. The subject individual worked on the floor team and was only in Government Center common areas (hallways) on the basement, 1st, 2nd, and 3rd floors along with both freight elevators. Because the individual did not go into any County office spaces, we will decon the elevators and the janitorial offices in the basement. All other areas will be addressed by the janitorial contractor wiping down all high frequency touchpoints (handrails, elevator keypads, doorknobs/handles with approved disinfectant. Restrooms are disinfected nightly by the cleaning contractor. All affected areas will be safe to reoccupy/use in the morning.

Thanks.

Contractor Employee in Government Center

Everyone,

Just informed by Joe that we got word that a contractor custodial employee in the government center tested positive today. This employee was in the building yesterday. The employee was a floor tech who worked floor cleaning so we don't believe he was in office areas but are tracing. He was in public hallways and the bridge at least lower levels. Joe and team are working with the contractor to identify areas to clean and response tonight.

Just wanted everyone to be aware and be safe on your way out tonight given you all are still in the building. Joe will be updating tonight on areas cleaned by Spaulding and staff.

The contractors wear mask and gloves, so what we decided plays into the response. Had the positive person not been wearing mask and gloves, I would agree with a more aggressive approach. My opinion.

Subject: URGENT NOTICE: COVID Positive Test for Custodial Contractor Employee in Government Center

Everyone,

Just informed by Joe that we got word that a contractor custodial employee in the government center tested positive today. This employee was in the building yesterday. The employee was a floor tech who worked floor cleaning so we don't believe he was in office areas but are tracing. He was in public hallways and the bridge at least lower levels. Joe and team are working with the contractor to identify areas to clean and response tonight.

Just wanted everyone to be aware and be safe on your way out tonight given you all are still in the building. Joe will be updating tonight on areas cleaned by Spaulding and staff.

<Joseph.Davis@fultoncountyga.gov> wrote:

Good evening,

Spaulding Decon will be on site shortly to begin the disinfectant process. The subject individual worked on the floor team and was only in Government Center common areas (hallways) on the basement, 1st, 2nd, and 3rd floors along with both freight elevators. Because the individual did not go into any County office spaces, we will decon the elevators and the janitorial offices in the basement. All other areas will be addressed by the janitorial contractor wiping down all high frequency touchpoints (handrails,

elevator keypads, doorknobs/handles with approved disinfectant.
Restrooms are disinfected nightly by the cleaning contractor. All affected areas will be safe to reoccupy/use in the morning.

Thanks.

A Message From County Manager Dick Anderson

Dear Fulton County Employees:

It has been more than a month since most of our Fulton County facilities closed to the public.

During that time, thanks to your hard work, we have seen an incredible transformation in the way we serve citizens.

As the situation continues to evolve, I wanted to give you an update about our COVID-19 response and how it may affect you as an employee.

Transformation of Services

In the last month, virtually every Fulton County department has found new ways to deliver services, using creativity, innovation and technology to deliver services in new ways.

Your spirit of public service is unstoppable and we can all be proud of the outstanding work done on behalf of our citizens!

Employee Assignments

Most of you are still working in your typical jobs, whether teleworking or reporting to your worksite. Some employees who have been on administrative leave, unable to telework or report to their workplace, are beginning to be reassigned to other county departments.

As one example, approximately 30 employees previously on administrative leave are now supporting the Department of Registration & Elections.

Fulton County citizens need us, so we are continuing to look for more opportunities to ensure that our entire workforce is supporting our mission during this critical time.

If you are called to serve in a job that is not your typical assignment, we know that you will show the same level of commitment that you show every day. Remember...we're counting on you!

Cost Control Measures

With millions of Americans out of work, we expect to see a revenue decline this year. At the same time, our costs have increased dramatically as we respond to this crisis. We do not yet know the full economic impact of this pandemic.

To help ensure financial stability in the months ahead, we have put several cost saving measures in effect, including:

- Hiring freeze

- Delay of the Incremental Compensation Strategy implementation
- Delay of new programs and projects

While we understand that these measures may cause some inconveniences, they will help us remain strong financially.

Hazard Pay

On April 15, the Board of Commissioners approved hazard pay, in the amount of \$750, prorated for the month of March, for Hazardous Emergency Essential front-front line employees.

These include public safety, public health, public works and employees who are required to provide daily service to the general public. If you are eligible, you will hear more about this in coming days.

Next Steps

You may have read recent news reports about plans to reopen businesses and governments.

While Fulton County has not set a re-opening date, we are beginning to make preparations to gradually reopen public facilities in coming weeks. In doing so, the safety of the public and employees is our highest priority.

Our next steps will include:

- Ensuring that we have sufficient supplies for cleaning, sanitizing, and personal protective equipment
- Setting up screening stations at facility entrances, and signage on safety protocols
- Reconfiguring offices and public spaces to ensure social distancing
- Making program changes within departments, including modified employee schedules and services
- Training for employees on new procedures

We know that you will continue to rise to the challenge in the weeks ahead.

Thank you for all you do!

*-Dick Anderson
County Manager*

[Scanner from GetixHealth.pdf](#)

Hi Marvin and Dick, I hope you and your families are doing well,

Thank you for your interest in reviewing our product as I'd like to introduce Thermal Vision Solution;

- Thermal Vision Solution Features MULTIFUNCTIONAL: US Based
-
- The solution has multiple functions that detect certain symptoms of Covid-19 and report hazardous behaviors that may help it spread. PRIVACY PROTECTED:
-
- No internet connection is needed, no personal information is collected and human faces are blurred in any delivered or stored data. EASY TO USE:
-
- No contact is needed, operator-free, alerts via multiple channels and trackable alert logs make it easy to use. EASY TO SETUP:
-
- The device can be either installed on existing walls or tripods, or fixed onto mobile carts which makes it easy to move. ENTERPRISE READY:
-
- The whole system can be deployed in an enterprise network environment and the data can be easily integrated with other systems.

I'd like to show you how this solution works and how it may be configured specifically for your business/medical needs. **Please follow up with two dates and times where you and your team may sit for an interactive demonstration and get all of your questions answered from our subject matter experts. Also keep in mind to check with FEMA and the Cares Act as this technology can be covered in many cases.**

Cordially,

Subject: VIDEO: New Orleans Mayor LaToya Cantrell and Atlanta Mayor Keisha Lance Bottoms on coronavirus response, reopening their cities
Date: Tuesday, April 28, 2020 7:55:12 PM

[32c.social.jpg](#)

WATCH VIDEO HIGHLIGHTS

Today, in live-streamed, back-to-back interviews, **Atlanta Mayor Keisha Lance Bottoms** and **New Orleans Mayor LaToya Cantrell** discussed their cities' response to the coronavirus crisis with Washington Post National Political Reporter Robert Costa.

Mayor Bottoms reflected on Georgia Governor Brian Kemp's controversial decision to reopen parts of the state, "Our numbers are continuing to rise...When I look at states that are trending in the right direction like New York, and you see Washington state was able to make a tremendous amount of progress, it was because they were diligent and continued to socially distance, but in Georgia we are going in the opposite direction."

When asked what the city of New Orleans needs in federal funds for COVID-19 recovery, **Mayor**

Cantrell said, "The federal CARE Act, the dollars do not cover our losses as a city. I'm looking at about \$150 million deficit...The losses of revenue from tax dollars, it doesn't cover that...we need the dollars to cover our losses."

Asked whether she sees Mardi Gras 2021 happening as scheduled, **Cantrell** responded, "We will let the data dictate the dates."

Subject: Warehouse
Date: Thursday, May 7, 2020 7:22:55 AM

Please work together on near, mid and long term needs for warehouse space for PPE.

Questions:

If 4700 NP is suitable for near-term, what enhancements have to be made for mid-term (say 18 months)?

Do we require shelving and enhanced security given \$10M in inventory?

Should we plan for a portion of building to be dedicated to warehouse needs while we open other functional areas?
Say the half the first floor with loading dock access?

Should we leave building in state of suspended animation (move no other functions in) until the COVID-19 crisis is over?

If we don't see keeping a cache of PPE forever, then can 4700 suffice?

If we believe we must keep a cache of PPE always on hand, do we need to own or lease a space?

Pls think all of the above through with some financial analysis. Thanks!

Dick

Updates on Coronavirus Disease (COVID-19): Identifying and Preparing for COVID-19 Compliance Risks

May 1, 2020
11 – 11:30 a.m. EDT
Via webinar

RSVP

We are pleased to invite you and your colleagues to join Dentons for the next briefing in our weekly webinar series on policy and critical issues related to COVID-19 (coronavirus) in the US. During this interactive conversation, we plan to discuss how COVID-19 presents some unique challenges for businesses who are quickly adjusting to a new way of doing business or trying to maintain solvency during shut down orders. Our team outlines some of the specific compliance risks companies are facing in this new environment and provides recommendations to mitigate those risks. Some areas

include:

- Government Loan Program Risks, including SBA loans
- SEC Risks, including insider trading, reporting of coronavirus risks
- Health Care Fraud Risks, including and minimizing False Claims Act whistleblower risks

Stay up-to-date with all of our insights and guidance by visiting our US COVID-19 hub [here](#) and signing up for future alerts and events [here](#).
