Summary of Complaint:

I am a physician and let go from my job. This is a medical office where our "covid" masks are stored with a chemical called phenol making the masks toxic. The office is actively seeing patients when one employee tested Covid + and exposed all employees. I was fired because I refused to do surgery because of this Covid +. I chose to quarantine for 14 days. No practice patients were notified that I came into direct contact with. Too many OSHA violations to count. The office needs a "surprise" inspection. Mold, animal traps with dead mice daily, leaks in all the rooms, unsanitary practice regarding equipment in each room, they are reused (even bloody) instruments on all patients. Workers only wipe down with alcohol between

patients. Staff cannot use gloves when touching patients. I was only allowed to use sterile gloves when doing a procedure. All these measures were to keep costs down.

By entering my name Ann Hanon and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

Summary of Complaint:

I had [REDACTED] on March 10th on campus. I then underwent [REDACTED]
[REDACTED] I am now being reassigned to the Building Access/Health Monitoring team. They do wear masks, gloves, and work behind Plexiglas to sign people in and take temperatures. I was told basically to do this take FLMA (which I used during my recent health issues) or personal leave. I can't afford to go without pay. How can they require someone like myself [REDACTED] to be on the front lines of Covid?

By entering my name Marybeth Mason and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated

information is true and correct to the best of my knowledge, information, and belief.

Summary of Complaint:

I am a former employee at the KC Zoo. I am filing this complaint because I have heard from too many former colleagues that they feel the working conditions are unsafe and are afraid to speak up in the organization for fear of disciplinary action. In the re-opening of the Zoo after COVID hit, concerns are that the Zoo has been unable to transition to this new mode of operating while keeping staff safe. I have heard reports that staff have had to consistently stand out in full sun for 7-8 hour shifts with no breaks. Until a week ago, staffers had no access to water while at their assigned posts. After an employee got heat sick, access to water was given. While at their post, staff are unable to sit down while guests are present, meaning they are on their feet for full 7-8 hour shifts, with no anti-fatigue mats to stand on. When they are allowed a lunch break, some are given 1/2 hour lunches, others an hour, even though they are all doing the same "security/safety guest" monitoring job. Moreover, staff is being told that the zoo is open out

of financial necessity so that they do not need to let any staff go. However, the Zoo received a small business payroll protection loan & a portion of the employees' salaries are paid by a tax fund, not Zoo admission. Guests are not required to have their temperatures taken or to wear masks while in the Zoo. One wonders about the safety of opening a park where children run free in the wake of a pandemic, how necessary that is in the first place (given the loans and taxpayer money the Zoo receives to meet payroll) and how having the Zoo open to the public might be endangering both the public and the staff.

By entering my name Meghan Newman and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

Summary of Complaint:

Several workers has been reported with COVID-19. There is office billing personnel that handle over 1000 bills paperwork daily. The paper work comes in contact from unknown persons-Employers to the drivers to the office personnel to bill for freight that was pickup and being delivered.The billing workspace is under 1000 sq and house billing personnel. Each person is separated by one desk. Evening shift has 15 personnel with all open space no walls. Drivers and dock workers walk through on a daily basis. When there is a issue with freight no social distancing in place. Several workers are walking through coughing and sneezing as they use this space to walk through to exit the building. We were told this week several associates were in contact with COVID but could not give no names or how many but notice some billing personnel has not returned since over the weekend.

By entering my name Marcia Stevenson and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

There is no Supporting Documentation attached.

Summary of Complaint:

C.L.C. is not following the guidelines from the health department or the C.D.C. regarding safety of staff or children regarding Covid 19. Requesting to wear masks is prohibited by Julie Hawkins. Social distancing measures are not being taken. Playground equipment is being used and not ever cleaned. The thermometers at the front doors do not read accurately and when informed Julie ignores this issue. Children are being combined all ages and not the same staff members in the classrooms. Outside food is constantly being brought in by the cook from a local Walmart without proper sanitation. Outside treats are being brought in for the children. State ratios are not being kept. This is evident all over the Facebook page. Birthday celebrations and food. Combination of all ages children in different classrooms. When attempting to address Julie on the phone she refused to speak to me telling me to call the office. When calling the office the owner

Mark Daly refused to listen to any concerns. I am currently out on a medical leave and am hoping they fix all of the safety and health issues before my return. I have worked at C.L.C. 14 years. The disregard for my concerns has been upsetting. As a mandated reporter I feel it necessary I submit this complaint.

By entering my name Goldie Forrester and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

Summary of Complaint:

A message received via text stating positive cases were present at my facility on April 4th, the message was not sent until May 11th to inform employees in the building. How does it take 5 weeks to inform a facility about a positive possible exposure. I chose to take the only option provided aside from possible and highly likely exposure that was just a matter of time. Unlimited unpaid time off from March 30th until May 1st (when the offer was recently rescinded). The days prior I felt very uncomfortable with the unsafe working conditions, lack of preventative measures being implemented or enforced at the time. I was overlooked for any kind of

unemployment as we are labeled essential and the corporation housed more than 500 employees. . I live with/care for my grandmother who is 82 & considered to be High Risk. I am also a single mother with a 7 year old daughter and no other child care. Quitting would bare no benefit to me during this time. The lack of financial relief options provided to someone in my situation and the loopholes this corporation seems find. Whistleblowers being fired for speaking out. Amazon employees use a Facebook forum to announce positive cases & site locations. It's truly scary seeing these numbers continuously on the rise I don't care what kind of measures are in place - it's clearly not enough!!!. We are transferring packages from site to site. Is anyone going to b e held accountable. It is running rampant from facility to facility. It seems as though no one cares, the people that do speak up publicly end up fired. They incentivized pay and overtime but no relief aside from unpaid time off with no other avenue of income for some of us, making the choice of safety over a paycheck nearly non existent. There is no accountability and people are dying. How are they getting away with this?

By entering my name Susanne Blake and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

12:09 -

STL5 just learned of cases with last day's onsite of April 4. We have taken measures to keep you safe: implementing mandatory social distancing, requiring everyone to wear a face covering, conducting temperature checks, staggering shifts, and more frequent cleanings. Your safety and health is our top priority. We will inform anyone who may have been in close contact and we will proactively reach out directly to advise of any possible exposure. If you feel sick, stay home. Questions? Contact HR.

I won't be there tonight not really sure about the rest of this week. I'm going to reach out to Justin later just so he is aware. I feel bad having to reach out to you all of the time. Seeing how it was in there last night & making it really hard to maintain the 6ft minimum very well for multiple reasons. I feel like it's only a matter of time before it hits our building especially w/ how hard it is to enforce or follow even unintentionally. I'm really torn with this virus and the possibility of putting my grandma or my kid at risk but at the same time the importance of me being new to the team, the reliability factor and making sure I'm not missing adequate training which I know I am. I worked really hard & really proud to get where I am & be part of TOM w/ all of you. I'm just having a hard time. I don't want not being there to be factored into my contribution to the team or not being dependable. I'm just truly unsure how I need to go about this right now and I'm worried about the next few weeks to be honest.

There is no Supporting Documentation attached.

Summary of Complaint:

Delmar Gardens in O'Fallon is not protecting its employees or residents during this health crisis. John Daniels has tried to cover up a potential case of coronavirus within the establishment and is not quarantining the patient or any people that have come in contact with him/her. Dining workers do not have any soap at their disposal and he did not provide them with masks. He told employees not to talk about the patient who may have the virus and yelled at them for hearing about it. He is still allowing families to see residents and allowing new patients into the facility. Until recently, residents were still dining together. They will not take precautions until a case has been confirmed. Numerous employees have reported the business and are intending to quit.

By entering my name Lily Fisher and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

Summary of Complaint:

I am concerned about uploading emails/photos here for fear of retaliation or violating HIPPA warning at bottom of the emails We were told to direct questions/violations/concerns to her.I asked ques and she only answered some.I reasked, she never responded. My supervisor (not medical) answered the medical ques.I included the CEO and have heard nothing. I am an RN. Whorking this weekend I saw violations and things I was told would be available (hand sanitizer, proper receptacles for disposing used ppe, no cleaner in bathrooms were not present. My boss, the IC RN,nor CEO responded to my evidence. Our sister hospital(St Charles) had an outbreak and got closed. We found out from a FB post the hospital posted saying they had 1 case and that (pt had long been discharged).When I emailed (have proof) about getting patients sent to us I was ignored.Another hospital called me to see if we were still open because it was on news that (ST Charles)do

ors were locked for 15staff and 3pts positive. We were not told.I saw an email(supposed to be private)that corporate didnt want us to know. IC nurse and supervisor(private emails) typed that I was on a rampage and nothing they could do with me.Jokes that I needed to see a Psychiatrist because I was abnormal. They sent these emails to a group of 6 of my coworkers by accident. Noext day tried to reatract. These also say they will ask about getting the proper hand sanitizer, that corporate were keeping our exposure from us. Boss told me she would respond to concerns on Tues.but didnt.They know I have seen "private" emails(HIPPA violation) and have not responded.This is tip of iceberg.I feel harassed and bullied and ignored in hostile and non protected during this pandemic. I am scared what they will do once they get this complaint.

By entering my name traci lynn and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

Canady, Mary

From: Brian Max <Brian.Max@garda.com>
Sent: Wednesday, March 25, 2020 10:35 AM
To: Canady, Mary
Subject: Unconfirmed Case

Mary,

As discussed we have an unconfirmed case with one of the officers at Enterprise CCP. He will be self-quarantined for 14 days per the doctors request. He did NOT meet the requirements for testing. I want to stress that it is NOT a confirmed case, however, the staff should monitor their own personal health for precautionary reasons.

Also, we should be practicing social distancing per the CDC's guidelines: keep a 6ft distance, wash your hands frequently, and use hand sanitizer after touching shared surfaces; Sanitize work stations after each shift and before and after each shift change. Have only one officer in the control room at time. One officer should be patrolling, and the other stationed in the front area when not doing rounds.

Please share this information with your staff.

Thank you.

Brian Max
Client Services Manager

I'm at the Hospital. They said they are not giving me the test because I don't need to be on a respirator. But they are treating me as if I have the Corona Virus because of my

Summary of Complaint:

Mercy Hospital is reusing masks (regular and N95). They are also reusing gowns for patients with different diagnosis. Discontinuing the use of masks for patients with Rhino, Flu (more than 5 days). We can't wear gowns in MRSA patient rooms anymore. We are only allowed one mask per shift. We are recycling masks in bins. They are having us keep masks in brown paper bags. Masks hold germs on the inside and out. We have to reuse them for different patients with different diseases. It is very unsanitary.

Summary of Complaint:

They're not doing enough to protect us, my store manager thinks this virus is just like the flu and it'll take it's course. I have a family member [REDACTED] that I live with I cannot expose him to this. The other family member I live with just returned from Ventura county California and is being monitored for Covid-19 as she just returned from there and went through LA-X. I have other images to prove they are not doing enough to protect us. They also should be diverting all masks to nurses and doctors who need them more than us. They could close the stores and do curbside or drive through pick up. It is impossible to do social distancing in a retail setting. Today I called into work as I fear exposing coworkers and customers

because of my living situation and the family member returning from cali one of my boyfriends co-workers who is an emt / fire fighter is exhibiting symptoms. I have a slight fever, when expressing my concerns to my boss he did not see the problem and did not understand why I was calling out of work. It IS CDC guideline to not wait for symptoms, to not expose others. I am a manager for the front store of my location, I often have to ring people out in the pharmacy, they are willing to give pharmacists and techs masks but not us. I brought supplies from my home to help protect my coworkers as we didn't have sanitize, we didn't have cleaner, we didn't have gloves. They are doing nothing to protect us or our customers. This is not acceptable. I have been with the company for six years and will probably lose my job now. Would I be able to claim for unemployment if this happens due to this situation? I HAD to call out for the safety of everyone involved. I have gotten to know my co-workers and customers well and I do not want to put them at risk anymore than they are. Please get back to me.

By entering my name Anna Keel and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

Message

At this time, mask usage is recommended only when interacting directly with a sick patient. For this reason, we are working to ensure that pharmacy staff and MinuteClinic providers have access to facemasks from our remaining inventory to use as a precautionary measure when assessing or working with patients who are ill.

Q: Will front store colleagues also have access to facemasks?

A: We are prioritizing facemasks for our health care providers who are regularly working with patients who are ill, and are at a higher risk of being infected. This decision was made in accordance with the guidance and recommendations of WHO, the CDC, the U.S. Surgeon General, and other health experts.

Q: What can front store colleagues do to protect themselves?

A: The health and safety of all of our colleagues remains a high priority. You can reduce your risk of infection by washing your hands often, avoiding touching your eyes, nose, or mouth, and avoiding close contact with people who are sick. If you have cold-like symptoms, as a courtesy to your co-workers and others, please remain at home while you are sick.

You can learn more about our response to the COVID-19 outbreak at our Coronavirus Resource Center on myLife, or by visiting <http://CVSHealth.com>.

Summary of Complaint:

I am working with the public that could have came in contact with contagious virus; covid-19. I can not wear latex gloves because our registers wont work with them. I have to stand closer than 3 feet most times to most people while ringing up their items, and take their money without being able to sanitize it and pass it along to others. Many people coming in the store at a time travel from different parts of Missouri. I am worried about becoming sick and spreading it to others I am in contact with everyday; including small children and grandparents. I do not think this is safe for any of us.

By entering my name Cassandra Crane and submitting this electronically, I do hereby affirm under penalties of perjury that the above-stated information is true and correct to the best of my knowledge, information, and belief.

Below is the complaint information

MISSOURI

Kansas City Area Office

Two Pershing Square

2300 Main Street, Suite 168

Kansas City, Missouri 64120-2416

(816) 483-9531

(816) 483-9724 Fax

Establishment Name: FARMINGTON CORRECTIONAL CNTR LAUNDRY/MVE

Site Street: 1012 WEST COLUMBIA STREET

Site City: FARMINGTON

Site State: Missouri

Site Zip: 63640

Hazard Description:

: I am very concerned for a family member and also others in the prison jails in Missouri. My loved one had called me scared and worried because; he works in the laundry department as an inmate worker and they do laundry for surrounding hospitals and other companies. While he was sorting out the laundry he came across a red bio-hazard bag with material that was put in the regular laundry and not the bio-hazard waste container at the facility it came from and the label had said 'bio-hazard material, contaminated with Covid-19'. So he immediately notified the prison guard/s about the bag and they made him open the bag and put it in the wash with everything else with no proper PPE (personal protective equipment) except for a face mask that I'm told that doesn't even protect the mouth and nose correctly. So I went on to ask him if he washed his hands and used sanitizer and was then advised that they do not have sanitizer and only soap that more than likely isn't even anti-bacterial. I'm very concerned and do not know

who to contact to get the word out but the news. If you have and questions or anyone I do need to contact you can call me at 573-310-0094, Please i would like to stay confidential for now.

Hazard Location:

This prison that my loved one is currently in where this happened is: Farmington Correctional Center 1012 West Columbia, Farmington, MO 63640 Phone Number: (573) 218-7100
