Charles, et. al.

Here is a quick update on our Urgency Ordinance enforcement/outreach and education efforts which we began September 1st in Castroville, Moss Landing and Pajaro.

As of yesterday:

- EH staff completed 577 visits to health regulated facilities:
 - 58 required a 2nd follow up visit with education/outreach and masks provided.
 - 4 required a 3rd follow up with additional reinforcement and warning of pending citations if no compliance. Masks provided again.
 - 1 required a 4th follow up but compliance was finally attained.

No citations were issued as of 9-9-20.

Temp enforcement staff will revisit all 58 sites that required two or more site visits to

assure compliance continues and if not compliant a citation may be issued.

Staff are now in the salinas valley unincorporated areas and scheduling employee housing inspections. After these are completed staff will move into Carmel Valley or Big Sur depending on fire situation. Temporary Enforcement staff will travel to all areas and be responsive to complaints from public as calls come in. So far, no complaints have been received.

I will provide a weekly report with the intent to provide a report to the board in mid to late October as we anticipate to complete the 2,300 inspections by end of September and our enforcement temp staff will then concentrate on sites that are not regulated or responding to complaints county wide in county jurisdiction.

John
